Mrs. Bothwell Says She Cried Hours At a Time

She Had Given Up Hope of
Ever Being Well Again—
Gains Twelve Pounds by
Taking Tanlac.

"During the past two years I was in the hospital three different times, and I spent hundreds of dollars for treatment and medicines besides that, but I never got any relief until I commenced taking Tanlac," said Mrs. M. Bothwell, who lives at 873 Clover Bay road, Edmonton, Alberta, while talking with a Tanlac representative recently.

"When I commenced taking Tanlac," continued Mrs. Bothwell, "I had actually given up all hopes of ever getting well again. Why, I had reached the point where I was so blue and discouraged over my condition that I would lie down and actually cry for an hour at a time. I suffered so much on account of the condition my stomach was in my entire nervous system got all out of order, and at times I was so nervous that I could hardly raise a cup of tea to my mouth without spilling a lot of it, and I never got anything like a good night's sleep. My stomach finally got in such bad condition that the slightest sort of food would cause me to have awful cramping spells. In fact, I just seemed to be in such bad condition that nothing I would eat would digest properly. I suffered terribly from headaches, too, and would get so dizzy at times that everything seemed to be whirling around. All my strength and energy seemed to leave me, and I finally got so completely run-down and worn out that I was not able to get about very much."

"Then I commenced taking Tanlac, and to my great surprise I began to feel better right away. Why, I can truthfully say that I began to sleep better the second night after I started taking this wonderful medicine, and in a very short time after that I was feeling like a different woman entirely. I have just finished my fourth bottle of Tanlac, and I am not only rid of all those troubles, but I have actually gained twelve pounds in weight, and I never had such a ravenous appetite in all my life. My food agrees with me, too, for my stomach trouble has been so completely overcome that I never suffer from indigestion, and my food doesn't sour at all. I am also free from those terrible headaches, and I haven't had one of those dizzy spells in a long time. I am so well and strong in every way that I not only do all my housework now, but I do my own washing, and that is something I haven't been able to do for a long time. My nerves seem to be in perfect condition, and I sleep just like a baby every night. Tanlac cured me of all my troubles, and I am so happy over what it has done for me that I just can't think of enough good things to say about it."

Tanlac is sold in St. John by Ross Drug Co., and F. W. Munro under the personal direction of a special Tanlac representative.—Advt.

COMMON COUNCIL MET IN COMMITTEE

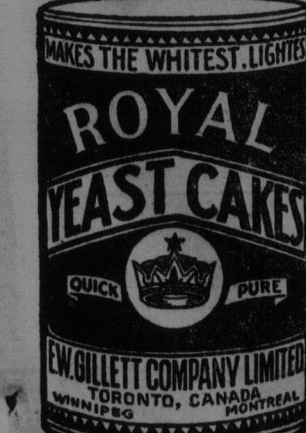

Decided Yesterday to Appoint
Commission of Three to
Handle Funds and to Adopt
General Housing Scheme
of Province.

The common council in committee yesterday morning took up the housing question and decided to appoint a commission of three to handle the funds and to adopt the general housing scheme of the province. Mayor Hayes reported that in Ottawa the city was spending \$1,000,000 this year and building houses on applications received. The houses cost about \$5,000 each and were handed over on the payment down of ten per cent. of the cost and balance \$20 per month. In Toronto the city was planning the building of 500 houses and these would be sold on the same terms as in Ottawa. The council decided that incidental fees, such as architects, etc., should be borne by the city and not charged to the buyers of the houses. A motion to go ahead with the erection of houses under this plan was adopted.

The application of T. McAvy and Sons to be released from their lease of the machinery hall in the exhibition buildings was laid over.

A delegation from Lancaster appeared and asked for better water service for that section. No action was taken.

Harbor commission was discussed and it was decided to let this stand for further consideration before accepting the offer of the government or taking a plebiscite on the matter.

Says Gouin Will Be Liberal Leader

Montreal Business Man Says
He Can't Explain it, the
Logic of Facts is Against it,
But Gouin is Foxy.

"I have a hunch Gouin will be leader of the Liberal Party," remarks a prominent business man of Montreal to a Standard reporter. "I don't know why; I can't explain it. The logic of facts is against it. Gouin is foxy, and he must know that it is an almost impossible task to pull the Liberal Party together sufficiently to make any fight next election. And as Premier of Quebec he has what looks like a permanent job. He has made good in that job, and given the province good and strong government."

"But I have the hunch, and would not be surprised if some quixotic notion makes him try for the leadership of the Liberal Party—some idea of getting 'what he goes after.' He is standing up for Quebec at a time when it has little recognition in the government at Ottawa. And Gouin has a way of getting 'what he goes after.'"

"At the same time I don't think he has any hope that the Liberal Party will come back next election. Everything is against it. The West wants the leadership and the claims of Martin are being pushed to the forefront. At the same time the West may not swing the Ottawa convention. The Western grain growers are organizing a straight political party of their own, and the leaders of this new party say they will have no truck with the Liberals. Then labor in the West is talking political action, and the defeat of the direct actionist policy at Winnipeg is likely to have the effect of giving impetus to the political movement of labor. The Liberal leaders of the West, deprived of the support of the grain growers, which has been their strong card in the past, and unable to pretend that they have the support of the radical labor element, may not carry much weight in shaping the future of the Liberal Party."

"Then in Ontario the situation is such that the Liberal representation from that province to the Ottawa convention will not have its usual influence. The turning down of Mr. Proudfoot and the election of Hartley Dewar as Liberal leader for the province cuts off the Liberal Unionists from any hope of having an adequate say in the choice of leaders or policy for the Federal party, and will doubtless have the effect of forcing Liberal Unionists to remain where they are. Again, the Ontario farmers are organizing a party of their own, having already elected three men to the Provincial Legislature, and their leader, Mr. Drury, has announced that the new party will have nothing to do with the Liberal Party under McKenzie or anybody else. Ontario labor is organizing on independent lines. Many of the active labor men of Ontario are old countrymen wedded to the doctrine of non-alignment, who in the past have given their votes and influence to the Liberal Party. Both the farmers and labor party will weaken Ontario Liberalism, especially on its free trade and radical side."

"Another factor in the situation is the returned soldiers; they will doubtless be after direct representation on their own account, and will help to complicate matters."

"In view of the emergence of these new parties and the fact that the Liberal Unionists will be largely unrepresented, there is little doubt that Quebec can dominate Ottawa, and that the leadership can be acquired by Gouin if he wants it. He would be more satisfactory to Maritime Liberals than a man from the West."

"That is the situation as it strikes me, but in the general mix-up it requires a pretty good prophet to forecast the outcome. One don't argue with a hunch, though, as I said, for Gouin to take the job which would be a thankless and hopeless one at the present time, would be foreign to his reputation as a hard-headed practical man of affairs."

BE NO CHANGE IN THE TRAINS

Suburban Passengers on C. P.
R. Arriving Here at 7.45
a.m. Voted in Favor of Continuing as at Present.

Passengers on the C. P. R. suburban arriving here at 7.45 a.m. on Wednesday morning were canvassed with the idea of finding out the number in favor of changing the time of this train. Out of 162 passengers there was a majority of 16 in favor of continuing as at present. The C. P. R. has decided that there will be no change in the train for the present at least. It was understood that most of the train patrons above Grand Bay favored the train coming in a half hour later than at present, but the suburbanites below Grand Bay wanted the train as at present.

There will be a session in the autumn, when you will have an opportunity to bring

Robinson's Circus Arrives Sunday

Local Residents Will Have
Chance to Visit Grounds
During Day Before Per-
formance—One of Largest
Shows in the States.

John Robinson's circus is coming to St. John for a street parade and two performances Monday, July 7th. The trains bearing the wonders of the show are scheduled to arrive on Sunday and the circus of local residents who will visit the grounds during the day will be received with courtesy.

The circus is known as one of the largest in the States and is ninety-five years old. It is now under the direct management of the third generation of the Robinson family. John Robinson the first, originator of the circus died in 1871. His eldest son succeeded him and quite recently retired in favor of John G. Robinson, a grandson of the founder.

The circus will be the first for St. John since the commencement of the war and will be the only one this summer as the Canadian Government Railways have decided to transport but one show.

Baby elephants, the cutest, prettiest, most active animal babies in the whole of the animal world, are with John Robinson's circus. There are five little ones in the herd of fifteen, and although they are young in years, they are old in experience and training and accomplish feats that make the children fairly scream with delight.

The pet of the elephant babies is wee "Billy Sunday," a namesake of the famous evangelist. "Billy" the elephant, is fat and round and saucy. He works in an act with "Tootles" and "Shookum" and is always ready to stand on his head or walk on his hind feet at the command of his trainer, Miss Pauline Haskelton, who, by the way, is a remarkable sweet and pretty girl and possesses a wealth of handsome red hair.

These little elephants and all their big brother and sister elephants will be in the big show and greet St. John orphans in the menagerie tent before the main performance starts.

THE NATURAL DRYDOCK.

"Talking about enterprise in St. John," said Mrs. Hiram Hornbeam, "I heard a story the other day. When the American barge Noosha, which put into this port, leaking, hauled into the Market Slip, the skipper said to the pilot:
"So this is your drydock, is it?"
"Yes," said the pilot. "And it does not cost anything to pump it out. When the tide falls you will be high and dry."
"Well, I'll be jiggered," said the American skipper. "The Almighty built you a natural drydock, and you hadn't gumption enough to build a gate for it."

Your case again before Parliament for consideration.
Yours faithfully,
JAMES DOMVILLE.

In all these conditions
of ill health—
Every woman who is Weak, Anaemic,
Nervous, or Run-Down needs
WINGARNIS

THOUSANDS of women in Canada to-day are suffering from Weakness, Anaemia, Nervousness, and are in a run-down condition. Some are perhaps bravely bearing the strain of responsibility put upon them—others have so far lost the buoyancy of good health and spirit that they have almost forgotten the joy of real good health. Others are not aware of how different they would be if they could really get well.

All are suffering needlessly, and if you who are weak, anaemic, nervous and run down could realize what a short course of Wingarnis would mean to you—you would not continue to suffer needlessly. You would get a bottle of Wingarnis at once, and, from to-day, begin to derive the new

health and new life that Wingarnis promotes. Remember that your health is your most valuable possession.
Wingarnis is a tonic, a restorative, a blood-builder and a nerve food—all in one. Therefore it promotes new strength, new blood, new nerve force and new vitality. That is why over 10,000 Doctors recommend Wingarnis. Wingarnis has been famous in Europe for more than a third of a century. Thousands have testified that it has restored them to health and strength. Don't confuse it with the many inferior preparations of apparently similar nature. Accept no substitutes. Buy Wingarnis itself. Don't let the hundred-and-one home worries make you forget to buy yourself a bottle of Wingarnis to-day.

Ask your Doctor. Get it at your Druggist's.

In two sizes \$1.00 and (extra large bottle) \$1.75

Y. W. P. A. Meeting Held Last Evening

Will Assist Knights of Colum-
bus in Serving Breakfast to
Soldiers on Arrival—Ten-
nis Courts Open Saturday
—Committees Submit Re-
ports.

At the meeting of the Y. W. P. A. held last evening in the G. W. V. A. rooms, the request of the Knights of Columbus for help for the breakfast to be given the men of the 18th Reserve on their arrival in the city was acceded to and a committee will assist in this work. It was also decided to loan the decorations of the association to trim up the dining room.

Miss Brock announced the formal opening of the tennis courts on Saturday and all members of the association were invited to be present. It is planned to make this one of the social events of the season. The ceremonies are to be held under the patronage of General Macdonnell and all that is needed to make the affair a splendid success is fine weather. Strong committees have been appointed to make the arrangements for this function. It has been decided to limit the membership to one hundred and to confine it to the girls who have been members of the association for some time. The male membership will be limited to returned soldiers.

Miss Alice Hatch is president, Miss Grace Fleming, vice-president, and Miss Catherine Murdoch, secretary-treasurer of the tennis club.

The treasurer reported a balance in the general fund of \$116.87 and in the reserve fund of \$176.10, a total of \$292.97. It was moved by Miss Sherwood and seconded by Miss Tapley, that these funds be merged as the keeping of them separate entailed a considerable amount of bookkeeping. This was carried.

A letter was received from the Department of Soldiers' Civil Re-Establishment, thanking the association for the donation of eleven newspaper subscriptions to the various military hospitals.

Miss Dodge for the ushering committee reported conditions satisfactory for the month of June.

Miss MacNeill for the visiting committee to the St. John County Hospital, reported regular visits made and fruit, flowers, home-made candy, games, etc., supplied to the men. It was decided to add five members to

the committee, the work having grown beyond the present committee. Miss Brock presided at the meeting which was largely attended.

LIBERAL PARTY
Split in Five
Will Soon be at Sixes and
Sevens—Hiram Hornbeam
Announces That He Has
Decided to Form Party of
His Own.

The Liberal Party will soon be at sixes and sevens. It is now split in five. Hiram Hornbeam announced that he had decided to form a party of his own, and run as its candidate. This interesting announcement, which was made in that gross organ of illiberal opinion, The Times, has caused great excitement in the city; more than anything that has happened since the appearance of a mouse at a dance on Germain street.

When interviewed, yesterday, Mr. Hornbeam was chewing a straw with the reflective manner of an automobile passing a load of hay at 540-odd a ton. "Of course somebody has got to act as leader of the local lib, or they will have no leader at all," said Mr. Hornbeam. "The mantle of the Great W. P. has been floating around like Mahomet's coffin, and nobody big enough to wear it. Mr. Foster thought he could use it as a disguise the other night, but it did not fit him, and he had to drop it and beat it to the bush."

"So I reckon I am just as likely to wear that mantle with éclat as anybody else in this burgh. Anyway my hat is in the ring, and I can rally as many trusty followers as Mr. Foster. I don't know that I'll get much support from my friends on The Times, but I guess the loss I have the better. Everybody knows me by this time, and how I stand on the great question of the evening—Shall the bar be barred? I have had my picture in the papers more than any actress; so I calculate to get the women's vote. And, as Plato said to his disciples, I am not such a fool as I look, or as I talk to that New Times reporter."

This committee, the work having grown beyond the present committee. Miss Brock presided at the meeting which was largely attended.

Miss Brock presided at the meeting which was largely attended.
