

LONDON HEARS WAR CHARGES AGAINST HUN

Terrible Tales of Suffering by British Prisoners Related in Bow Street Court.

RIOT WAS VERY NARROWLY AVERTED

German Gov't Was Prosecutor—Evidence Taken for Trial at Leipzig.

London, April 28.—Terrible tales of suffering from British prisoners in German camps during the war were detailed today at Bow street police court. Evidence is being taken there by Sir Charles Burre, chief magistrate for the case in the trial of the German war criminals at Leipzig, and the evidence today dealt with the case of Captain Muller, who was in charge of 1,000 prisoners at Flay-le-Martel in April, 1918. German counsel were present to cross-examine the witnesses.

Opening the case the representative of the Attorney-General explained that he was conducting it for the German Government, who was the prosecutor at Leipzig. He charged that these 1,000 men were herded together in three huts, there were no floor boards, bedding or camp utensils. The men had to sleep on the ground. There was not even room for all of them to lie down. There were no sanitary arrangements, and the only water supply for washing was in one small trough, the water in which was changed about once a fortnight. Bathrooms were inadequate. No meat ration was supplied. The men, in consequence, rapidly became very weak and were compelled by blows in spite of their weak condition to go to work. Dysentery at once set in. In a month 500 men were down with it, and the deaths averaged about six men per day.

Rode Horse into Men.

It was also alleged that Muller committed many acts of violence to the prisoners. It appeared to have been his amusement to ride his horse into the ranks of the British prisoners on parade, scattering them in all directions and in many cases doing serious bodily injury. On more than one occasion he was actually seen taking photographs of men while they were in the agonies of dysentery, which indicated the character of the man.

A British doctor, who tried to look after the prisoners, testified to the arrival of men from Flay-le-Martel in rags with bodies worn to skeletons and covered with verminous sores.

A private told how the men had to sleep without a covering in the open and had to go to work with only bread and coffee made of burnt corn for breakfast. Their only other food was of boiled dry vegetables. Later there was a little meat, but 20 to 30 pounds had to do for 500 men. This witness also told how Muller rode his horse at the prisoners.

Riot Was Averted.

A riot was narrowly averted outside the court at the luncheon adjournment. A great crowd of former service men had assembled and several rushed toward the German counsel for the accused, Herr Schroeder, and his friends.

Constables succeeded in rescuing the Germans, and escorted them to the Savoy Hotel, the crowd following the party.

Dr. Feisenberger and Dr. Baronson represented the German Government at the inquiry, while Dr. Schroeder and Dr. Wyndmiller were attorneys for the accused. The depositions of fourteen witnesses were taken to be used in Leipzig at the end of May at the trial under the Versailles treaty, of the following:

Lieut. Commander Neumann, commander of submarine U-67, for sinking the hospital ship Dover Castle on May 26, 1917.

Captain Hampton and Muller, and Non-Commissioned Officers Rotz and Neuman for cruelty and inhuman treatment of British prisoners in German prison camps.

During cross-examination the German attorneys attempted to show that the food given the prisoners was similar to the German ration, and that Muller tried to improve conditions when he assumed control of the Flay-le-Martel camp.

Present Conditions Recall Century Ago

Holders of Securities in Same Position as After Napoleonic Wars.

Holders of Government and other securities bearing fixed interest rates may find both comfort and an warning in the parallel between the present situation and that following the Napoleonic wars the latter of which is described by L. Leitch in the Journal of the Canadian Bankers' Association.

"During the year 1812," he says, "owing to a restriction on circulation and of credit, prices, which had risen to unheard of figures during and immediately after the Napoleonic wars, began to fall. This was to the advantage of the holders, and was well understood for their holdings in the depreciated paper currency of the preceding ten years."

The darker side of the picture follows: "In 1812, however, the interest was reduced on Government securities by conversion to that the dividend on £125,000,000 of 5 per cent. was reduced one-half, and the following year the dividend on £250,000,000 of 6 per cent. was reduced one-half."

In Syracuse they call him a denier 'nearly practices'."

Looking and guessing and not what is called 'dry shopping'."

Four Irishmen Are Executed

Crowd Surrounds Cork Prison When the Men Are Shot for Attacking Troops

Cork, April 28.—Four men convicted of making war against the Crown forces were executed by a firing squad at the military barracks here this morning. They were Patrick O'Sullivan, Maurice Moore, Patrick Hennessy and Tom Mulcahy.

While the executions were proceeding a crowd built in the roadway outside the barracks, offering prayers and reciting their rosaries.

Moore's father, frail with grief, and his brother, were in the crowd. Yesterday the relatives of the men visited them and found them in good spirits.

Worried About Mother.

O'Sullivan was greatly concerned about his mother, and said he did not wish to see her, fearing she would be overcome with sorrow. Mulcahy, who was just 18 years of age, leaves a father of eighty years. The chief brother was acquitted of the charge of levelling war against the Crown forces, Canon O'Sullivan and Rev. Father O'Brien attended the execution. During their last moments, Mass was celebrated in the barracks early this morning. The prisoners were taken from their cells and shot in pairs after the executioners had pronounced the bodies and gave the blessing. The authorities refused to give the bodies to the relatives. Instead, they were removed to the Cork jail for burial.

New Brunswick May Be Forced To Go Dry

Liquor Commissioners Having Difficulty in Securing Supplies.

Montreal, April 28.—New Brunswick may have to go dry for a season unless the members of its liquor control board are exceptional hastlers, it was stated here today.

The Quebec liquor commission is said to be having difficulty placing orders for its supplies, and it is understood prominent old country distillers have refused to sell except through their Canadian agents. Wholesale here who expect to have stocks left on their hands on May 1, are now lamenting because they are unable to meet the enormous demand from Ontario. One dealer estimates that Montreal could have added ten millions to its sales to Ontario if the stocks had been available. At present dealers are asking higher prices than ever for prime hand liquor.

The New Brunswick commissioners may be able to obtain supplies from wholesalers who have taken a chance of ordering liquor from the old country with the intention of placing it in warehouses in the western provinces and supplying Ontario from there. But any consignments now on the water will probably have to make a journey west before it can be sold to New Brunswick, unless the New Brunswick commissioners secure a special dispensation from the authorities of this province.

Expecting Arrest In Mail Robbery

Quebec, April 28.—Arrests are daily expected following an investigation by Dominion police and private detective agencies in connection with the disappearance of \$15,000 in registered mail last fall. The matter was kept very quiet by the post office authorities in the hope that the thieves might be thrown off their guard. It leaked out through people connected with insurance companies involved.

Daylight Saving In Ottawa Sunday

Ottawa, April 28.—Public departments in Ottawa will go on daylight saving time on Sunday, in accordance with city regulations. Announcement to this effect was made by the Prime Minister in the House this afternoon.

Change of the hours of the House of Commons and of the Senate is in the hands of those bodies. There has been no decision reached so far as the government is concerned, the Premier added.

HEADACHES Make Life Miserable.

Headaches are one of the most aggravating troubles one can have, and it is hard to struggle along with a head that aches and pains all the time.

Headaches seem to be habitual with many people; some are seldom, if ever, free from them, suffering continually from the dull throbbings, the intense pains; sometimes in one part, sometimes in another, and then, again, over the whole head.

There is only one way to get relief from these persistent headaches, and that is by getting direct to the seat of the trouble, for unless the cause is removed, the headaches will still continue to exist.

The fact that Burdock Blood Bitters keep the stomach, liver and bowels toned up is proof enough to show that it will eliminate the cause of the headaches.

Mr. Harold Lamm, Owen Sound, Ont., writes: "My system was run down and my blood out of order. I suffered a great deal from severe pains in my head, which made me feel very miserable. After having tried other remedies I purchased a bottle of Burdock Blood Bitters, and was very glad to realize a decided improvement in my health, so I took another and am glad to say that it has done me an enormous amount of good. I have recommended it to my friends, who are in a similar condition, and they all say it is a wonderful remedy."

B. B. B. is put up only by The T. Mothers Co., Limited, Toronto, Ont.

German Labor To Disrupt Markets

Able to Make Steel \$20 Per Ton Cheaper Than in British Mills.

New York, April 28.—Germany, through the economy and sacrifices of her working people has set down to real production and is outstripping the United States and Allied nations in the fight toward normalcy. Charles M. Schwab declared here today in an address before the Chamber of Commerce of the state of New York.

"Germany today can put a ton of steel in England at a price \$20 a ton cheaper than England can make it," he said, "and in selling pneumatic tools in Detroit where formerly we shipped such machinery to Germany and sold it cheaper than she could make it."

"The difference is solely a matter of labor costs. It is estimated that 5,000,000 men are out of work in this country. It is accordingly of supreme importance to the working man as well as to the capitalist to restore our prosperity."

Never So Great Needs.

"Before we had the need for products to export before we had much valuable producing machinery and facilities available; never before so much needing to be done. 'I have just returned from Europe, and I came with renewed admiration for the courage, the enterprise, the determination displayed in Italy, Belgium, France and England. Germany was ahead of all them in production. 'Is it possible that after having won the war, we of the Allied nations, with everything in our hands, will allow them to understand that our railroads today pay to labor over sixty cents out of every dollar received. The labor cost of making a ton of steel may be \$5 cents out of each dollar of total cost."

How To Pay Labor.

"Labor on the whole can be paid only what labor as a whole earns, and if some sections of labor exact more than their share of the current produce of the world, other sections are going to suffer. I understand that our railroads today pay to labor over sixty cents out of every dollar received. The labor cost of making a ton of steel may be \$5 cents out of each dollar of total cost."

"Insofar as our people in America are prepared to go to work at reasonable wages; insofar as we are prepared quickly to abandon the artificial extravagances of the war, will we lay the foundations for a new prosperity such as we have never enjoyed before. This is the route through which not merely America but the peoples of our Allies can find their way out, and triumph in peace as they did in war."

Wife Refuses Kiss; He Commits Suicide

Niagara Falls, April 28.—Because his wife refused to kiss him, in theory Fredrick, 33, placed the muzzle of a revolver against his breast and sent a bullet through his heart last night. He was dead when physicians arrived. The shooting occurred at his home.

Mrs. Fredrick told the police that she refused at first to kiss her husband, but after he had asked her three times she finally consented, but he killed himself before she could comply with his request.

PILES

Do not suffer another day with itching, bleeding, hemorrhoids. Dr. Chase's Ointment will relieve you at once. Do not allow them to become chronic. Get a sample free by mail. Send 10c for a box and enclose 2c stamp to pay postage.

Scene of Moore Murder At Greenville Burned

Greenville, Maine, April 28.—The house owned by John H. Moore, near the C. P. R. station, which was the scene of the Moore murder, was burned Thursday night. The cause of the fire is unknown. This murder known as the "house on the hill" murder, took place on March 12, 1919.

The victim, George O. Moore, was taking a bath in his room. Win. Penney, of St. John, N. B., and Jesse Scott of Boston, were arrested in Jacksonville the next day and at the following term of Supreme Court at Dover were convicted of the murder and given a life sentence.

KILLED UNDER TREE.

Antigonish, N. S., April 28.—Search of the woods near Mattie Settlement, Antigonish, for Edward Myette, 39 years old, who left his home to cut timber in Tuesday morning, resulted in the discovery of his body under a tree, which in falling had struck him on the head, killing him instantly. Myette leaves a widow and two small children.

Seamen's Wage Cut Will Be Reduced

Fifteen Instead of Twenty-Five Per Cent. Is Amount Owners Agree Upon.

New York, April 28.—The American Steamship Owners' Association announced today, it was ready to comply with the wishes of Rear Admiral Benson, of the United States Shipping Board and cut wages 15 per cent. May 1, instead of approximately 25 per cent, as first proposed.

This conference had been called after a strike for May 1, and Branch after Marine Engineers had proclaimed and seamen had rejected the wage cut first proposed.

Backache

tells of kidney trouble. The most prompt relief is obtained by using Dr. Chase's Kidney-Liver Pills, the well-known home treatment. One pill a dose. 25c. a box, all dealers.

Nearly Two Million Jobless in Britain

Increase of 81,000 in Last Week Owing to the Coal Mine Strike.

LONDON, April 28.—According to the returns published by the labor department of the Board of Trade there was at the beginning of the present week 1,714,460 persons out of employment in the United Kingdom. The increase over the previous week was 81,000. Unemployment figures have been greatly augmented as a consequence of the miners' strike, but even an early settlement of that trouble holds little prospect of absorption of the vast armies of unemployed, who are presenting a problem of increasing difficulty and danger.

Washing after every wearing saves Silk Underthings

HALF the charm of silk things lies in keeping them fresh and sweet. Moreover perspiration discolors and shortens their life. Why not wash them after every wearing?

It's delightfully simple. Use the pure, gentle, cleansing LUX suds. Make just a bowlful, anywhere, any time. Just dip them up and down—press out the water—rinse—iron with a warm iron—and it's done.

LUX will hurt no fabric that pure water may touch. Sold at all grocers and department stores.

Recipe booklet "The Care of Delicate Clothes" mailed on request.
