

OUR COUNTRY CORRESPONDENCE.

WOODSTOCK.

Woodstock, Aug. 14—Jack Dibblee is suffering from a severe wound in the palm of his left hand. While cleaning a 32-calibre revolver Monday afternoon, in the store of W. F. Dibblee & Son, the weapon, which was not thought to be loaded, discharged, the ball passing through the hand. While the greater number of the small-pox sufferers are improving, an some are now free from the disease, a sufficient number of new cases are breaking out to keep the average number afflicted up to 20. This week four new cases are reported in Watson Settlement and Bloomfield. All cases are in the original quarantined district, and, in consequence, few restrictions are in force there. Vaccination has been general in the town, and the popular query now is: "How is your arm?"

ST. STEPHEN.

St. Stephen, N. B., Aug. 14.—(Special)—A wedding reception took place this evening when Alice, the accomplished and handsome young daughter of ex-Councillor Bridges, was united in marriage to Sanford W. Dimock, of Falmouth, Me. Rev. John Read, D. D., pastor of the Methodist church, officiated. The wedding was attended by two little maid of honor, her ex-consorts—Hester Robinson, of Marystown, N. B., and niece, Ethel Cooke, of Hamilton. One carried a basket of pink flowers and was dressed in pink silk; the other was dressed in white organdy and carried a basket of white flowers. The bride, herself, looked very charming and was dressed in white organdy trimmed with white ribbons and wore a long white veil. She carried a bouquet of white carnations. The father gave her away and a number of friends were present and enjoyed a lunch after the ceremony. The happy young couple will spend their honeymoon on the St. Croix. They will reside in Falmouth, Me.

SHANNON SETTLEMENT.

Shannon Settlement, Aug. 12.—The very dry spell of weather that has prevailed for the past six weeks which was very favorable for the haymaking operation which is about ended, was broken by a heavy fall of rain, but rather late to do much good to the grain and potato crops. The farmers report an abundant yield this year. Potatoes will be almost a failure.

Mrs. George Cripps, after an absence of nine years, accompanied by a Mrs. Dyer, arrived in this place, July 29 from New Haven and are visiting Mrs. Cripps. Mrs. James Tutts and two children, of St. John, who have been visiting Mrs. G. B. Jones for the last three weeks, left for her home Friday.

Miss Lillie Davis and Miss Eliza Dowd, guests of Mr. and Mrs. Foster for the past two weeks, have gone home.

Miss Ray Furlong and Miss Minnie Sprague, of St. John, who have been visiting the former's parents for five weeks, left this morning for the city.

School reopened today by the former teacher, Mr. E. W. W. They will be missed here. Queens county, after a vacation of six weeks.

Mr. G. B. Jones & Son are doing a washing business in the new store this season.

GRAND MANAN.

Grand Manan, Aug. 14.—The fish wharves about the island are taking some herrings of a medium size and quality. They are only an advance guard or skirmishing line as it is early yet on the main body to the waters. Cod and pollock are quite plentiful. Dogfish have put in their ugly looking faces among the honest herrings.

It is rumored that leading Masons in St. Stephen, St. Andrews and here will organize a Masonic lodge on this island. This ought to be a good field for the craft. A most prosperous lodge of Knights of Pythias, Southern Cross, has its home at Grand Harbor, where it has been visiting a castle hall and have a fine commodious and prettily finished lodge room or castle hall overlooking, with a large room on the first floor.

The hay crop on the island is just harvested and is on the short side. Potatoes and other root crops are not up to the standard.

A barn was burned with its contents of hay at North Head on the 9th inst., and the fire only to be accounted for by the theory of spontaneous combustion.

Mr. Archie Stinson, of Nantucket Island, and Mrs. Harriet Welch, of White Head Island, visited on the main body to the waters. Cod and pollock are quite plentiful. Dogfish have put in their ugly looking faces among the honest herrings.

Dr. DuV. Jack, M. D., C. M., has the necessary papers from the militia department to organize a civilian's rifle club here.

HARVEY STATION.

Harvey Station, Aug. 15.—Mr. John Casford, of the Rear Settlement, has this week of his fine farm to his son, Thomas, and intends in future to reside at the station. He has purchased the Heron property and is making extensive repairs to the house, which he expects to have ready for occupancy before the cold weather sets in.

Mr. Irving T. Fairweather, who has been station agent here for the last few years, has been removed to the office at Westford, and Mr. David DeWitt, of Me. Adam, has been appointed station agent here. Mr. and Mrs. Fairweather went to Westford today. They will be missed here during his stay here. Mr. Fairweather proved himself a very careful and obliging official.

Mr. and Mrs. D. Taylor, of East Boston, who have been visiting relatives here for some time, returned home Tuesday. Dr. Keith has purchased a handsome second-hand Wilkes mare in Fredericton. She can show a fast pace now, but the doctor expects to improve her considerably.

The indications are that the grain crops with the exception of luckwheat will be short this year.

GRANDBAY.

Grand Bay, Aug. 12.—The Presbyterians of this community are holding their annual picnic on Saturday next on Mr. James Usher's grounds.

Mr. Alcorn, of Boston, is the guest of Mrs. H. Hawkins.

Mrs. George McEae, of Waterford, who was the guest of Mrs. D. M. Hamm, has returned to her home and will resume her duties as teacher at Elmavale.

Mrs. Mathias Hamm, of St. John, is the guest of Mrs. Stevens.

Miss Julia Hamm is the guest of her sister, Mrs. Warm.

The farmers here are complaining of the long drought and it is feared the potato crop will be a failure.

Mrs. Bella Usher, who is home on her vacation, will return to the states on Tuesday.

Miss Laura Hamm, Fred Mullany, Frank Hamm, Daniel Usher and Arthur Gregg left on Saturday evening for the harvest field of the Northwest.

Miss Nellie Clarke, a graduate of Newton Hospital, is spending her holidays at her own home.

Miss Laura Hayter has resumed her duties as teacher at Land's End.

Mr. Samuel Usher will return to the states on Tuesday.

LONG ISLAND.

Long Island, Aug. 12.—The island has its share of visitors this season many of whom were former residents of this place and are now visiting their old homes.

Among these are Miss Carrie and Jennie Green, of Boston, Mass.; Mr. William Hornbrook, of Lynn, Mass.

Mr. and Mrs. Tall and children are guests of Mrs. Delong.

Mr. L. B. Rogerson left for the west on Saturday.

Miss Ina Delong, who spent her vacation with her mother, will return to the city on Thursday.

Mrs. Han and her little son Bertie spent a few days with her aunt, Mrs. Rogerson.

Captain A. T. Mabee, of the steamer Clifton, spent Sunday at Breen's Cove, the guest of Mr. and Mrs. John D. Steer.

The hay crop is unusually large here this season and the farmers are busily engaged harvesting it.

SUSSEX.

Sussex, Aug. 15.—W. W. Hubbard sold his household effects yesterday afternoon. Major Fred Hart returned to St. John this afternoon.

C. G. Armstrong has returned from his western trip.

The Sons of Temperance and Sunday school at the Head of Millstream held a large picnic yesterday. About 800 were realized, which will be expended in repairs on the church and hall.

TRURO.

Truro, N. S., Aug. 15.—The Nova Scotia tennis tournament was continued today. The weather was excellent, though a little too hot at times. The games were closely contested generally, with the following results:

Gentlemen's doubles, first round—E. P. Almon, C. Grant, Wanderers, Halifax, beat Capt. Almon, Halifax, L. H. Crowell, Bedford, 6-3, 7-5.

Gentlemen's singles, first round—H. V. Bigelow, Truro, beat E. S. Tupper, Wanderers, Halifax, 6-1, 6-3; H. Graham, South End, Halifax, beat H. H. Creer, Antigonish, 6-1, 6-1.

Mixed doubles, preliminaries—J. S. Rogers, Miss Dowd, South End, Halifax, beat A. Outway, Miss Graham, same club, 10-8, 3-6, 6-3.

Gentlemen's doubles, first round—E. P. Almon, C. Grant, Wanderers, beat F. C. Cormier, N. G. Foster, Dartmouth, 6-4, 6-2.

Gentlemen's singles, first round—Capt. Almon, beat L. H. Crowell, 6-2, 6-2.

Gentlemen's doubles, first round—V. P. McKay, J. S. Bentley, Truro, beat H. V. Bigelow, Dr. Stanfield, Truro, 2-6, 9-7, 6-4.

Ladies singles, semi-final—Miss Bigelow, Truro, beat Miss Grace Phips, Amherst, 2-6, 6-2.

Ladies doubles, first round—Miss Bigelow, Miss Yorston, Truro, beat Miss M. Smith, Miss D. McKenzie, Halifax, 6-3, 6-2.

Mixed doubles, first round—E. P. Almon, Miss Anderson, South End, P. Almon, beat Mr. Black, Mrs. H. Johnson, same club, 6-2, 7-5; J. S. Rogers, Miss Dowd, South End, Halifax, beat W. G. Foster, Miss Weston, St. George's Club, Dartmouth, 6-2, 6-2.

Gentlemen's singles, semi-finals—E. P. Almon, V. G. Grant, Wanderers, Halifax, beat E. W. Rhodes, J. Douglas, Amherst, 7-5, 6-4.

Gentlemen's singles, second round—E. P. Almon, beat J. Ritchie, South End, Halifax, 6-1, 6-0; Capt. Almon, South End, Halifax, beat H. Graham, South End, Halifax, 6-2, 6-1; C. Grant, South End, beat W. G. Foster, Dartmouth, 6-1, 6-0.

Miss Bigelow, Truro, and Miss Graham, Halifax, will play the ladies singles final tomorrow for first prize, a gold watch.

Mixed doubles, preliminaries—L. H. Crowell, Miss McKenzie, Bedford, beat W. P. McKay, Miss Yorston, Truro, 6-4, 4-6, 6-4.

Gentlemen's doubles, preliminaries—G. J. Murphy, H. Graham, Wanderers, beat A. Outway, J. S. Rogers, South End, Halifax, 2-6, 7-5, 6-3.

Miss Mina A. Roudé, teacher of music and elocution in the Provincial Normal School, who handed in her resignation at the end of the last term, has reconsidered the same and will be back on the teaching staff of the institution next year.

The celebration of Truro's natal day has been changed by resolution of the board of trade, from September 13th each year to the first Monday of September—Labor day. The object is to combine the two holidays.

The E. A. C. will hold sports on September 3rd. The programme will include 100 to 800 yards running races, and quarter to three mile bicycle races, put the hammer, putting shot, running broad and high jumps, and pole vaults are also among the events.

Policemen are on the move. Mr. Courley has been doing the Stewiacke Valley and parts of Western Colchester. Hon. F. A. Lawrence was in Economy last week. It is understood that Mr. Mc-

OBITUARY.

John Smith, of Westford, died Tuesday evening, aged 83.

Ernest Bridgman. News has been received here of the death of Huldani Kummam, India, on June 22 of Mr. Ernest Bridgman, formerly well-known here. Mr. Bridgman married, with whom he resided, Miss Helen M. Smith, of Halifax. The happy couple will tour Cape Breton, P. E. Island, New Brunswick and parts of Canada before settling down at Montreal.

Rupert Bent. Amherst, N. S., Aug. 14.—(Special)—The sudden death occurred this afternoon of Rupert Bent, one of Amherst's best citizens. He was suddenly taken ill on Thursday night with heart trouble. The deceased was 65 years of age. He married Miss Bent, a sister of Mrs. Melton Mills, with whom he and Mrs. Bent resided. He leaves no family, but two brothers, Ubarles, in the Dominion Government Savings Bank, here, and Fred W., of Westford, and two sisters, Mrs. M. P. P., and Mrs. Harding.

Ephraim Peters. Moncton, Aug. 14.—Word was received here this morning of the very sudden death of Mr. Ephraim Peters, of the local foundry and machine Co., of this city, which occurred last night. Mr. Peters had been about two weeks ago to undergo an operation for a kidney trouble. It appears the deceased while apparently strong physically fell in a faint spell in falling down the stairs of his home. He was born at Kingsport, Kent county, in 1835, and was the youngest son of the late Mr. Stephen Peters. He leaves a widow and infant daughter.

Hugh Dunlop. Truro, Aug. 13.—(Special)—Hugh Dunlop, of Otter Brook, died last night. He was one of the most widely known residents of this section of the county. He was born in 1819 on a farm which he inherited from his father and worked on till his death. He was married three times, his last wife being Mrs. Dunlop, who was the daughter of the Rev. Mr. Baxter of Truro.

James A. Seaman. Halifax, Aug. 14.—James A. Seaman, of the firm of James A. Seaman & Co., doing the largest victualling business in the maritime provinces, died this morning, aged 60 years. The deceased was a great lover of horses, and always had in his stables a number of well-bred animals. His most successful horses on the turf were Belmont and Romy, both of which were winners in his year. He also owned Rampart, jr., Bessie Rampart and Little Field. His estate is estimated to be worth \$100,000.

Late J. M. Perkins. The remains of the late J. M. Perkins were laid at rest in the family lot in the cemetery on Monday. The funeral was conducted by Rev. W. J. Armstrong, who also preached a sermon at the deceased on the subject of "The Resurrection of the Dead." Mr. Perkins was a devoted member of the Baptist church, and was married to Mrs. Perkins, his first wife being a daughter of the late Isaac Walters, of St. John's. He was the father of Mrs. Perkins, his first wife being a daughter of the late Isaac Walters, of St. John's. He was the father of Mrs. Perkins, his first wife being a daughter of the late Isaac Walters, of St. John's.

Killed in a Riot. Frederick, Md., Aug. 15.—A serious riot was started near Mount Airy last night between Italian and Hungarian laborers on the Baltimore and Ohio railroad extension, resulting in the death of one man and the wounding of many others. The riot was caused by the refusal of the Italian laborers to work on the same basis as the Hungarian laborers. The riot was caused by the refusal of the Italian laborers to work on the same basis as the Hungarian laborers.

Ontario Lumber Situation. Toronto, Aug. 15.—A special meeting of the Ontario Lumbermen's Association was held here yesterday to discuss the situation of the lumber trade in Ontario. The meeting was held at the Hotel Ontario, and was attended by a large number of lumbermen from all parts of the province. The meeting was held at the Hotel Ontario, and was attended by a large number of lumbermen from all parts of the province.

Plant Liner Halifax Will Be Floated. First Attempt Will be Made Next Saturday—Gang of Men at Work Lightening the Cargo. Boston, Aug. 14.—A large gang of men are working on the liner Halifax, which is being floated in the harbor. The liner is being floated in the harbor, and the gang of men are working on the liner. The liner is being floated in the harbor, and the gang of men are working on the liner.

Saw Much Big Game. Boston Men Back from 300-Mile Canoe Trip in Maine and New Brunswick. Boston, Aug. 13.—Edward W. Burt and Norman P. Heston, of Boston, returned here yesterday from a 300-mile canoe trip through Maine and New Brunswick. The trip was a most successful one, and the men saw much big game. The trip was a most successful one, and the men saw much big game.

His Ideal. He kept a picture in his mind of one who had a quietly easy and contented life, who was fair of the sweet and fair, and till he found her he would not have been satisfied. He found her in the person of a young girl, who was fair of the sweet and fair, and till he found her he would not have been satisfied.

Smallpox at Bath, Maine. Bath, Me., Aug. 14.—The second case of smallpox was quarantined today, the victim being Mrs. Horace Emerson, who was exposed to infection from the Wall boy, the first patient. Both cases are varioloid, and the Wall boy is already convalescent.

Severe Typhoid Delivers and ABE CURED.—When I read that Dr. Agnew's Catarrhal Powder could relieve catarrh in ten minutes, I was far from being convinced. I tried it a single pill through the blower offered instant relief, stopped pain over the eyes and cleared the nasal passages. Today I am free from catarrh. B. L. Egan, Easton, Pa.—17.

FOR THE TILLERS OF THE SOIL.

IDEAL CHEESE FACTORY.

Manager of a Recently Built Establishment Tells How It is Arranged and Conducted. A new cheese factory in one of the newer sections of the country, says its manager, is 30 by 68 feet in size, double boarded and papered on the outside, with cement floor. The work-room is 80 by 30 feet, with a slanting floor that falls about 4 inches in 26 feet, while the other 4 feet slants to it, forming a gutter two curving rooms. The small one is papered and ceiled on the inside. There is more in this new cheese factory than in 12 days, after which they are moved to room No. 2, which we call the cold room. This room was sheathed on the inside, papered on the outside, and the ceiling was shingled, put on 2 by 2 inch. Scaffolding, put on 2 by 2 inch. Scaffolding, put on 2 by 2 inch. Scaffolding, put on 2 by 2 inch.

HOME BUTTER MAKING. Pleasant Occupation Which is Worth the Labor Given to It. "I enjoy making my own butter," a lady said to me the other day. "I know it is considered quite the thing nowadays to send the milk away to get rid of the care and work of making it up. And no doubt there is some thing in this; but the pleasure of making my own butter is great enough to overbalance the few cents a pound it costs me to do my work."

I have thought of this many times since, writes E. L. Vincent, in The Farmer, and I am convinced that there is more in this good woman's side of the argument than most of us would be willing to confess. No doubt it is a saving of strength in some ways to send the milk to the creamery. With many farmers' wives this is no small item. They have so much else to do that they do not devote the time in caring for the milk at home. But there is satisfaction in converting the sweet, pure milk into golden butter. The process is so full of interest, whether we stop to think of it or not. The way by which the cream rises is a mystery to most of us. Why does it separate from the milk? Take, then, the process of churning; that is a strange thing to any one who has not seen it. The study of these things is highly interesting.

Then, the satisfaction of using your own butter is worth a good deal. Not all of us can quite enjoy the butter which we buy. Who made it? Was he clean in his ways? What were his cows well cared for? Were they sound physically? We would like to know. But here is our own butter. How beautiful it looks! Fresh, sweet and pure as the crisp grass and the crystal water could make it. We are not afraid to put it on the table for the use of the king, and we can recommend it to the most fastidious purchaser.

PULLING GRAPEVINES. Chain Trace Worked by One Horse Does the Work Usually Done by Two. Owing to the change in the plans of a fruit farm in a neighboring county, it became necessary to pull up two acres of a vineyard. The owner ordered his men to grub the vines. They went at it with spade, ax and grubbing bar, and at the end of the first half-day had only a few vines cut. At that rate they had a week's hard work on hand. A neighbor happened to visit the farm, and after watching the men for awhile told one of them to go to the barn and harness a horse and bring him with a ten-foot chain. He set the man to digging around the vines and cutting the main roots. When the animal and chain came he made a half-circle with the chain around a vine near the ground, and attached it to the horse's whiffletree. Then he took a piece of 2 x 4 about four feet long, and the other end of the chain, leaning at an angle of 45 degrees toward the vine. The horse was started and the vine lifted out of the ground. The chain was unfastened and hitched to the next, and so on. The whole job was done with the chain, and was an easy and speedy one. The same plan will work with all grubbing where the roots are not too deep. The posts can also be pulled up in the same way.

Egg Shells in Horticulture. A French horticulturist, who is also an extensive breeder of poultry for eggs, says that he uses the shells to good advantage in horticulture. He punches at the bottom of each hole with a sharp penknife a little hole 1-16 inch for drainage, fills the shell with good rich earth, suitable to the vegetation it is intended to contain, puts in one or two seeds, stands the shells up in a flat box of earth, keeps them warm and moist, and then when his plants are ready to transplant, he breaks the shell and puts the little ball of earth into its proper place. He says, as not a root has been disturbed, it is far preferable to the insignificant "tomb" pots formerly used, and with a favorable time for transplanting, there are no wilted leaves to retard the growing of the plants. He is a great grower of muskatoons, and his success, he says, is great.

He applies the shells to the use of delicate seeds, to cuttings of temperate plants such as verbenas, fuchsias, geraniums and pelargoniums, and even to pick out small seedlings originally sown in pans or such like, as they retain that when needed to be potted, a solid mass, well constructed, and the roots are not in the least disturbed.

New Field for Research. The world of horticulture is a mysterious one, and in it are many secrets yet to be found out. We have considered that the question of maternity belongs to living and breathing animals. But we are now awakening to the fact that the same condition maternity in the vegetable world. As scientists investigate the wonder grows. Not only are there self-sterile varieties among grapes, apples and pears, but among the apple self-sterility exists to a great extent. More than that, varieties have been discovered that have an affinity toward each other and if planted together will produce no fruit. This presents a new field for investigating and research.

ONTARIO GROWN WHEAT.

Economic Value of Different Varieties Determined—Result of Experiments at the O.A.C. and Farm at Guelph. The Ontario Department of Agriculture has issued a bulletin upon the comparative values of Ontario wheats for bread-making purposes, with notes on varieties of winter wheats. The bulletin embodies the result of the labors of Prof. R. Harcourt, B. S. A., associate professor of chemistry, and Mr. C. A. Zavitz, B. S. A., experiments in the college. A series of extensive experiments have been conducted by Prof. Harcourt to ascertain the economic values of the different varieties of wheat in the production of bread. These experiments were undertaken because of the many complaints from both farmers and millers regarding the poor quality of the flour made from Ontario-grown wheat, which resulted in the flour being a drug on the market, which could only be sold by underbidding competitors. After making tests from flour grown on the college farm it was determined to investigate the scope of investigation, and 36 ten-bushel sample lots, consisting of ten varieties of winter wheat and five of spring wheat grown from both farmers and millers regarding the poor quality of the flour made from Ontario-grown wheat, which resulted in the flour being a drug on the market, which could only be sold by underbidding competitors. After making tests from flour grown on the college farm it was determined to investigate the scope of investigation, and 36 ten-bushel sample lots, consisting of ten varieties of winter wheat and five of spring wheat grown from both farmers and millers regarding the poor quality of the flour made from Ontario-grown wheat, which resulted in the flour being a drug on the market, which could only be sold by underbidding competitors.

Heston, of Boston, returned here yesterday from a 300-mile canoe trip through Maine and New Brunswick. The trip was a most successful one, and the men saw much big game. The trip was a most successful one, and the men saw much big game.

His Ideal. He kept a picture in his mind of one who had a quietly easy and contented life, who was fair of the sweet and fair, and till he found her he would not have been satisfied. He found her in the person of a young girl, who was fair of the sweet and fair, and till he found her he would not have been satisfied.

Smallpox at Bath, Maine. Bath, Me., Aug. 14.—The second case of smallpox was quarantined today, the victim being Mrs. Horace Emerson, who was exposed to infection from the Wall boy, the first patient. Both cases are varioloid, and the Wall boy is already convalescent.

Severe Typhoid Delivers and ABE CURED.—When I read that Dr. Agnew's Catarrhal Powder could relieve catarrh in ten minutes, I was far from being convinced. I tried it a single pill through the blower offered instant relief, stopped pain over the eyes and cleared the nasal passages. Today I am free from catarrh. B. L. Egan, Easton, Pa.—17.

Ontario Lumber Situation. Toronto, Aug. 15.—A special meeting of the Ontario L
