For **Dropsy** and **Dropsical Swellings** the should be taken in large and frequent doses to pr duce the effect of a drastic purge.

For **Suppression** a large dose should be tak: as it produces the desired effect by sympathy. As a *Dinner Pitt*, take one or two *Pitts* to primote digestion and relieve the stomach.

An occasional dose stimulates the stomach and howels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pitts* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
