## Smallpox Cases in Toronto on Increase

### THIRTEEN ALDERMEN OPPOSE GENERAL VACCINATION ORDER

Mayor Will Not Act Without Council.—Opponents Ready to Pay \$25 Fine.

TORONTO, Dec. 10.—Smallpox cases took a big jump today when 62 new cases were reported for the past 24 hours by the Department of Health. This brings the total number of cases reported in the city to 1160. The total number of individuals quarantined is 1715.

The Provincial Board of Health issued instructions to the City Council to order a general vaccination of the entire population of the city. Eleven members expressed themselves yesterday as favorable to compulsory vaccination, while thirteen are opposed to it and will probably combat its enforcement here. Four members have not yet stated what their attitude will be, and the remaining Aldermen are ill.

Mayor Church feels himself bound by the action of the Council and cannot, he says, issue a proclamation enforcing a general vaccination order without its sanction.

A fine of twenty-five dollars is provided for neglect or refusal to pass the vaccination order, but several Aldermen would prefer paying the fine to passing the order.

The failure of the city council to enforce compulsory vaccination in pursuance of the order of local and provincial board of health promises to be the subject of litigation, Dr. McCullough, the Provincial health officer, has placed the matter in the hands of the Board's solicitor. "I don't know what will be done," said Dr. McCullough. "It is for him to say."

The anti-vaccinationists are also planning legal action. "We cannot announce what we intend to do at present," said Mr. A. B. Farmer, Secretary of the anti-vaccination league this morning.

"Do you maintain that the present act has not been strictly followed by the authorities? There are a lot of twists and turns in law," replied Mr. Farmer. "It is a question whether the action of our medical authorities has been justified by the circumstances and on account of the amount of injury that has been done to business."

Woman Terribly Burned.  
While sitting before a fire in her home nursing a small boy, the clothing of Mrs. N. Golden, of 208 Ferrie street east, Hamilton, caught fire and she was terribly burned. The pain she suffered drove her out of her mind and she was taken to the hospital in a delirium. She died there about four hours later.

No newspapers were published yesterday in Madrid except the strikers' publication, "Our Journal."

## GREENBUSH TREES MAY DISAPPEAR

Suggested Few Remaining Trees on Hospital Property Be Removed.

### HOSPITAL ADDITION PROSPECTS

The attention of the Trustees of the Kitchener-Waterloo Hospital Board was drawn to the rapid disappearance of the trees on the plot popularly known as "Greenbush" on the Hospital grounds at the regular meeting of the Board on Tuesday evening. Vice-President Geo. Diehl, who presided in the absence of President E.C. Kabel, reported that during the recent wind storm of November 20th, four or five trees were blown down and there are now less than thirty left. He suggested that all the trees should be removed and the ground cultivated to provide vegetables for the Hospital.

The question was discussed by the Board and the matter was referred to the Property Committee with power to act. During the last three years about seventy trees have been cut down and the ground cultivated. The question of taking early steps to erect the new addition to the Hospital was referred to a special meeting of the Board to be held on an early date by President Kabel.

It was reported that the donation of \$5,000 voted by the Dominion Rubber System had been paid, and there was on hand a building fund of \$8,118, with a considerable amount subscribed toward the new project.

Superintendent's Report.  
The report of the Superintendent showed 98 days for free patients, 1303 for day patients, total 1401, receipts \$2280.45; admitted 126, discharged 113; remaining in at end of month 54; operations 14. Accounts were passed amounting to \$228.84.

Regret was expressed by the members of the Board at the absence of Mr. Kabel, who, who recently underwent an operation at the Hospital. They were hopeful that he would have a speedy recovery.

The members present were Messrs. Geo. Diehl, S.B. Bricker, C.A. Boehm, M.E. Stroh, J.H. Baetz, W.G. Cleghorn, J.S. Schwartz, A.R. Ratz and Secretary-Treasurer Eby.

## THE RIGHT OF EVERY CHILD

Is That To Be Born Well Says Woodstock Lady Speaker.

### PUBLIC EDUCATION NEEDED

The indisputable right of every child to be born well and the duty of society to ensure this right were points impressed upon the members at the banquet of the Woman's Club in the school quarters of King Street Baptist Church last evening by Mrs. Stevens of Woodstock.

The subject was Eugenics of a which has been made by Mrs. Stevens, who is the wife of a well-known Woodstock physician. The address last evening was one of a series of addresses that Mrs. Stevens is delivering before Women's Canadian Clubs.

The gifted guest told the members why one should be interested in eugenics. She divided and explained the subject under three heads, first, we cannot be good citizens unless we are interested in eugenics, second, we cannot be patriotic unless we are interested in eugenics, third, we cannot be good Christians unless we are interested in eugenics.

Eugenics was dealt with by her as it applied to citizenship. On this basis she said was the law of heredity. While environment had something to do with the development of a man, the child was the father of the child physically, mentally and morally, therefore was of vital importance.

Danger of Feeble-minded.  
80 per cent of feeble-minded statistics showed was hereditary. It had cost the United States \$1,000,000 to take care of the feeble-minded descended from a particular drunkard in 75 years. Authorities as known advocated the segregation of the feeble-minded and the prevention of the marriage of feeble-minded persons. The hope of any nation lay in its children, yet unborn.

Immigration authorities had frequently pointed out should not be so lax.

Education is Needed.  
"How many of us are interested in conditions as they are at our very doors? Indeed, no," the speaker said. Unless the people themselves would work out a solution legislation on the subject would be useless. Personalities. Stevens does not believe a practical application of the various proposals possible at least not as yet but she believes in the spirit of them. Legislation after all cannot be much ahead of public opinion. Interest, education and action would lead to the solution of the problem.

The present time education was the greatest step needed. She believed that much good could be accomplished by organizations like the Woman's Canadian Club who could draw the public's attention to this important question.

### LADY REFUSES CANDIDATURE

LONDON, Dec. 10.—Lady Beversbrook, who before her marriage to Baron Beversbrook, owner of the Daily Express, was Miss Drury of Halifax, N.S., has declined the invitation of the Unionist committee for Ashton-under-Lyne to become a candidate for a seat in the Commons.

## UNION GOVT. LOSES NORTH ONTARIO

U.F.O. President Elected For Dominion House.

Uxbridge, Dec. 10.—R.H. Halbert was elected to the House of Commons in the by-election held in North Ontario yesterday, by a majority of about 130.

Mr. Halbert, who is President of the United Farmers of Ontario, ran as a U.F.O. candidate, while Mr. McKinnon, his opponent, appealed to the electors as an Independent Unionist.

The election was held to fill the vacancy caused by the death of Lieut.-Col. Sam Sharpe, who won in 1917 by a handsome majority. The contest originally was set for October 27, but the sudden death of Mr. W.J. Cowan, the Unionist candidate, caused a postponement.

Mr. McKinnon polled a large vote in the town of Uxbridge and the villages of Cannington, Beaverton and Sunderland. The six townships, with one exception, favored Mr. Halbert.

## HITCH POSSIBLE IN SETTLEMENT

INDIANAPOLIS, Dec. 10.—Settlement of the strike of coal miners was confidently predicted last night by a high official of the United Mine Workers of America. It was declared that the conservative element was in the majority, and that an agreement on the President's proposal was only a question of how long it would take to hear the arguments of all representatives who wished to speak.

A hitch in the proceedings arose, however, yesterday evening and the conference adjourned until 9.30 o'clock today, at which session a definite decision is expected.

A majority of the miners favored acceptance of the President's proposal, but a difference of opinion arose over the method of making the action effective and sending the men back to work.

Some contended that it would be necessary to reconvene the Cleveland convention which voted for the strike last November. In answer to this, it was pointed out that the present situation demanded immediate action to relieve suffering.

So determined seemed the opposing elements last night that adjournment was regarded as the only proper thing to save the situation, thus giving time for conference by delegations and a chance for high officers to win over the objectors.

## AFTER THE MAN WITH FIREARMS

TORONTO, Dec. 10.—The police may start a city-wide search of citizens for fire arms. The authorities now have the power to search all aliens but not citizens. The matter is under careful consideration by Chief Constable Dickerson and Inspector Guthrie, chief of the detective bureau.

In view of the alarming increase of shooting affairs in the city and the display of weapons by foreigners, the police are considering drastic steps to suppress violence. "There are too many gun incidents of late," stated Chief Grasset. "There are too many foreigners carrying weapons and something will have to be done. I have written to Ottawa to see what power the police have to search people or suspects. There is a section of the criminal code that gives the police the right to search all aliens."

Chief Grasset discussed the matter with Deputy Dickerson and Inspector Guthrie to-day. The chief stated that no action will be taken until the latest amendments to the original code are received. The right to search aliens for firearms was passed on October 9th, 1919.

### BORDEN AT MONTREAL

OTTAWA, Dec. 10.—Sir Robert Borden's visit to Montreal was of brief duration, the Premier returning to Ottawa last evening. Enquiry at his office this morning elicited the information that he was merely engaged in private business and that there was no political significance to his visit. Hon. C. C. Bal-lantyne, Minister of Marine, was in conference with Viscount Jellicoe and stated that Sir Robert had no conference with his colleagues.

### WESTERN ELECTIONS.

Municipal elections were held in Alberta and Saskatchewan yesterday.

In Edmonton Labor was victorious, while in Prince Albert, Swift Current and Medicine Hat the Labor ticket was defeated.

Two Labor men were successful in Regina. In Saskatoon Mayor McMillan was defeated by Ex-Mayor Young. In Moose Jaw W. Grayson was elected School Trustee for the 29th year.

## STRIKE LEADERS TRIAL CAUSES SEVERE STRAIN

Russell Asks For a Rest.—Will Try to Conclude Case by Christmas.

### OTHER CASES BEGIN IN JANUARY

WINNIPEG, Dec. 10.—Wearied by the severe strain of the daily hours in court R.B. Russell, the strike leader, who is being tried on a charge of seditious conspiracy, appealed to Judge Metcalfe yesterday to eliminate the evening session. Russell's career of unceasing activity began months prior to the outbreak of the general strike and the drain on his energy is telling on him. During the entire day's session he drooped in his seat and appeared to view the proceedings apathetically in marked contrast to his usual nervous air of interest.

E.J. McMurray, one of the counsels for the defence, submitted the plea to the judge who replied very kindly saying: "As this request is from Mr. Russell personally it has great weight with me." It has been noticeable that Russell had abandoned his constant practice of taking voluminous notes of the proceedings.

With the assent of the Crown the jury in turn was appealed to and the foreman stated his own and his fellow jurymen's willingness to agree. A secondary reason was advanced that the respite would enable the counsels for the defence to keep a pace with the defendant. From Vancouver, and R.J.
