Carey's
Roofing

Far-Seeing Farmers and Stockmen
Use Carey's Roofing on ALL farm, stock and poultry buildings,
both for roofing and siding. Just the material to apply over your
old leaky shingle or metal roof without removing same.

CAREY'S FLEXIBLE ROOFING

is practically everlasting—is proof against fire, wind, moisture—unaffected by heat,
cold or the most severe climate changes. Always flexible. Carey's is the oldest and
most widely used roofing. Composed of woolen felt, an asphalt mixture, barlap, and
cement compound. Our special lap—a patented feature—insures smooth, waterproof
joints and protects nailheads. Sold to you at manufacturers' prices. We have
warehouses established at convenient points all over the country. This enables us
to ship to you from nearby point at lowest freight rates.

Let us send you free our interesting booklet, a sample of Carey's Roofing,
and address of our nearest distributing point. Write to-day.

Messrs. J. Crouch & Son, LaFayette,
Ind., write: "We have just received 151
head of German Coach, Percheron and
Belgian stallions from Europe, which
came by special train from New York to
LaFayette, Indiana. We now have over
200 head of high-class German Coach,
Percheron and Belgian stallions on hand,
and can suit prospective buyers in horse
and price."

Mr. James Bowman, Guelph, Ont.,
writes: "Among our recent sales of
Aberdeen-Angus cattle, I would mention
the young bull, Elm Park Prince 2nd,
sired by Prince of Benton (imp.), and
out of Imp. Pride of Powrie 11th, to Mr.
John Mountain, of Boston Mills, Ont.
Mr. Louis Bruder, of Weisenberg, bought
a good, growthy, thick bull in Elm
Park King 3rd, also by Prince of Benton.
Mr. John Lowe, of Elora, has purchased
three good females in Elm Park Pide-
2nd, out of Pride 2nd of Lynmore, dam
of the famous Pride of Powrie 9th, that
was champion Angus cow at Royal Show,
England, in 1901, and also at Highland
Show, Scotland, same year, and he a so
took two good ones in Elm Park Beauty,
and Elm Park Beauty 2nd, both first-
prize winners. We expect soon to have
Mr. Lowe out to the fall fairs. Mr.
John Stewart, of York Mills, has also
made a start with Elm Park Keepsake
5th, sired by Lord Val 2nd, an Interna-
tional winner. And Mr. Henry, of Lan-
sing, an old O. A. C. student, has made
a start with Bowman's No. 1, and a
good bull calf with her. Mr. Geo.
Ritchie, of Plainville, has taken one of
our best bulls of this season, Elm Park
Ringleader 2nd, to head his pure-bred
herd at Plainville, Ont. We are pleased
and encouraged by the many inquiries we
are having for Angus cattle this season.
Our stock is in good breeding condition,
and our Clydes are also thriving. Our
flock of Suffolk sheep are wintering nicely."

MISREPRESENTATIONS OF TREE

AGENTS.

A press bulletin from the Ohio Experi-
ment Station says: "We have recently
received several letters similar to the
following: 'Tree agents are working in
this vicinity selling black locusts at \$25
per thousand. They claim that the
trees will grow to post size in 4 to 6
years.' They also claim that the trees
they are selling will not sprout from the
root, and that it will not be necessary
to keep live stock away from the young
trees.' We are also in receipt of many
inquiries as to the advisability of plant-
ing locust trees along the line of fences
to serve as live posts.

"Reliable nurseries in Ohio are cata-
loguing black locust trees at \$6 to \$10
per thousand. Locust trees will not,
ordinarily, grow to post size in less time
than 8 to 12 years from planting. They
will not sprout from the roots so long
as the trees are uncut or uninjured, and
the roots unbroken, but as soon as the
trees are cut or seriously injured or the
roots broken, sprouts will come up from
the roots. So far as is known, all
black locust trees are alike in this re-
spect, and any claim that they will never
sprout is either made through ignorance
or for the purpose of deceiving. Live
stock, and especially sheep, are almost
sure death to young locust trees if al-
lowed to pasture where they are growing.
It is not advisable to plant locust trees
along the line of fences adjacent to till-
able land, because of the fact that the
sprouts which grow from the root will,
in most cases, become a nuisance. The
trees will also be more liable to injury
from live stock, as it is not practicable
to fence the trees in. In most cases, the
trees would of necessity be planted in sod
and thus would receive no cultivation.
The growth under such conditions would
be slow at the best, and the grass would
encourage the presence of mice, which are
very destructive to young locust trees."
Moral.—Nothing is easier for an agent
than making tall claims.

CURED HIS WIFE of LA GRIPPE

Quebec Man tells how the Great Con-
sumptive Preventative was
an all-round Benefit

"My wife took La Grippe when she was
in Ottawa," says R. N. Dafee of Northfield
Farm, Que., in an interview. "She got a
bottle of Psychine and after using it for a
few days she was quite well. I took a cold
and am using it and am getting all right.
I think Psychine is one of the best tonics
on the market to-day."

There you have the whole matter in a
 nutshell. La Grippe and colds are among
the forerunners of consumption.

This man had one, his wife had the other.
Psychine not only cured both but it built
them up so that their bodies are strong
enough to resist disease. All seeds of
consumption are killed by
