

## Day After Day

During the past year we have tried to suggest to you desirable things to buy in our line. We would much prefer to see you here, we know we could do much better talking to you and showing you what we are talking about. We know, of course, that it is not always possible to do that, so we hope you will give our "ads." the same kindly consideration that you have done in the past. One thing you can depend on, that what we state in these columns we back up in the store with our goods.

H. Malcolmson

## The Modern Drug Store

In every community there is need of a store to which people can go with entire confidence. Confidence in the goods sold, in the prices charged, in the fairness and accuracy of the service.

In this community we shall ever aim to conduct such a store. We try to give better goods for less money, better quality for less profit, more satisfaction for less cost than can be had elsewhere.

FACTS FOR CATARRHAL SUFFERERS.

The mucous membrane lines all passages and cavities communicating with the exterior.

Catarrh is an excessive secretion, accompanied with chronic inflammation, from the mucous membrane.

Hood's Sarsaparilla acts on the mucous membrane through the blood, reduces inflammation, establishes healthy action, and radically cures all cases of catarrh.

To the Electors of The City of Chatham.

Chatham, Jan. 2, 1902.  
Ladies and Gentlemen,

Being a candidate for alderman for 1902, and soliciting your vote and influence, I think it fitting to present some of my views for your consideration.

In the first place I hold the office in a most honorable and dignified one to occupy, and that it should be the duty of a busy capable citizen to aspire to it, and when elected bend his best efforts to fill the office to the credit of the corporation and his fellow citizens, and in this sentiment I feel you will fully endorse me.

Respecting by-laws for inducing industries to the city, I take my stand in favor of the Chaplin one now before us as a sound proposition and am working hard to see it carried handsomely, for the trifling of one-sixth of a mill on the dollar—equivalent to 16 cents for each \$1,000 of property assessed—use is granting on our part very little for getting this already well established and extensive industry brought and settled here in our midst, it is eventually to be the magnet to attract kindred industries and others, and as the establishment of one manufactory leads to another, let us make sure the by-law carries and show to the world our sound commercial sense. The next industry will be the easier to settle here with one like the Chaplin Vehicle Wheel Works under way. You will agree with me progress without extravagance is our proper course.

Sanitation of the city—This important matter is certainly carefully watched by an efficient Board of Health who, under their able adviser in the person of Dr. Hall, Health Officer, of whom all the I have conversed with admit is capable, painstaking and prompt in all his duties, hence there need be no alarm for our fair city. As a fact we are a healthy community, having about the lowest mortality rate of all places. Vaccination might be optional, as I think public sentiment veers this way, however, the important thing is to maintain personal cleanliness, sanitation of premises and prompt isolation of the affected, and then we will be safe guarded from contagious diseases. I will say here that I do not approve of the office holding of the corporation being otherwise than a resident the best part of his time within the city limits.

Circus licenses—The rate is at present fixed in too low for the importance of the city and country to the circus proprietors. They recognize the snap they have enjoyed in the past by a low tariff to them. We should not give away \$100 or more needlessly.

Building strictly—Great strides in this line can be looked for this year and hereafter to provide residences for new arrivals, the result of new factories, and the next assessment roll must show a large increase, which will tend to reduce the tax rate. The working men and other classes are going to have their innings now.

As I cannot hope to meet all the electors before election day, therefore those I may not see because of the short time, will I trust impute no indifference by it on my part and assist to elect me.

Promising, if elected, to give thorough attention to the office, and wishing one and all a prosperous 1902. Yours faithfully,

JOHN WADDELL.
