Rotunda of Larocque Hotel, Valleyfield, Lined with Linabestos.

For Walls and Ceilings of Public Buildings-Hotels, Theatres, Town Halls, Schools and Churchesleading Architects are specifying

"The Only Wallboard that is Fireproof"

Linabestos is made of Portland Cement and Asbestos, in sheets 3-16 inches thick, 42 inches wide and 4 or 8 feet long. It is nailed direct to studding or ceiling joists, and the joints are either paneled or filled with cement. It can be left in its attractive natural tone of pinkish grey, or tinted or painted any color

Walls and Ceilings of Linabestos are sanitary, fire-proof and will ever crack or fall. They are just as satisfactory in private houses, offices and first class garages or coach houses as in big public buildings. Write for a sample of Linabestos, and descriptive folder 35 to

## Asbestos Manufacturing Co., Limited

Address: E. T. Bank Bldg., 263 St. James Street, Montreal Factory at Lachine, P.Q. (near Montreal)

would come strength and joy when He thought best. She would have patience and trust to wait and work in the valley of suffering, and would not look and search for the way out. Strengthened by that beautiful sight, she realized as never before the grandeur of Paul's words: "We glory in tribulations also: knowing that tribulation worketh patience. And patience experience: and experience hope."—Romans v. 34.—I. H. N. \*\*\*\*\*\*\*\*\*\*

### THE COOK'S CORNER Conducted by LILLIAN CRUMMY

น้อออออออออออออออออออออ The Pickling Season GREEN CUCUMBERS

Mix in the following proportions: Mix in the following proportions:
One gallon vinegar and one cup brown
mustard. Put in a large crock and
fill with small green cucumbers
(whole). They are now ready for
serving and can be kept until spring.

A PAYORITE PICKLE

One quart cooked beets chopped fine; one quart cabbage; one cup grated horse radish; two cups granulated sugar; vinegar to cover, with salt and pepper to taste. Mix thor-

RIPE CUCUMBER PICKLES

Pare and scrape the inside out and cut into small blocks one peck cucumbers (ripe). Put into weak brine for 24 hours. Take them out, drain and dry. Cook until soft in vinegar with one pound sugar and spices to taste.
Store in small jars, well corked.
PICKLED APPLES

One peck sweet apples; three pounds One peek sweet appies; three pounds sugar; two quarts vinegar; half dozen cinnamon: half ounce cloves. Pare apples, leaving them whole. Boil them in part of vinegar and sugar until you can put a fork through them. Take out, heat the remainder of vinegar and sugar an of vinegar and sugar and pour over them. Be careful not to boil too long or apples will break. Add cinnamon and cloves when done.

BEET PICKLES

Scrub beets, cut off leaves, leaving an inch or two of stem. Boil until tender, drain, cover with cold water push off skin and slice beets. Put in stew kettle and cover with vinegar to which a good quantity of sugar or syrup has been added. Boil again for about half an hour and seal. Beets put down in this way will keep for months. Young beets are even better than those fully grown.

Slice in an earthen jar one peck green tomatoes, six large onions, and pour over them one cup salt. Let stand 24 hours and drain. Add a stand 24 hours and drain. Add a quart of vinegar, three pounds sugar, quarter pound white mustard seed, one teaspoon ground cloves, one of ginger, one of cayenne pepper and two teaspoons mustard. Cook slowly for 15 minutes. .

#### The Care of House Plants

Henry Gibson, Staatsburg Henry Gibson, Staatsburg
The period when plants are removed
from the garden to the house is a
trying one for plants. Out of doors
they have been accustomed to fresh
air, moisture, and so forth, and not
very high temperature. In the house
conditions are greatly changed; the
air will be dry, and there will be heat
of executing character because of of an enervating character because of the lack of moisture in it.

Leave the windows open, and shower the plants every morning if the weather is pleasant. Use no fire heat unless it is quite cold, and then only sufficient to take away the chill. By sufficient to take away the chill. By a little care in this respect your plants will get accustomed to the new conditions by such easy stages that by the time the cold weather arrives they will not mind it so much, especially if one is careful to admit plenty of fresh air during the middle of the day.
