PROVISIONS.

The prices of all pork products are ruling high at present, with no expectation of a drop in price. There has been a heavy export demand, with good local business passing.

Current prices are as foilows:

ORDERING EQUIPMENT.

Philadelphia and Reading Railway has ordered 26 locomotives from the Baldwin Locomotive Works. Twenty of the engines will be of the Mikado type and six of the Mallet type. They will cost about \$1,-

FLOUR, CEREALS AND MILLFEED.

Business continues very slow in the flour market, the trade buying only in small lots to fill actual wants. The mills are generally taking advantage of the slackness to overhaul their plants, although contract business is still on hand. Ontario reports state that little wheat is now coming forward, but that the mills are well supplied to meet the slow demand offering. Prices are steady and unchanged.

Millfeed continues in good demand from all sources, and as the supplies are low prices are very firm. There is no actual change to report, however. The market for rolled oats is quiet, and prices are unchanged.

REFINED SUGAR AGAIN UP.

The sugar market remains in a very strong position in sympathy with the continued advance of the raw article in New York, which has forced up refined sugar in this market. Another 10c per 100 lbs to \$7.70 for extra granulated in bags and \$7.75 in bbls. This makes an advance of \$1.10 per 100 lbs since the beginning of the year and \$1.10 advance over prices a year ago.

FRUIT AND VEGETABLES.

There has been a great deal of extra business passing owing to the Easter and Jewish holiday trade during the past week. Only one carload of strawberries arrived on the market, which caused a general scramble to get the fruit while it lasted. It was sold at auction at unusually high prices, with the result that the quoted price has risen from 12c to 15c, to 17c to 18c, and even higher. High prices have been ruling in bananas, bunches of 7 hands selling at \$1.00, and 9 hands at \$2.00 to \$2.25. There is no change to note in oranges, prices ranging from \$2 to \$4.00. Grapefruit is strong and active, the best brands selling at \$3.75 to \$4.25. Pineapples are arriving on the market in carload lots, and are selling at \$3.75 to \$5.00, according to size.

The scarcity of green beans on the New York market is expected to advance Montreal prices from the present price of \$4.50 to \$5.00 to even as high as \$9 to \$10 per basket. Red onions are practically over, giving place to Texas and Egyptians, of which the early shipments will be very high in price. Lettuce has been very high over Easter, selling at 7c to 8c per lb. The tomato market is climbing up in response to very light shipments from Florida. Only 50 carloads are being shipped instead of the

GRAIN AT HEAD OF LAKES.

Dr. Magill, chairman of the Board of Grain Commissioners, in a recent interview stated that there would be more work regarding the handling of grain at Fort William this season than ever before. "The elevators are full to overflowing, with over 40,000,000 bushels of grain, excluding the hospital elevators. The terminal elevator capacity at the head of the lakes is 40.600.000 bushels and the stocks in store exceed this total. There are still 100,000,000 bushels of wheat to be marketed by the farmers and there are 45,000,000 bushels actually on the farms not moved out of the bins. All this grain has to be moved east; the elevators have to be emptied of their contents, and all this grain has to come down here and be sent on to the east. There is a much larger volume of grain to be moved than there ever has been before and there will be more work in this respect than ever before in the history of these two cities," said the chairman.
