

You get more years of service and lowest fuel cost when you use an

ALPHA

YOU may be able to buy a gas engine for less money than you would pay for an Alpha.

But first cost is not by any means the important consideration.

What you are looking for is many years of good service, low fuel bills and freedom from repairs and trouble.

With these points in mind, carefully investigate the performance of the Alpha on any of the thousands of Canadian farms where they are in use.

That will convince you that the Alpha is the most economical engine you can use. It is simple and unusually *dependable*.

Before buying an engine, write to nearest office for our illustrated catalogue.

THE DE LAVAL COMPANY, Ltd.

LARGEST MANUFACTURERS OF DAIRY SUPPLIES IN CANADA.

Sole manufacturers in Canada of the famous De Laval Cream Separators and Ideal Green Feed Silos, Alpha Gas Engines, Alpha Churns and Butterworkers. Catalogues of any of our lines mailed upon request.

High Power—Light Weight

You can put a White-Allwork on wet land or use it for seeding and harrowing. The White-Allwork weighs only 4800 lbs., yet it has 3000 lbs. drawbar pull on high gear, or 4000 lbs. on low gear. It has a 4-cylinder (5 x 6 inches) motor, the largest engine on any 3-plow tractor. It is compact, sturdy, and easily handled—turns inside of 12 feet radius. You can use it on rolling land and work in close to fences.

The engine is set cross-wise on the frame, doing away with bevel-gears and giving a belt pulley on direct line with the crank shaft. All gears are self-oiling, and well protected from dust.

The White-Allwork is a worthy addition to "The First Quality Line."

You know best what a White-Allwork will save you.

You know what horse work or other tractors are costing. Let us tell you what it costs to use the White-Allwork on every power job on the farm. Then decide for yourself whether this practical tractor will save you money or not.

The White-Allwork Kerosene Tractor

Stumping

—means bigger farm profits

It is the modern way to farm—the way to develop the new farm or improve the old. C. X. L. Stumping Powder is your means of speeding up labor and of increasing acreage or crops.

C. X. L. will clear away stumps and boulders, drain or irrigate your land, and is an invaluable aid to the fruit grower. C. X. L. Stumping Powder will do the work of a man, two horses and a stump puller in removing stumps, and do it twice as fast at less cost. It will ditch bog land in half the time it can be done any other way.

C. X. L. will make the holes and break up the hard pan for tree planting—insuring earlier maturing, healthier trees than those that are spade-planted.

Our book—"Farming with Dynamite"—is valuable to you if you are farming for profit. Send for your free copy today.
