THE VERY BEST

A "Gilsonized" Farm

Gentlemen—We have been running our 8 H. P. Gilson Engine for nearly four years. It has always given us the best of satisfaction.

We use it to run our N-12 in. Gilson Ensilage Cutter, and this fall we put thirty feet of corn in our "Gilson" Hylo Silo in seven hours. We run our 10 1/2 in. plate grinder, grinding at the rate of twenty-four bags of mixed grain per hour. The other day we ran the engine sawing wood, using four gallons of fuel in a ten-hour run, wood being maple and beech.

Our little "Johnny-on-the-Spot" after all his years of service, is still on the job, as willing and useful as ever. Mother thinks the world of "Johnny," as he saves an inestimable amount of hard work, and we consider he has paid for himself over and over again.

I have operated and repaired different makes of engines, but I have not seen an engine yet that stands up with the Gilson for power and fuel economy per rated h.p.

Yours respectfully,
JOHN WILSON,
Nashville,

Singular Satisfaction

Gentlemen—I am sending you photograph of my Gilson Tractor and Gilson Thresher.

My tractor has been a source of singular satisfaction to me. When I bought it I was not positive that it would be a paying investment. I took the chance and am delighted with the results.

The tractor is invaluable for work at the draw-bar, such as plowing, harrowing, etc., and it is exceedingly valuable with the belt, where I do my own grinding and threshing, and I help out the neighbors quite a bit. The tractor is so simple, so easy to handle, so thoroughly reliable and willing, that we find lots of jobs for it and it does them all with the greatest economy and satisfaction.

The Gilson Thresher, which I purchased later, has more than met my expectations. It is the cleanest thresher I have ever seen, and has far more capacity than I expected or you represented.

Yours truly,
D. MCKENZIE, Glencora.
