Sweeping Concessions In The Home Rule Bill

GLASGOW, Feb. 4.-Concessions of the most sweeping descripion are to be made to Ulster in connection with the introduction of Home Rule in Ireland in the course of a statement to be made by Premier Asquith on the reassembling of Parliament, according to to-day's Glasgow Herald. The concessions, says the newspaper, are to cover practically everything short of the exclusion of Ulster from the provisions of the Home Rule measures.

The announcement made by the Herald is regarded in political circles as particularly significant, since it coincides with the arrival in Glasgow of David Lloyd George, Chancellor of the Exchequer, to speak on the land question.
