UNANIMOUS FOR! THE UNIVERSITY

Both Sides of House United on the Principle of Mr Calder's Bill--Mr. Haultain Says Divorce it From Politics

Unanimous for University . full control over the finances and

as of more importance than the other three.

necomplishment of this purpose.

In drafting his bill he had endeavother provinces where there had university and have to with the the university problem. He expected to what degrees should be granted the House to differ with certain fea- and other questions of a like nature. tures of the bill but he anticipated unity on the principle and he hoped five members, all of whom would

the time when, instead of bringing frequently as would be necessary to them from the east and south we deal with matters under their conshall produce at home men-for these trol, but this council could meet fre

Furthermore, they should have a their own western problems, such problems as the transportation ques-tion, the labor problem, diseases of animals, etc. Within a few years they would have two, three or four hundred men attending the university, who would turn their attention to these problems, so that, while the university itself would not deal with these matters, the young men pas-sing through it would be mentally trained and equipped to deal with principle of the bill and assured the

sity in the province with degree con-lerring powers. Other institutions sioner of education that it should be regard to degrees. This institution normal school through a pedagogi-could be supported by the state and cal department. The university be strongly represented on the finan-cial board. The university will be a prevail, and the whole system should ining body which he regarded as the to the graduation, complete from the higher purpose of the institution. A beginning.
close alliance is contemplated with Mr. Haultain took objection to the present educational system of the government making three apthe province and affiliation with the pointments to the board of manage normal school and collegiate insti- ment. He believed it should be

Dealing with the machinery of government, Mr. Calder said the most portant feature was the providing for the governing bodies, a board of governors, a senate and a council. Provision was also made for the appointment of a president. After giving due consideration to the matter, he had come to the conclusion that it was necessary to have a man who would be the executive head of the tion channel. institution. He should be a young man, an energetic broad minded man, a man of culture who would to Ottawa for a land grant, but he make himself acquainted with west- hoped those outside trustees would era conditions. It would be hard to be just and they should be from the find such a man as he had in mind. nature of their trust. He believed Toronto university had now been in an endowment as large as the looking for a suitable man for pres- project itself and he hoped that the ident for over a year, and had not Ottawa government would not only been able to secure the right man, grant the 150,000 acres of land but and, while we may not now, require a man of the standing that and extent of the province. If we Toronto would require, they must are to have a modern university we look forward to securing the very best possible man for the position.

The board of governors would consist of six members, and would have day.

ere was complete unanimity in business affairs of the university as the legis ature yesterday when Mr. district from the scholastic side Calder moved the second reading of his university bill. Mr Haultain affairs and should be chosen for their sed the commissioner of educa- business qualifications rather than tion and expressed his approval of their scholastic attainments. Of the six members the government would In apeaking to his motion Mr. Cal- name three, whilst the president and said that in all the subjects be two members would be elected by fore the legislature this session none the senate and would constitute the

university, bill. This matter had The senate would consist of no en in the minds of the people for less than sixteen members, four of time and the government felt whom would be ex-officio member the time had arrived when the three to be appointed by the govern first steps should be taken for the ment and nine to be elected by con vocation. The duties of the senate would be in connection with the ored to profit by the experiences of scholastic and academic side of the been serious difficulties surrounding ection of professors, the decision as

that they would be able to establish be members of the senate, was in rean institution that will not only be ality merely an executive committee a credit to the province but to Can- of that body. Mr. Calder stated he had in mind that the members of the The rapid growth of the country senate should be selected from all emands an army of professional parts of the province, and it would nen and they should look ahead to be impossible for them to meet as quently and deal with these matters.

The council which would consist of

The Dominion government has a land grant to the university and he hoped that this aid will be material ized as it did in the case of Manito ba which received 150,000 acres. Concluding, Mr. Calder appealed to all classes and communities give a whole hearted support to the university scheme.

The leader of the Opposition ex-

pressed his hearty approval of the House that it would have his support. It was gratifying to be able The preamble of the bill sets forth port. It was gratifying to be able that it is desirable to establish in to set aside other differences, to con-and for the whole province of Sas-sider legislation that will have such katchewan one university for the an important bearing on the whole purpose of providing facilities for future of the province. Advice For The Tired Women

weman naturally says, but all the time the real trouble very often centers in the womanly organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate special

and inflammation of the delicate special organs of the sex should be treated steadily and systematically.

Dr. Pierce, during a long period of practice, found that a prescription made up of the active medicinal principles of native American roots, extracted by the use of chemically pure glycerine, companies were cent of such cases. After over ninety per cent, of such cases. After using this remedy for many years in his private practice he put it up in a form that would make it easily procurable, and it can be had at any store where medi-

You are handled.

You are not asked to close your eyes to what is in this (R) prescription of Dr. Pierce. He tells you all about it and puts a label with all the ingredients upon the bottle—they are Lady's Slipper root, Golden Seal root, Black Cohosh root, Unicorn root, Blue Cohosh root and tripleredined glycerine. These various ingredients are all extolled and recommended by yarlous medical authorities. Thus F. Ellingwood, M. D., of Bennett Medical College, Chicago, says of Lady Slipper

importance to the general practitioner of medicine."

"In Helonias we have a medicament which more fully answers the above purposes them any other drug with which I om acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent."

Aching from head to foot—that is the condition that afflicts some women at stated periods—backache, dizziness, and pains almost unbearable. An honest and a safe remedy which no woman can afford to lose the opportunity of trying for the cure of these distressing complaints which weaken a woman's vitality is Dr. Pierce's Favorite Prescription—an honest medicine which has the largest number of cures to its credit and a deserved popularity for two score years all over the United States.

Dr. Pierce's Pleasant Pellets cure biltousness, sick and bilious headache, dizziness, cestiveness, or constipation of the bowels, lees of appetite, coated tongue, sour stomach, windy belchings, "heartburn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels.

Persons whe are subject to any of these troubles should never be without a

In proof of their superior excellence it can truthfully be said that they are always adopted as a household remedy after the first trial.

One little "Pellet" is a laxative, two are cathartic. They regulate, invigorate and cleanse the liver, stomach and bowels. As a "dinner pill," to promote digestion, take one each day. To relieve the distress arising from oversating, nothing equals one of these little "Pelleta." They're tiny, sugar-coated, antibilious granules, scarcely larger than mustard seeds.

face since the arrival of the little Jessie Pratt also wears a smiling ace since the arrival of a little son.

The Friday parties have proved a nuccess the past five weeks, the least number being present was 45. Wetch for the Munroe & Joubert's dance a week from Friday on the arrival of old the two brides, also a dance on the ed arrival of Geo. Patton and bride. Jas. Patton and Jos. Allan are ex-

"Could the consumptives of any given community be seen at one time, or pass in panorama before the people, or pass in panorama before the people, public consciousness of the magnitude of the affliction might be aroused. A physical disaster shocks the world and lets loose the sympathy of millions. A few thousand deaths are nothing as compared with the deaths from consumption." LAWRENCE F. FLICK, M.D., Medical Director of Henry Phipps Institute for the Study, Treatment and Prevention of Tuberculests.

Many reasons surely must influence men and women to help in the great work being carried on by the

MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES.

Other hospitals refuse the consumptive. This institution cares for them.

Not a single applicant has ever been refused admission to the Muskoka Free Hospital for Consumptives because of his or her poverty.

Seven hundred and thirty-eight patients have been cared for since the Free Hospital was opened in 1902. Take a week's record:

63 patients in residence; 37 absolutely free, not paying a copper toward their maintenance; 15 paying 50 cents a day er less; 5 paying 84.00 a week; 4 paying \$5.00; one paying \$7.00.

These figures tell plainly of a large deficit on maintenance account each menth. To cover this the trustees are dependent upon the contributions come to them from friends in all parts of Canada. Not since the days of George Muller has so great a
