BARBER BOY CUTS THROATS OF FIVE.

Barber and His Wife Are Mortally Wounded.

Three Barbers' Throats Also Cut.

The Boy Believed to be Black Hand Agent.

New York, May 6 .- A 16-year old boy known only as Carmello and employed in a barber shop in Brookly, early cut the throats of his employer, Autonio Peraso, Mrs. Peraso, and three berbers while they lay asleep in Peraso's apartment, at 107 Fulton street. The wounds of Peraso and his wife are believed to mortal while those of the barbers are serious, but probably not fatal.

The boy escaped. The police have theory that the boy was an agent of a Black Hand gang, which had been de-manding money of Peraso under threats a plack hand gang, which had been de-manding money of Peraso under threats of doing him injury and that the black-mailers placed the boy in the shop in order to punish Peraso for his refusal to satisfy their demands.

order to punish Peraso for his refusal to satisfy their demands.

Carmello used a pair of seissors and a razor in his attack upon the barber and his employees, Frank Strafina, Menuel Robento and Josef Macero, the three barbers, were first attacked by the boy. Strafino was awakened, from his sleep by a stab in the neck and before he could resist the boy drew a razor across, his throat, inflicting a severe wound. He was still conscious and saw the boy as he crept to the bedsides of Rebento and Macero and cut their throats while they slept.

Peraso, who, with his wife, was asleep in an adjoining room, was awakened by a stab wound in his neck and engaged the boy in a desperate struggle. The man was unarmed and the boy clutching a razor in his hand slashed his employer several times about the face, neck and hands. The fight was going against the barber when his three assistants staggered into the room and attacked the boy. Together they drove him from the rooms into the street and summoned assistance. It was found that Mrs. Pedaso's throat had been cut and that she was lying in bed only partially conscious while the fight with the boy was in progress.

The first body dug up was that of Andrew Hegelein, a wealthy bachelor of Aberdeen, S. D., who came here in January, and disappeared about Feb. 1. The limbs and head had been sawed off and placed in gunny sacks, which had been sewn up. The body was nude. In a second excavation a skeleton, believed to be that of Jennie Olsen, an adopted daughter of Mrs. Gunness, who disappeared in September, 1906, was discovered. The girl was nearly 17 years old at the time, and it was reported by Mrs. Gunness that she had gone to Los Angeles, Cal., to attend college. Continuing digging brought the searchers to more sacks, which contained the dismembered body of a large man. Decomposition had reduced the body to such a state that the only features recognizable as such were a dark moustache and dark hair.

Beneath this body was another layer of earth, under which were found the bodies of two children, apparently about (Continued on page 5.)
