NEWS BY THE ENGLISH MAIL. The R. M. Steamer America, sailed at ...

The French Ambassador at Constantinople M. de la Cour, had been recalled, in consequence of his equivocal behaviour at that city...

The Argos arrived at Plymouth from Australia on the 17th, with 557,778 in gold, and about 100 passengers.

A new gold field was discovered on the Goulbourn River, which caused some to raise their demands from £45 to £60 for the run to England.

MONETARY AND COMMERCIAL REVIEW. Almost the only occurrence of interest to the commercial reader during the past week has been the unusually large import of gold from Australia and the United States.

THE declaration of the Earl of Clarendon, in answer to the Embassy's deputation on the Russo-Turkish question, is still apt for quotation...

THE Russian Generals have left Bucharest, and proceeded to the head-quarters of their corps. Prince Gortschakoff also remains here.

no orders will be given for it to leave unless new circumstances should render it necessary. This is not all that has been done at the Ministry of War...

In case of a general war England will do the work of the coalition by sea—and never was the better prepared to do it effectually.

The fate of Italy is intimately involved in the fate of Turkey. A letter from Naples addressed to a London journal, under date Oct. 4th, says:—"It is perfectly well understood here that Austria is to be pushed on as Russia advances, by which means the despotic governments of the peninsula will be confirmed in their iniquity and cruel system of rule..."

Intelligence of the most recent date from St. Petersburg informs us that the Car will make professions, is still apt for quotation, and seeks to gain time. The positive sincerity of the Emperor of Russia can only be shown by positive reasons...

THE Sultan's firm in favor of his Protestant subjects. Most honored vizier, illustrious councillor, maintainer of the good order of the world, director of public affairs with wisdom and judgment...

REPORTED DEFEAT OF RUSSIAN TROOPS.—A despatch from Vienna of the 22d inst., reports that the Turks had passed the Danube, and defeated the Russians near Atanetzta. It was also rumored that some Russian vessels had been captured by the Turks.

REPORTED DEFEAT OF RUSSIAN TROOPS.—A despatch from Vienna of the 22d inst., reports that the Turks had passed the Danube, and defeated the Russians near Atanetzta. It was also rumored that some Russian vessels had been captured by the Turks.

Car, when he crossed the Pruth, assumed the offensive, and has maintained it ever since. The strength of Turkey, supported by England and France, must prevail against Russia. How long will the Car combat with superior forces?

Not only is absolute right on the side of Turkey and her Allies, when they repel practical invasion and unjustifiable violation of the most sacred international bonds, but their forbearance has been the most temperate and patient character. It is now exhausted, and we cannot regret the severe consequences that will ensue to Russia.

A despatch from Bucharest, of the 15th October, announces that the Turks had already occupied an island in the Danube, near Vidin. The army of Omar Pacha is represented as full of enthusiasm.

The Breiten Hall of Hamburg contains a letter from St. Petersburg, of the 15th, which says:—"To-day four of the principal English merchants of this city, were requested to attend at the hotel of the Minister of Finance, when the following communication was made to them by the functionary:—Gentlemen, His Majesty having learned by the English journals that grave disquietude existed relative to the persons and property of English subjects, whether in Russia or in the Baltic, should war break out, has charged me to inform you that, whatever may happen, the persons and property of English subjects, on sea and land, shall be fully respected. I may add that strong hopes are entertained that peace will be maintained. At all events, the conviction prevails that war will not break out between Russia and England, whatever may be the course of events in the East."

A telegraphic despatch from Bucharest states that on the 23d instant two Russian steamers and eight gun-boats forced a passage on the Danube, and encountered a smart fire from the fort of Isacova, situated on the right bank of the river, between Reut and Ismail. The Colonel commanding the garrison, along with 3 officers and 25 men, were killed, and 50 wounded. The Russians assert that they succeeded in setting fire to the fortress of Isacova.

The reports from the Russian quarters in the Principality state, that 17 hospitals already exist, and that 10 more are about to be opened. The most costly furnished and admirably arranged palaces and dwelling-houses of the inhabitants are taken without remorse by the Russians for the purpose of accommodating their sick, who multiply so fast on their hands that they have already exceeded the expedient of removing such as can bear it further northward.

religious concerns, nor, in short, with any of their affairs, either secular or religious, in any manner whatsoever, in order that they may be enabled to exercise the magister of their faith in security. Those who shall be so desirous to be molested one iota in these or in any other matters, and who shall be so desirous to be molested to maintain them in the desired quiet and tranquility. They are to be permitted to make those representations to the Sublime Porte which they may see necessary to make concerning their affairs, through their agents. After their last taken due cognizance of these matters, they shall cause the present noble receipt to be registered in the proper quarter, and shall cause it to be confirmed in the possession of the aforesaid subjects, and those shall be careful that the high provisions thereof be always carried into due execution. Thus he is known unto thee, giving full credence to the imperial signet. Done in the second decade of the sacred month of Moharrem, in the year of the Hegira 1264, at Constantinople the well guarded. (Sultan's Signature.)

THE POPE AND THE CRIME.—The Russian Ambassador has left Rome. The Pope sent to some Polish monks for information about the Polish martyr just canonized. The monks communicated the particulars directly, instead of through the Emperor, and have been sent in consequence to Siberia. To this severity the Pope alluded in his harangue, and wept as he deplored that Catholics in Russia had no other course left but to suffer and die.

FRANCE. An article of a warlike character, which appeared in the Monitor, upon the Turkish question, is stated to be written by the Emperor himself. Everything is prepared for a land expedition from France to Constantinople; but no orders will be given for it to leave unless new circumstances should render it necessary. This is not all that has been done at the Ministry of War...

CALIFORNIA. The Supreme Court of California, has made an important decision, declaring valid all grants made in accordance with the Mexican law. The effect of this will be to oust hundreds from lots held by them for years, and restore them to the original grantee. It is considered a death blow to the speculators, and will cause millions of property to change hands, by the mere operation of law. Mr. Bigler's majority for Governor, throughout the State, turns out to be only eighteen hundred and five votes. Murders and outrages are occurring throughout the State to an alarming extent.

SANDWICH ISLANDS. From the Sandwich Islands the news is highly important. Dr. Judd had been removed from the office of Minister of Finance, and Eliza H. Allen, late United States Consul, appointed in his place. A decided step had been taken towards annexation to the United States. The French and British Consuls had protested to the King against such an act, and the American Commissioners had replied in a firm but dignified manner. This movement had caused the greatest excitement in the Islands.

UNITED STATES. An express train on the Hudson River Railroad was lately thrown off the track by the carelessness of the switch. The train was going West with 700 passengers, some of whom were killed or seriously injured, though the damage to the freight and train was estimated at \$50,000. The switch tender immediately absconded. Most destructive fire had occurred at New York. A paper of that city, under date of Dec. 31st, gives the following particulars:—The grain storehouse, at the Atlantic Dock, occupied by T. Shortland & Sons, were burnt yesterday afternoon, together with 70,000 or 80,000 bushels of wheat and corn. The total loss is about \$50,000. The grain was principally insured in the New York Corn Exchange, and the building and fixtures for \$25,000, in the Fire and Protection Companies of Hartford and one office in this city. The fire yesterday morning, at the corner of Nassau and Fulton streets, was a very disastrous. The loss amounts to \$241,000, which there is insurance only to the amount of \$107,000.

THE MARRIAGE FINE.—The Gloucester correspondence of the Traveller notices the arrival at that port of a small fleet of mackerel fishermen which have obtained very poor fares, and who report that mackerel are very scarce; that there are nearly 500 sail of American fishing vessels on the Northeast ground, 300 of which made a harbor at Port Head recently, and all had small fares. The British squadron was to be on active watch for the Americans until the 15th of December. The officers of the British Government vessels were courteous and gentlemanly towards the fishermen.—Those of the Provincial armed crews were insulting. The fishermen think that the steamers, with their pilot and effect upon the water, drive mackerel completely from their neighbourhood. The Portland advertiser of yesterday says:—Fishing schooner Louisa, Capt. Littlejohn, arrived at this port on Sunday from Bay Chaleur, reports having had 90 barrels mackerel taken from her by the fish cutters, an amount of alleged filching within limits. Within the memory of the oldest fisherman in this city as related in the Traveller, mackerel fishing, as it is called, has never been experienced in this city as related in the Traveller. Mackerel fishing, as it is called, has never been experienced in this city as related in the Traveller.
