A SEVERE CASE
OF NEURALGIA
Cured After Long Years of Suffering by Dr. Williams' Pink Pills.

There is an excellent reason why Dr. Williams' Pink Pills have cured the most severe cases of neuralgia, sciatica, and other complaints in the group that are known as disorders of the nerves. This group also includes St. Vitus dance and paralysis, and the common state of extreme nervousness and excitability. Each of these complaints exist because there is something the matter with the nervous system. If the nerves have tone—are strong and healthy, you will not have any of these complaints. The reason Dr. Williams' Pink Pills cure nervous disorders is that they restore weak, run-down nerves to their proper state of tone. They act both directly upon the nerves and on the blood supply. The highest medical authorities have noted that nervous troubles generally attack people who are bloodless and that the nerves are toned when the blood supply is renewed. It is thus seen that Dr. Williams' Pink Pills cure nervous disorders by curing the cause of the trouble.

Mrs. J. C. Adams, Norris Lake, Man., says: "I am writing you at my husband's request to let you know the great benefit Dr. Williams' Pink Pills have been to him. He is a river driver and therefore much exposed to all kinds of weather and wetting. As a result he had an attack of rheumatism, and then to add to his misery a severe type of neuralgia set in, locating on the left side of the face, and causing him such terrible pain that it would drive him almost wild. He was treated by several doctors, and finally went to Winnipeg, where they blistered his head and applied hot plasters which really only added more to his misery, and he returned home still un cured. In this way he suffered for nearly six years, trying all sorts of medicine, but never finding a cure. One day while he was suffering I went to a store to get a kind of meat, but they did not have the kind I wanted, and the storekeeper asked me what I wanted it for. I told him about my husband and how he suffered and he placed a box of Dr. Williams' Pink Pills on the counter saying, 'Take my advice, this is what your husband should take.' I took the pills home with me and my husband started taking them. I am not sure how many boxes he took, but one thing

is certain, they completely cured him, and he has never since had a touch of those torturing pains. You can tell how much he suffered when I say that the hair on the side of his head in which the pain was located turned grey. It looks odd, but he says it does not matter since the pain is gone. I believe he would not have been living now had Dr. Williams' Pink Pills not cured those terrible pains, and you may be sure we gratefully recommend them to all our friends and all suffering ones."

But since our systems are come weakened, impaired and broken down through countless generations, remedies are needed to aid Nature in correcting our inherited and acquired weaknesses. Campbellton, the commencement of a Tuberculosis Sanatorium near Salisbury, the completion of survey of the St. John Valley railway, the building of a railway from the Gloucester Iron Mines to the I. R. C., and dock at Newcastle, and an increased territorial revenue; and promised cheaper school books, amendments of Health and Public Utilities Acts, and acts to authorize Cities and Towns to pass bye-laws for the early closing of shops, and with regard to the New Brunswick Coal & Railway.

The address in reply to the speech was moved by T. A. Hartt, Charlotte, and seconded by D. P. MacLachlan of Northumberland. Hon. C. W. Robinson, leader of the opposition claimed that the government was taking great credit to itself for the number of bridges they had repaired but their comparison with similar work by the former government was unfair for the reason that the old government did not repair bridges under forty feet span while this government repairs them down to twenty feet span and there were far more small bridges than the forty feet kind. The administration is wasting the public monies on their political friends under the guise of bridge expenditures.

After routine business the House prorogued at 6 o'clock.
