Mr. R. H. Armstrong and daughter Miss Annie, left on Monday for New York City.

## RHEUMATIC PAINS HAVE DISAPPEARED

As a Result of Treating the Trouble Through the Blood

The chief symptom of rheumatism is pain. The most successful treatment is the one that most quickly relieves and banishes the pain. Rheumatic people suffer pains that could be avoided by building up the blood; when rheumatism is associated with thin blood it cannot be corrected until the blood is built up.

Mr. Ed. Hall, Main-a-Dieu, N. S., suffered from rheumatism for years but was more fortunate than many victims of the disease for he found a remedy that so built up his entire system that he is now free from rheumatism. Mr. Hall says: "I was taken down with rheumatism, and at times was under the treatment of several of the best doctors in Cape Breton, but they held out no hope for my recovery from the trouble. I was confined to bed for three years and a helpless cripple from the trouble. I could not move, and had to be turned in sheets. My legs and fingers were drawn out of shape, and sores developed on my body as the result of my long confinement to bed. I was in this serious condition when a friend advised the use of Dr. Williams' Pink Pills and I began taking them. The first benefit I felt from the pills was an improved appetite, and then I began to feel stronger, and was finally able to get out of bed and go about on crutches. I continued taking the pills for months, slowly but surely getting new strength, and finally I was able to lay the crutches aside. I will always be lame, as the result of my long stay in bed my left leg has shortened somewhat, but otherwise I am feeling fine and able to do my work as Fishery Overseer. I may add that when the rheumatism came on I weighed 140 pounds, and when I began going about on crutches I only weighed 67 pounds, and now I am at normal weight. There are many here who know and can vouch for the truth of these statements."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### GOVERNMENT ROOMS

The Labor Hall, near Hennessy's has been opened, as committee rooms, for the party. All supporters and friends of Mr. E. A. McCurdy, the chosen candidate, are welcome.

### MINISTERIAL WELCOME

Victoria, B. C. Nov. 16—At a reception tendered to Rev. W. C. Williston, following his induction as pastor of the First Presbyterian church here, Bishop MacDonald the Roman Catholic prelate, was among other clergymen who welcomed the new minister. In an address Bishop MacDonald said—"I have long left that the line of cleavage is between those who believe in Jesus Christ and those who do not believe. Those who do should stand together and help each other."

### CANADA NEEDS PROTECTION

The more the tariff question is studied out, and the tariffs of other countries examined, the more necessary it seems to be, that a National policy of protection, should be placed on guard, as a guarantee of safety and prosperity, for the true development and growth of every phase and department of Canadian business and industry.

And at a time, when every other country in the world operates their fiscal policy, under a high protective tariff, the opponents of the Government in Canada, are advocating a lowering of our tariff, even to the length of Free Trade, in the face of the fact that the Government of the United States, has raised a tariff wall against us, with the evident intention of shutting out Canadian production to as great an extent as they can. The advocates of a lower tariff as a Canadian policy either cannot or will not see that to do so, in the immediate vicinity of a country with a high tariff against us, is simply to aim a blow against every class of society in our Dominion whatever their business occupation or work. It is a one sided policy, crushing to Canadian interests, and most certainly would be advantageous to the interests of the nation to the South of us.

Nor are the people of today, any more likely to accept the Free trade or lowered tariff doctrines of its advocates, than they were a decade ago, to accept the Reciprocity pact, sought then to be foisted upon the Country. It on the face of it, seemed to be a very nice thing, a case of mutual return, and some of the Reciprocity politicians are still, alive, but Canada sternly refused to be led into the web, and frenchantly hurled its advocates from power. Now those same politicians would have us believe that the Tariff question, is not the issue before the country. They dread it, the people know their past record, and if the people of our Dominion, fully realize the fact, that the tariff question, is the most important issue in Canada today, the doom of lower tariff advocates is sealed. They will have no more use for the mixed up fiscal policy of Free Trade, or low tariff advocates, than they had for their former policy of Reciprocity, more especially as there are high tariff walls against us.

Reciprocity was unsuited to Canada, and Canadians acted accordingly. Tariff measures advocated by the opponents of the Meighen Government, are equally unsuited to our circumstances and position, and every sentiment of loyal Canadianism, should give it, its death blow on the 6th of December. Never mind what the people to the south of us, think about it. We know it would rejoice some of them to see Canada take a step which would tend to give them a commercial and industrial power over us. What care they if our manufacturing industries are crippled, or even wiped out. They are not at all concerned as to whether Canadian workmen and laborers, can find employment, within our Country, and it is a matter of indifference to them, whether our farmers, have a home market or any other market, and behold it all is the feeling, to which some of them gave utterance when the Reciprocity talk was on the slate, "America should own it all, from the equator to the North Pole." Roused to action, Canada at the polls, sent back the reply—what we have, we will hold, we have nailed our colors to the mast, Canada shall remain Canadian; and Canada has prospered, is prospering and in a better position today, notwithstanding the drawbacks of the great war, and its aftermath of unrest; than any other portion of the Great Empire of which we are part. There is no necessity for us, to lower our standard, Canada is quite capable of managing her own affairs. We can still have the friendliest feeling towards our American neighbors, many of them are our own Kith and Kin. Peace we have, and peace we desire. May frowning guns never be placed along our boundary lines. We will not love them the less, but we will love Canada more, and the flag that waves over us; just as Americans love their land, the best, and the star spangled banner, which floats above them.
