From this it will be seen that the Provincial Premiers are endeavoring to secure from the Federal Treasury additional subsidies to reimburse them for the recklessness and extravagance of years of Grit rule. Should this proposition of the Premiers be adopted, the western provinces will be the principal gainers; while the Maritime Provinces will not profit to any great extent. Prince Edward Island, as will be seen, stands to lose instead of gain. Her per capita subsidy now is \$87,262, while the proposed subsidy will be only \$82,607. But a proposition is put forward to make good this shortage in the per capita subsidy by distributing the Fishery Award to the Maritime Provinces, instead of continuing to thereof in the shape of fishery bounty. Should this come to pass, to our fishermen to discover that they are to be deprived of their bounty, in order that those responsible for the maladministration and mismanagement of our Provincial finances may be afforded an opportunity of making an attempt to save themselves. shall see what we shall see.

A disasterous collision occurred or

two passenger trains. The wreck oc curred near Vailsbury, Arizona, Wed-nesday last. The cause which was difficult to obtain is not known. It appears that both trains were running full speed, and came together with terrific force. The engines and cars piled up, in a mess and immediately took fire from the exploding oil tanks cated to the cars eleven of which were consumed. As soon as the news reached Tuscon a relief train was sent to the scene. The train returned bringing seventeen wounded.

AGAINST REDUCTION OF REPRE-SENTATION. Ottawa despatch of the 29th,

nlt, says the Prince Edward Island re-presentatives waited on the Dominion Government on the 28th and put in neir claim against the reduction in parliamentary representation in the provinces. They contend that under the act by which they entered confederation it was not entailed that the representation should be less than six members. They held that they were wrongly deprived of a member when the number was reduced after the centre of the conthe number was reduced after the cen-sus of 1901 to 5, and that it would be adding to the wrong to reduce the number now to four. If it can be shown that the Island under the act of it will have to get six. It is not a question as to whether it shall be five or four but whether it shall be six oraccording to the unit of population which fixed for all provinces according to the population of Quebec.
