 The Reliable Jewellers and Opticians.

The Evening Chit-Chat
 By RUTH CAMERON

A few days ago a young girl came to me to tell me that in the course of a five minutes' walk through a park in this city she had been insulted by seven men. She said she thought she had been in very bad luck. Her conditions were disgraceful and that I ought to write something about it.

Since then I have talked the matter over with five of my women friends and acquaintances who know this park. None of them has ever been accosted more than once or twice in all her experience with the place.

Three of them cross it daily on their way to work, returning after night-fall in the winter, and the others have occasion to pass that way very frequently.

One girl all last winter was obliged to pass through the park three nights a week at ten o'clock when returning from some evening work. Incidentally two of these girls are very pretty and the others at least attractive looking.

How do I account for this discrepancy in stories? Do I think the first girl was lying? Not at all.
 My explanation is just this: Ex-

Afraid of Ghosts
 Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terror it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or faint spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients are printed on its outside wrapper. It is not a secret nostrum, but a medicine of open secrets.

Be sure you get a record of 20 cents of credit. Accept no substitute—there is nothing "just as good." Ask your neighbors.

Fads and Fashions.
 Striped effects are used on hats. Very new is the butterfly parasol. Paris says voile for summer frocks. Foulard waists are again in vogue. King's blue is a very popular shade.

Military effects are very prominent in bags.

All ages from 15 years wear hair ornaments.

Skirts are less severe, but they are still narrow.

The reign of Venice lace has certainly begun.

Afternoon gowns show a decided use of chamois.

Tailored waists, those with cuffs, all have long sleeves.

Flowers are being lavishly used on dance dresses for girls.

Cluny lace is being much used on lingerie gowns and in neckwear.

All-over embroidery is very effective when combined with plain pongee.

A natural pongee has dots of blue with rims of brilliant, parrot green.

Whole white high shoes will increase in favor as summer approaches.

Under many of the transparent waists colored volles are seen as linings.

Plain pumps of black velvet, with flat silk bow and Cuban heels are worn.

All-over tucking and embroidery are favored materials for handsome lingerie waists.

Very large are some of the newest handbags. They are square, pointed or irregular.

Prinkes are seen on many of the new lingerie gowns as girldle and tunic trimming.

A good deal of heavy embroidery and Irish crochet lace appear on the new waists.

The red, white and blue of the Revolution will be worn singly and in combination.

Shorter sleeves are looked for in

Indigestion & Dyspepsia
 In all its Forms can be Cured.
 It is quite a daily occurrence to hear persons say: Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything. I have no heart to exert myself and at times I care for nothing. I often have a pain in the pit of my stomach, no appetite, my heart beats rapidly or the slightest exertion I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden.

Now, it seems a shame and a pity for persons to be suffering like that when in their power to get cured by taking a Bottle of Dr. Stafford's Prescription. A sure cure for persons afflicted with stomach troubles. It can be obtained at:

DR. F. STAFFORD & SON,
 Duckworth Street and Theatre Hill.
 Small size, 25 cents; postage, 5c extra; large size, 50 cents; postage, 10c extra. Mail orders must be accompanied by remittance—oct29,11m

Be Proud Then why rest contented with thin, scraggy, rough hair? **Ayer's Hair Vigor** gives softness and richness to the hair, makes it thicker, heavier. Cannot change the color. Safe to use? Ask your own doctor. J. C. Ayer & Co., Lowell, Mass.

Tallest Building Yet.
 Plans Filed for Fifty-Five Story Structure, 750 Feet High, in New York—The Cost Will Be \$3,500,000.

New York, April 26.—E. W. Woolworth filed yesterday through Cass Gilbert, the architect, revised plans for what will be the tallest structure in the world, occupying the block front in the west side of Broadway, between Park Place and Barclay Street, on an irregular plot 452.1 feet front, with a depth of from 107.10 feet to 129.2. The property was assembled during the last few months from various owners by the Broadway Park Place Company, of which Mr. Woolworth is president.

When completed the structure will be 750 feet in height, from the curb to the apex of the tower. The main building will be 30 stories high, but from the centre of the building a tower, with twenty-five floors, will rise, making a total of fifty-five stories. The cost is estimated by the architect at \$3,500,000.

In design the building will be a combination of Italian, French and modern Renaissance. The tower will be ornamented with a massive lantern, which will be lighted by electricity, visible for many miles. On the ground floors will be stores and the second floor will be given over to banking offices, while the remaining floors will be divided into offices.

The building will be equipped with sixteen elevators, six running to the thirtieth floor, six to the forty-first floor and four to the fifty-first floor. The main building will be 384 feet high, and the tower 365 feet high.

Some months ago plans for a building to be erected on this site were filed, calling for a structure 701 feet high, but subsequently additional property was acquired and the taller building was decided on. The Irving National Exchange Bank will occupy quarters in the new building, and E. W. Woolworth & Co. will utilize several of the upper floors for executive offices.

The tallest building in the city at the present time is the Metropolitan Tower, at No. 1 Madison avenue. The structure rises to a height of 700 feet and 3 inches and has fifty floors. Next in height is the Singer Tower, in lower Broadway, with forty-one stories and a height of 612 feet and 1 inch.

Dr. de Van's Female Pills
 A reliable French regulator for women. The pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at \$5 a box, or three for \$15. Mailed to any address. The Retail Drug Co., St. Catharines, Ont.

Huge Contract for British Firms
 LONDON, April 24.—Contracts representing \$20,000,000 in value have just been signed by the Argentine Minister in London with British firms for the extension of the water-works at Buenos Ayres. Messrs. J. Simpson and Co., Limited, of Queen Victoria Street, London, have secured the order for supplying and installing pumping engines of large capacity; the contract price is \$2,180,000. The carrying out of a great tunneling scheme has been entrusted to a Staffordshire firm, and large quantities of constructional ironwork have been ordered from Scottish firms. The contract will take about two years to complete.

Topsfield, Mass., April 24.—Trapped in the centre of a forest fire in Boxford, near here, Frank Simmons, Jr., aged 15, of Boxford, and Albert Morgan of Beverly, were burned to death to-day. Their bodies were recovered later burned beyond recognition. Two other boys, Frank Simmons, father of the dead boy and William Simmons, a brother, were also trapped by the fire but broke through and escaped, although both are so seriously burned that they may not recover.

A brush fire started by George Frame, a farmer, living on the outskirts of the town got beyond his control and started the conflagration and before the blaze was finally controlled more than 100 acres, much of it valuable timber lands was burned over. Frame's nearest neighbor, Frank Simmons, with his two sons and Albert Morgan of Beverly, helped to fight the fire and seemed to be getting the better of it, until, unnoticed by them, the blaze crept around and surrounded all but Frame.

W. B. CORSETS
 [World's Best.]
 ONCE USED,—ALWAYS USED.
 There is no Better Criterion than this.
 "W. B." Corsets are World Famous.
 Any Lady who is not at present acquainted with "W. B." CORSETS, will be well advised, to make her next purchase of Corsets a pair of "W. B.'s."
