Admission, 5 cents.

The Ingredients of Cakes.

These are—flour, butter, sugar and eggs, with perhaps milk, flavouring and fruit, and to make good cakes you must have sound and wholesome ingredients.

Those who bake at home can make sure of these, and also of cleanliness throughout. After that, to bake at home with success you must have a good raising powder. The sure raising powder is "PAISLEY FLOUR." It is mixed 1 part to 8 parts of ordinary flour, as a rule. It does the work of raising with certainty, and gives well and evenly raised light and digestible bakings.

The 22c. tin contains 14 ozs. and will raise half a stone of flour; the 14c. tin contains 7 ozs. and will raise 3 1/2 lbs. of flour; the 5c. tin contains 2 ozs. and will raise 1 lb. of flour.

AT THE END OF THE DAY

When the good wife takes the sewing, the children their lessons, and the head of the house his paper, a good light is necessary to complete the happiness.

Texaco by its clear, bright, mel-
low light will make all happy and contented.

CEO. M. BARR, AGENT.

HAM AND EGGS!
