### THE ART OF CHEWING.

Your whole system depends for its  
health and strength on the stomach.  
The stomach, in turn, depends on the  
teeth. The very foundation of health  
is therefore laid at the first step in  
food conversion—the act of chewing.  
Food improperly chewed enters the  
stomach in a wrong condition, and it  
brings about a wrong fermentation  
which causes first indigestion, then  
kindred ailments. The proper chew-  
ing of the food will prevent these  
things. Chew your food plentifully.
