n for the large number

Dealing now with the more active side of the Society's work, we are pleased to again be able to congratulate the body upon the large in flux of new members during the year. Fifty-four names were added to our roll, which is very gratifying, especially in view of the fact that a good many of the new members are ex-pupils of the schools overhead, who by joining our ranks, practically onstrate their appreciation of the penefits derived from the training of

production of the Opera "Chimes of Normandy" formed, we feel safe in saying, a standard that it would be difficult for any school to equal. The crowded houses testified to the general appreciation of the wonderfully bring the propellers out of the clever work of the boys, and the So- water-an incident which did not ciety takes a pardonable pride in every new success attained by the pupils of our schools.

To the Literary and Amusement Committee must be attributed a great measure of our financial success. As a result of their efforts, the clubrooms have been kept in excellent condition and at the same time, the all its liabilities, which, after the considerable alterations and improvewhich could only be brought about by had been assigned to them.

The Dramatic section of the Com mittee has in no little way contributed to this financial success by the production of "My Irish Rose" on S Patrick's Day. We again bear tribute bers of the Society, particularly to sure tell your friends about it. to whom we are again indebted in connection with the recent per

The Grand Drawing, which after nany necessary delays, was finally the funds of the Committee. The It concerned his early days when lemen of the Committee who were responsible for the successful one of the biggest of its kind in the result of this drawing, as the enormous amount of work necessary in such undertakings, could only be satisfactorily carried through by strict attention to detail.

We also desire to sincerely thank the gentlemen who so kindly acted as Judges on the night of the drawing, viz. his Honor Mayor Cook, Hon. John Anderson, Andrew Carnell, W. R. Neal, Joseph Long, and George three years for twenty dollars a Hunt, also the kind Brothers of Mt. Cashel and their boys for the very and now I'm owner of it." great assistance given in getting the tickets ready.

A very large measure of success which attended the work of the Literary and Amusement Committee during the past year must be attribut ed to the Ladies' Auxiliary. The many entertainments promoted by the ladies have always stood out as being most successful, and it is all the more pleasing to find that in addition to the social success, the ladies have so managed these various events, as to be able to hand over to the Literary and Amusement Committee a mos

substantial sum for this year's work. We are glad to be able to again compliment the Society upon the access which has followed its Athletic representatives. Our Football team for the third season in succession has won the Championship of the Newfoundland Football League, thus securing permanently the Football Cup to decorate the Society's Club Rooms. Our Baseball team carried off the trophy at Mount Cashel. Both these teams, together with our other athletes and the representatives of the competing teams, were as usual given a dinner in the rooms, where a very pleasant evening was spent by

During the year, affairs in the land of our fathers have developed rapidly. The legislative creation of the Irish Free State has marked the suc cess of the efforts of those, who for years, have tolled on behalf of the cause of Ireland, and whilst at the ent, there are apparent temporary difficulties to be overcome, can all look forward with confider to the hope, that in the course of very short while the Old Land will? united throughout its length and breadth in the common object of orking out its own destiny in

That such an object may be ckly realized, is naturally the nest prayer of all sons of Ireland

#### Height of Ocean Waves SOME ATTAIN TO NINETY FEET

by an officer of the White Star lines high seas which that vessel encounbound. Several of his colleagues, he says endeavored to estimate the height of the waves from the bridge yessel. The bridge is 90 feet above on the foremast about 20 or 30 fee higher. The waves appeared to ris occur—a modest estimate of the height of the waves would be between 80 and 90 feet. Such rollers would undoubtedly be entitled to rank among the "mountains high" variety
