It is understood that the Hon. Alexander Morris will succeed Judge Johnson as Lieutenant-Governor of Manitoba, so soon as the vote of the former can be dispensed with in the House of Commons.

Mr. O'Coonor, member for Essex, is again spoken of as likely to enter the cabinet this time as the successor of Mr. Morris

cabinet this time as the successor.

Morris.

All doubt as to the fact of Sir John A.
Macdonald appearing at Washington in
the character of a Canadian Commissioner, which has been so often denied by his
organs, is set at rest by the appearance
in the Dominion public accounts of a sum
of over \$2,000 paid to Sir John under the
head of "expenses."

RECEDING OF THE WATERS.—We learn to-day from a good source that the waters of the Burlington Bay have receded from the south side of the Bay, and are lower than they were ever known to have been before. Places where the water was six feet in depth this time last year, are now dry, and inlets have entirely disappeared, so that land now may be followed out as far as fifty yards beyond its boundaries last season. Near the Old Factory there has been a decided change in the face of the waters along the shore. The old sand-bar down there has now come to the top, and can be walked across. The state of sffairs may be more easily understood when we say that the old "bass log," where many a fish has been caught, and which has figured in many a swimming scene, became so high and dry that it has been chopped up and carried away by parties living in that vicinity. The cause for this receding of the water has not been satisfactorily explained.—Hamilton Times.

New Allantic Telegraph.—The Great Factors that the parties in a post of the parties.

not been satisfactorily explained.—Hamilton Times.

New Atlantic Telegraph.—The Great Eastern steamship has just been chartered to lay a new trans-atlantic cable to connect England with New Nork, direct, and is now lying at Sheerness awaiting the completion of the cable. Since the discovery that the great ship was so well adapted for this kind of work, she has proved a perfect mine of wealth to the little band of merchants who about ten years ago purchased her for rather less than the value of so muchold iron. Since 1863 the Great Eastern has been devoted exclusively to sub-manine telegraphy. During that time she has laid in various parts of the world no less than 25,000 miles of deep sea cable, all of which is now in successful operation. In doing this she has traversed the Atlantic, Pacife, Southern and Indian oceans. Among the lines she has laid, may be named the Australian, China, India, and India Extension, and the capital invested in the various lines which she has laid, and assisted in laying, is estimated at \$35,000,000.

Oppression after cating, headache, ner-vous debility, are the effects of indiges-tion. One, or two at most, of Parson's Pargative Pills will give immediate relief.

Parantive Pills will give immediate relief.

BREAKPAST—EFPS'S COCOA — GRATEFUL and COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestionand nutrition, and by a careful application of the fine preperties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately favored beverage which may save us many heavy doctor bills.—Civil S.—ice Gazette. Made simply with beiling water or milk. Each packet is labelled "James Epps & Co., Homospatt': Chemists, London." Also, makers of Epps's Milky Cocoa (Cocoa and Condensed Milk.)
