ey Decides to Lay Bare All the Facts in Regard to Its Fate. Facts in Regard to Its Fate.

New York, Nov. 25.—A special from
Boston says: "Mr. Stanley is so indignant
at the persistent assaults upon him by the
Barttelot and Jameson families that he has
resolved to depart from the course which
he had laid out, and to lay bare the dreadful facts connected with the fate of the
rear guard, demonstrating at the same time
the truth of the only charge which he has
made—that the failure of the rear column
was due to the archiverage of its officers

THE REAR GUARD

and to their violation of his written instructions.

The most recent charges made by Mr. Harry Quintar and said to have occasioned much comment in London, are that Mr. Stanley broke open the seals of Jameson's box, took therefrom his private papers and only gave them up when threatened with a law suit. In reply to this Mr. Stanley shows a letter which he wrote to Francis de Winton, from Cairo, on March 5, 1890, and which has never before been published. It says:

which has never before been published. It says:

On arriving at Banalya, Aug. 17, 1888, I mot. Mr. Bonner, who, told me that lacut. Jameson had gone to Stanley Falls, a seven day; journey. Twelve days later a letter was received from him dated Aug. 12, stating that he was going to Banagla, 500 miles below, on the Congo, Still imagining that he would hurry after us, we tood his box with us up to Oct. 2 On that date, as we were preparing to crosstheriver, to the north bank, in order to lighten the time that the box with us up to Oct. 2 On that date, as we were preparing to crosstheriver, to the north bank, in order to lighten the time that Jameson would not be able to overtake us, I had the box opened and saw it was filled with useful articles, well enough for Africa, yet utterly annit for England; yet, if in accordance with my letter of recall to Jameson, he should make his appearance, everything of value could be returned to him. If he should make his appearance did to the teller in the box, except a package of banding the teller in the box, except a package of cloth, and I asked Mr. Bonny to put his seal on it in my presence.

[The reader will recollect that Jameson's death had or urred on the day when Stanley and Bonney met at Banalya.]

Nearly a year later we were at the south end of Lake Victoria, when we received newpaper clippings mentioning that Major Bartelot had written to Sir Francis de Winton in October, 1887, that he was bound to remain at Zambuya until November, and as Mr. Bonny could give no reason why he and his officers were bound to remain, I opened Jameson's diary, which we had sealed, to find out a same season for anything. I sealed the diaries as before to deliver them to his widow on my arrival in London. All that I have said against Jameson has been in that general censure applied to all the officers of the rear column, but if they have any regard for Jameson's memory, I would advise them not to press me to give my reasons for that censure. At the least they will explode the wholly the said of the

THE SKIN OF MY TEETH.

THE SKIN OF MY TEETH.

It may be interesting to note that this expression, which by many is regarded as vuigar slang, has really the high classical authority of the Bible. It is Job (xir., 20), who exclaims in his anguish, "I am escaped by the skin of my teeth!" We know there are many who use the expression who have no idea of the high authority for its use. Who has not heard of some man or awoman coming through some undertaking, accident or sickness, by the skin of their teeth? Ordinary mortals term this a "close shave." There are times when a man or a woman comes through a distressing illness, and barely escape death. The chances were eltogether against the patient; the doctor held out no hope, and all means of success were exhausted, when Providence scemed to interfere and change the current held out no hope, and all means of success were exhausted, when Providence seemed to interfere and change the current of events. This indeed would be a case of escape from death, by "the skin of the teeth." In many well-known instances that could be cited, have the victims of nervousness, insomnia or sleeplessness, melancholta, dizziness, indigestion and dyspepsia been rescued from death by "the skin of the teeth," through the use of that mighty remedy, Paine's Celery Compound. The sufferers had allowed their troubles and diseases to run so far that their cases were almost hopeless. Indeed, all such cases would have proven hopeless had it not been for that great scientific remedy.

All sufferers run a tremendous risk when they allow any disease to run them completely down. Suffering is avoided, time is gained, money is saved and the hearts of near and dear ones are made glad, if at the first appearance of trouble, Paine's Celery Compound is used. Often, one bottle will restore the alling one to perfect health. Testimonials are coming in every day, willingly sent by thankful men and women who have been restortd to new life, activity and vigor; they testify gladly as to the great merits and curative properties of Paine's Celery Compound, and take care to recommend it to their friends.

Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Eclectric Oil, is ear-ache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are specially subject.
