LONDON AND DISTRICT

Elect 1914 Class Officers.—The class of 1914 of the Western Medical College elected class officers Wednesday as follows: President, A. C. Nixon; vice-president, W. Wright; secretary, Thos. Guilfoyle.

Posties Make Merry.—The members of London Branch, No. 4, Federated Association of Letter-Carriers, held an enjoyable smoker and social evening in their rooms in the Albion Block last night. About 25 were present, and enjoyed themselves playing cards and carpoolball. During the evening sandwiches, cake and coffee were served.

Alleged To Be Insane.—Supposedly becoming suddenly insane in the Brunswick Hotel Thursday afternoon a well-known character about town started to raise a disturbance. It took three men to hold him. P. C. Fowler took him to the police station, where he is being held pending an examination.

Four Star Concert.—The artists composing the Four Star Concert Company, to appear in the Auditorium on Saturday night, are exceptional in skill and ability. Earl Ludlow is a baritone possessing a rich voice. Broadus Farmer is a finished artist, with a masterful technique, and a temperament that breathes soul into his violin. Miss Florence Mackay is a virtuoso on the piano.

AUTO SHOW BRINGS BIG ATTENDANCE AT NIGHT EXHIBITION

Estimated by Dealers That Over \$150,000 Worth of Cars Are Sold.

Wide Variety of Machines Representing Highest Skill of Two Continents.

Thursday night's attendance at the Motor Show was most gratifying to the automobile men. A conservative estimate would place the attendance at 500, while many consider that the 700 mark was reached.

That ladies are also greatly attracted by the automobiles was manifested by the number present.

This morning's attendance was not overly large, and the dealers are little to do except gather in groups and talk over last night's business, which is reported to have been large.

Many Exhibits.
In the various exhibits the fact is proven that the motor dealers of London have conscientiously put their experience and ability to best advantage to place before their patrons a wide variety of cars, both as to prices and features.

Each and every one has proven the best in its price class, and behind each product stands a factory noted for effectiveness and behind each car is a record of service and ability, not only on Canadian highways, but throughout the world.

Each and every one has proven the best in its price class, and behind each product stands a factory noted for effectiveness and behind each car is a record of service and ability, not only on Canadian highways, but throughout the world.

First Showing Ladies' Tailored Hats

BELTZ & CO.

other royal personages, all users of the Knight Motor. Mr. Brown stated that they had taken orders for about ten of these cars for London and vicinity, and that their deliveries had been fully booked up to the 15th of April. He declared that he fully believed that the highest class of car would be appreciated by the people of London, and the fact that Knight Motor cars sell at the same price in the United States as in Canada, effects a saving of from \$1,000 to \$1,500 to the man who would otherwise have purchased an American car of equal class and pay the duty.

The Russell six-cylinder car at \$5,000 and a four-cylinder at \$3,250 on exhibition are most complete indeed, being electric lighted, electric heated, and having the tonneau heated by a most ingenious device from the exterior. There is also an exhibition of car parts and a Knight Motor mounted on a frame, showing the quality of material used, and the machine work done in the construction of these cars. The exhibition is a splendid one, and is enjoying a splendid patronage.

Many outside visitors are showing marked interest in the show, and are placing orders for prompt spring delivery. It is estimated that \$150,000 have been placed in orders during the past three days.

FULL LINE OF SUPPLIES.
The London Engine Supplies Company, with their usual desire to keep up-to-date, have installed equipment for recharging headlights gas tanks. This will overcome the necessity of shipping tanks away to be recharged, as Mr. Fred G. Mitchell, manager of the company, states that his firm will either recharge or exchange any tank.

Many motorists believe that gas headlights are superior to electric headlights, while it is admitted that only the very expensive electric systems can compete in matter of satisfaction. The London Engine Supplies Company also carries a full line of motor accessories, including devices by which it is possible to light the gas headlights by means of electric switches turned on at the dash.

Kelly-Springfield tires, which have earned an enviable reputation all over America, and which have given many local owners evidence of their consistent durability, are also handled by the London Engine Supplies Company.

Patrons of the auto show will find the exhibit of the London Engine Supplies Company near the northeast corner of the Armouries, where a full line of accessories for the motor are being shown. Motorists should visit this exhibit, as they will find articles shown that they did not know could be secured in this city, and which they can secure at prices which equal the lowest quotations of other supply houses.

RUSSELL-KNIGHT CAR.
The Russell-Knight car is on exhibition at this season's show. Heretofore, the Russell-Knight cars' representation in London has been small, but from present indications this condition is an affair of the past.

Western Ontario Motor Sales, Limited, whose head office is in Galt, are distributors in this section of Western Ontario, and have charge of the exhibit. Their president, Mr. H. W. D. Brown, is in charge, and in conversation with The Advertiser stated that the world enjoys the best patronage.

In support of this Mr. Brown produced copies of letters from four of the crowned heads of Europe, as well as

A communication from the Bell Telephone Company asking permission to erect additional poles and lines was referred to No. 1 committee.

Garbage Collection.
The question of garbage collection was laid over in the absence of Mayor Graham, who has a scheme for contracting the collection which it is claimed will only cost from \$1,200 to \$1,300 a year. He believes that this will be more satisfactory than the municipal operation of a garbage collection department.

Ald. Saunders moved that the council initiate the laying of a sewer on Cartwright street, there being some difficulty in getting a petition signed.

The communication of F. Lewis, who broke his leg when he tripped over a hydrant on Princess avenue east, was referred to the water commissioners.

Sewers, properly petitioned for, will be laid on Nelson street, Elbas and Adelaide streets.

Point of Legislation.
The board recommended on Ald. Saunders' motion that the salary of George McKeown be increased to \$850 for the present year, with annual in-

crease of \$100.

increases up to \$1,000, and that he be asked to reconsider his resignation.

The recommendation of City Engineer Brazier that a telephone be installed in the residence of John Tamen, recently appointed foreman of ward five, brought up the question of whether ward foremen are appointed by resolution or bylaw. City Clerk Baker will decide.

Vegetable Growers' Association.
The fact that London is provided with high grade vegetables put up in the best form possible is in part due to the educational campaign carried on by the local Vegetable Growers' Association.

Their next meeting, called for Saturday, March 8, at 1:30, promises to be of more than ordinary importance.

Professor A. H. MacLennan, of the O. A. C. Guelph, will deliver an address on the "Methods of Growing Vegetables," and Mr. B. Leland, of Toronto, will speak on the value of fertilizers.

Mr. P. G. Fuller, a local vegetable authority, will explain his success in forcing rhubarb.

An exhibit of rhubarb, red potatoes, Brussels sprouts and a variety of red apples will be another feature of the meeting.

The meeting is to be held in the county buildings.

GOING TO AFRICA.
[Special to The Advertiser.]
Petrolia, March 7.—Dotty Lambert will leave this week for the west coast

of Africa, where he has accepted a Government position.

Tom Paul has left for Trinidad, where he will be engaged in the oil business for the next year.
