## After Gas Is Gone

"After taking Adlerika, the heavy feeling (gas) in my abdomen is entirely gone, and I get a good night's rest now." (Signed) J. C. Tuttle. Adlerika removes gas in TEN minutes lerika removes gas in TEN minutes and bringe out a surprising amount.

Light Sentence Is and brings out a surprising amount of old waste matter you never thought was in your system. This rnought was in your system. This excellent intestinal evacuant is wonderful for constipation or stomach trouble. Stops that full, bloated feeling. The Standard Drug Co., Ltd.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which discreasing the distressing gas which dislining of the stomach, often leading to gastritis accompanied by serious stomach unders. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart. It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloat right out of the body, sweeten the stomach neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk)—is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—Advt.
