CITY NEWS.

Miss Callard, of this city, is the guest of Miss Ferguson, at Thamesville.

Mrs. Tackaberry, Masonville, is on a visit to friends at Ingersoll for the benefit of her health.

North end grocers have agreed to close their stores at 7:30 o'clock each week evening except Sunday.

Mrs. D. Anderson, Clarence street, left yesterday on a visit to her mother, Mrs. Wm. Currah, of Bright.

Mr. Charles Castle, of Lorne avenue, desires it stated that he is not the person named in a notice published in the Standard of last Monday for debt.

Shier had occasion to go north of Dundas, on Elizabeth street, and seeing no policeman near at hand and fearing no danger, he took the sidewalk. Before he left it, however, an officer had secured his name and address, and promised to present him with a summons for an audience with Magistrate Parks. Shier appeared yesterday morning, and the magistrate allowed him to go with a warning, promising at the same time to punish all future offenders of the bicycle by-law. Wm. Evans, charged with driving at an immoderate rate of speed on Dundas street, was also discharged.

Mr. John McMartin, of Evelyn, was driving to the city in a covered buggy yesterday, his wife accompanying him, when a painful accident befell him. While near the Asylum a Portersburg trolley car came along, frightening the horse so badly that the animal bolted. The buggy was thrown over the side of the road. Mrs. McMartin alighted upon the road. Mrs. McMartin's face bore two deep cuts, one on the forehead and the other over one eye. Dr. Drake was summoned from the city. The injuries were fortunately slight. The buggy was badly broken.

The third of the series of Bible Talks to young women was given by Miss Winnifred Macdonald, of Toronto, in the Young Women's Christian Association, Monday evening. The subject was "The Touch of Christ," and the speaker brought home to her hearers very clearly and forcibly the world's and the individual's need of Christ's touch, and the transfiguring power of that touch upon the lives of the faithful. The talks will be held in the W. Y. C. A. every evening this week, except Wednesday evening, grow nightly in interest and helpfulness.

The regular meeting of the Christian Endeavour Society of the Adelaide Street Baptist Church, held Monday night, was of more than usual interest, the programme including an address on the "Mission of the Christian," by Robert Johnston, and vocal solos by Mrs. Brown and Miss Johnston. Mr. S. A. Woodburne occupied the chair. Mr. Johnston's address regarding missions was very deeply interesting. The speaker taking very hopeful view of the work in foreign fields, despite the many difficulties which appeared to stand in the way.

The Askin Street Methodist Epworth League gave a social evening to their friends, Monday night, and a large number of people were in attendance. Refreshments were served, and a pleasing programme was carried out, including an instrumental by Miss Turner, duet, Misses Curry and Mr. Hubbard; instrumental trio, Miss and the Messrs. Millar; recitation, Mr. Dennis; solo, Miss Gouding; quartet, the Misses Green and Mrs. C. A. Berry. The Epworth League, presided by Bradford Expositor—John Dwyer, the former London man who went crazy as a result of the excitement attending the death of his father, was reminded to Friday. The authorities would not allow him to be recovered. Dwyer is more rational than when first detained. He seems to be recovering from his mania, and will probably be allowed to go in a week or two. His friends do not come for him in the interim.

Early Monday morning an overheated furnace pipe in Robert Diprose's store, 1,406 Queen street west, Toronto, caused a \$200 fire. Mr. Diprose was not home, and a navy had to escape from suffocation. The firemen had to drag them out through the windows. The loss on Mr. Diprose's stock, through smoke, is estimated at \$400. Mr. Diprose was formerly a resident of London and Stratford.

Furniture dealers of the city are in receipt of a circular issued by the principal furniture manufacturers of Canada notifying them of the advance in the price of raw materials, which has been advanced twenty per cent. The cause of this advance, they claim, is due to the scarcity and cost of the raw material. The local dealers in-advance their prices accordingly.

Hamilton Spectator—"Anniversary services were held in St. Paul's Presbyterian Church Sunday. Rev. W. J. Clark was the preacher at both services, which were attended by large congregations. Rev. Mr. Clark's sermons were full of power and deep thought. Rev. Mr. Clark presented many beautiful thoughts on the theme of trust in God."

John Cambridge, of Adelaide street north, has been summoned to appear before Magistrate Parke on a charge of selling liquor without a license. Inspector Henderson is the complainant, and the information was given on the arrest of the crowd of young men in a drunken condition at Cambridge's on Sunday afternoon last.

St. Peter's Episcopal Church at Dorchester Station has recently been greatly improved, and the new services will be held on Sunday, March 12th. Rev. Bishop Baldwin, of this city, is to preach at both services, and special collections will be taken up in aid of the improvement fund.

The Late Mr. Adam Henderson.

Resolution of Condolence by the Niagara Farmers M. F. I. Co.

The following resolution is self-explanatory:—Moved by William Colyer, seconded by Geo. A. Munroe, that we, the directors of the Niagara Farmers' Mutual Fire Insurance Co., resolve that we have suffered a severe loss since we last met in the removal by death of Mr. Adam Henderson, the oldest member of our body, whose place and cord our sincere and heartfelt sorrow at the demise of one whom we all looked up to as a leader, one whom we all loved and regarded with the highest respect and admiration for his good qualities of head and heart, for his friendship as a fellow-citizen and neighbor, and for his integrity and honesty in dealing with public questions, having unbounded confidence that he would never advocate anything that was not for the best interests of the Company. Although we are confident that our loss is his gain, we wish to express our regret, or express our sorrow at his removal, and we long for

"The touch of a vanished hand, For the sound of a voice that is still." We wish at this time to convey to his family our expression of regard and esteem for him, as a friend and co-worker, and our sympathy with them in their bereavement. We are confident that the resolution will be illuminated and framed, and presented to the member of the family now residing on the homestead. Carried by a standing vote.

Counsel for Cordelia Vliet and Sam Parslow were in Ottawa yesterday for the purpose of interviewing the Minister of Justice on behalf of their clients.

AT THE CITY HALL.

LICENSES QUESTION CAUSES SOME DISQUIET

In Municipal Circle—An Effort to Be Made to Upset the Council's Action As the Only Hope of the Temperance Party—Rumor that Petitioners Are Already Signed—The Ice Jam Yields a Little, But All Danger Is Not Passed—Disposition of the Toronto.

The action of the City Council in increasing the number of liquor licenses in the city from 34 to 36 is all the talk in municipal circles. The temperance folk declare they will have no difficulty in upsetting the Council's work, upon legal grounds. Their position is that, proper notice of the business in hand not having been given, the meeting was illegal.

A gentleman identified with the liquor interest says that he understands the petitions necessary to be presented to the License Commissioners before any new license may be granted have already been sufficiently signed. If this is so, the whole question will rest with the Commissioners, unless it can be proved that the Council's action was improper.

One of the gentlemen present at the Council meeting in opposition to any increase in the number of licenses, took a philosophical view of the matter. "Let the temperance people now go to work and secure petitions of the interested residents against the granting of the licenses," he said.

"But if the petitions for the licenses are already sufficiently signed," he said, "that would make little difference. You know many people will sign any petition you bring to them—they will sign petitions for and against."

The ice jam at the Cove Bridge was somewhat relieved yesterday, and the river has fallen considerably. The stream is now four feet below its greatest height, and continues to fall rapidly. A passage has been worn by the water through the centre of the bridge jam, and it is hoped this will break up the obstruction so as to remove all danger. The use of dynamite has been abandoned.

Both jams above the Forks continue to hold together, but should they break and join the main jam the outlook would be serious again. Engineer Chipman, of Toronto, casually inspected the jam at the Cove Bridge, and he is of opinion that a heavy rain now would almost certainly lead to a disastrous flood. Meanwhile much ice is being left along the river banks to rot away unless the river again rises.

City Engineer Graydon is confined to the house. So serious is his condition, he has been ordered to remain in absolute quiet for four or five days at least.

Pay day has again rolled around for the city teachers, and much cash is outward bound at the City Treasurer's office.

The City Council deputation left at 4:30 a. m. yesterday for Toronto in the effort to save the City of London Bill. Rumors from apparently authentic sources received at the City Hall before the deputation left appeared to indicate that the bill was being stalling from behind, and that the City Hospital agreement would be knocked out of the way.

It is likely that the \$10,000 or more which will be required out of this year's taxes will be added to the \$15,000 which the county were to hand over, and the whole be secured by a fresh debenture issue.

NORTH-WEST MISSIONS.

Letter from the Bishop of Mackenzie River.

News from the Arctic Ocean Border—The Region Enlivened by a Thousand Gold Seekers.

The Rev. Canon Richardson received a few days ago the following interesting letter from Right Rev. Dr. Reeve, Bishop of Mackenzie River. His Diocese is the most northerly in North America, and bordering upon the Arctic Ocean:—

St. David's Mission, Fort Simpson, Mackenzie River, N.W.T., Canada, 30th November, 1898.

My Dear Mr. Canon.—There is nothing particularly striking to relate this connection with the work of the past year. The daily round, the common task, has furnished abundant employment, interrupted somewhat by the influx of gold seekers, and a thousand of whom have passed here in their quest for the precious metal.

A few impatient of delay, came whilst snow was still on the ground, and the great majority waited for the opening of navigation. As soon as the icy barriers of winter gave way, even before the river was clear of ice, they began to come, and from that time until towards the end of September scarcely a day passed without some arrivals. Crafts of all descriptions have been used, from a dug-out to a clinker-built schooner, and from a hired bark canoe to a steel steamer. Occupations of all kinds were represented—barristers, lawyers, doctors, soldiers, sailors, schoolmasters, mechanics, agriculturists, tradesmen, and even the gentler sex have not been wanting.

Our solitude has thus been disturbed, but not altogether unpleasantly. I dreaded the influx of the mining element because of the injurious effect it might have upon the Indians; but so far, thank God, my fears appear to have been groundless. There has been no drinking and no rowdiness. Our Sunday and extra services were well attended. Surprise was often expressed at the good behavior of the Indians. Many kind remarks, appreciative of our work, were made; and some said that henceforth they would be more willing than heretofore to aid foreign missions. A number of penny testaments were thankfully accepted, and also some Sankey's songs and solos. So many have put their little into this venture that one feels sorry to think how few will realize their hopes and expectations.

One outcome has been the purchase for the mission, at less than half its

HOW YOU CAN BANISH BILIOUSNESS.

A Sure, Simple and Speedy Method of Cure.

Simply Take Dodd's Dyspepsia Tablets—They Will Do the Rest—They Tone and Regulate the Liver—Perfect in Their Action.

Biliousness destroys the comfort of life. No bilious man or woman can be thoroughly, perfectly comfortable, or happy.

When a man is bilious he knows it, and his friends know it too. There is no necessity to describe the causes, symptoms and miseries of the complaint.

What the patient wants to know is, what will cure him. And that is just what he will find if he will read this short article.

Dodd's Dyspepsia Tablets are just what he needs. They act promptly on the Liver, regulate its action, prevent

value, of a small steamer, to cover the cost of which, and some expenses connected therewith, I am endeavoring to raise \$1,500 (£300). Perhaps some of the C. M. S. will make it a centenary or jubilee offering to the diocese!

As above intimated, there is not much to say about direct mission work. Things have gone on quietly. Day school has been held wherever there are children to be taught. At Herschel Island Mr. and Mrs. Stringer have had forty Eskimo scholars, and a night school was held for the whalers, at which Mr. Young assisted. A very sad affair occurred there—the suicide of the Eskimo interpreter, who had been taught English at one of our missions.

At Fort McPherson the native deacon and catechists have been diligent in their duties, and the work has steadily progressed under the active supervision of Mr. Whitehead. In July I had the pleasure of ordaining and marrying him on the same day.

At Fort Norman, besides attending to pastoral and scholastic duties, Mr. Spendlove has finished the new church sufficiently for service to be held therein, and has greatly improved
