A Vancouver Eye

Another Cannery For Esquimalt

Despite III - Judged Action of Ottawa Construction Goes Forward Immediately.

Pioneer Salmon Preserving Firm to Play Large Part in Indus. trial Expansion.

(From Thursday's Daily.)

It is expected that the new cannery, which is to be erected on Esquimalt harbor by J. H. Todd & Sons, will be ready for occupation about the first of April. The building, 220 feet long by 80 feet wide, will be erected on a site near the entrance to Esquimalt harbor. A ware-house, 150 feet by 50 feet, is also to hot be erected as part of the establishment. drag While their undertaking has now ad-mark

be erected as part of the establishment. While their undertaking has now ad vanced to a state of assurance, in fact buildings operations are to begin this week, such would probably not have been the case, according to Mr. C. F. Todd, had it been foreseen that ignor-ance of local conditions would prevail with the Ottawa government in so fixing the close season as to place Canadian industry in a disadvantageous position, and play into the hands of the Am-erican canners, who will be permitted to continue operations in southern British Co-lumbia waters are perforce shut down, and at the same time will enable these same canners to work off their hold-over stocks now in English warehouses, at augmented rather than speedy clear ance prices. However, as the machin-ery and plant generally had been con-tracted for prior to the decision of the Ottawa authorities, the new industry will be advanced, with that commend-able enterprise which is characteristic of the farm.

will be advanced, with that commendable enterprise which is characteristic of the farm.
The cannery will be located on a spur of the E. & N. railway, and will have to whether it was the government including the plate, trap piles and webbing, will be on hand in time for the season's operations.
St trap sites are controlled by the firm between Sherringham Point and East Sooke. Two of these sites were to be built upon, as owing to their exposed position it is impossible to keep them protected from the ravages of storm and sea. Enough traps will be construct ed to ensure a sufficient supply of fish for the pack.
About 250 men will be employed in connection with this establishment when the transmer course of the Cane.

About 250 men will be employed in connection with this establishment when in full swing, during the fishing season. The traps will be in charge of Captain Charles Matthews. It is intended to have them ready for the first run of spring salmon, for which, when put through what is called the mild cure process, there is a considerable demand in Germany.

The new establishment will be known as the Empire cannery. In addition to the ordinary plant, its equipment will include a number of large scows to facili-tate handling the fish.

speaking at Gainsborough, urged upon his audience the desirability of thinking has audience the desirability of thinking "imperially" without reference to the antiquated conditions of themselves or their country. Everyone should think not of himself but of his country's life, which would be prolonged after he had ceased to exist. He described the Em-pire as a responsibility such as had nev-er been placed on any nation before. For the moment the Empire is a loose bundle

the moment the Empire is a loose bundle of sticks bound together by a sentiment of sympathy, but so sheader that a rough blow might scatter it into its constituent fragments. The British Empire, won by sacrifices, can only be maintained by sacrifices. Those who hated the name of imperialism, as Mr. Campbell-Banner-man had said, were honest in saying there was no need to change the fiscal policy, but such a policy was selfish and shortsighted. If anything should hap-pen which should weaken the ties or if the colonies should map out a course of their own, Great Britain in trade would lose her most promising customers. R.lose her most promising customers. Ru-ferring to the colonial support in the late war, he said that for the first time it made possible an organized union of all the different parts of the British Em-

SHOOTING AT CZAR WAS DELIBERATE

N UNCONFURMED report is in circulation that it has been officially ascertained that the discharge of grape from a saluting gun during the ceremony of the blessing of the waters on January 19, and which imper-illed the lives of the Emperor and members of his family, was a deliberate act of the terrorists, their tool being a private soldier of the saluting battery.

A North Carolina lawyer was trying a case before a jury, being counsel for the prisoner, a man charged with making "mountain dew." The judge was very hard on him, and the jury brought in a verdict of guilty. The lawyer moved for a new trial. The judge denied the motion, and remarked: "The court and the jury think the prisoner a knave and a fool." After a moment's silence, the lawyer an-swered: "The prisoner wishes me to say that he is perfectly satisfied—he has been tried by a court and a jury of his peers."

LEASING FOREIGN ROADS. Albany, Feb. 1.—A bill was introduc-ed in the New York assembly today pro-viding that the lease of a foreign rail-road to a New York state road must be ratified by two-thirds of the stockholders of each corporation at an annual meet-ing for the purpose of electing directors, providing that notice of the approval of such leases shall have been given.
