The Conservatives and Equal Righters of St. Stephen's Ward had a lively time in Dominion Hall—or rather on the stairway thereof—last night, for the E. R's could get no further than the outside of the door where A. Cahooa was placed as a sentry. The true inwardness of the friction is that the Equal Righters was passed. The Chairman in his candidate who does not come out fair and square on the Equal Rights platings with any candidate who does not come out fair and square on the Equal Rights platings with any candidate who does not come out fair and square on the Equal Rights platings with any candidate who does not come out fair and square on the Equal Rights platings with any candidate who does not come out fair and square on the Equal Rights platings with any candidate who does not come out fair and square on the Equal Rights platings with any candidate who does not come out fair and square on the Equal Rights platings with any candidate who does not come out fair and square on the Equal Rights platings with any candidate who does not come out fair and square on the Equal Rights platings with any candidate who does not come out fair and square on the Equal Rights platings with any candidate who does not come out fair and square on the Equal Rights platings with any candidate who does not come out fair and square on the Equal Rights platings with any candidate who does not come out fair and square s embly, wanted to pack the Conservative and thinly attended meeting of St. Mark's.

A thinly attended meeting of St. Mark's Ward Reformers was held at Brockton Hall

any other party.

But the crowd was so dense that this idea could not be carried out. Finally a policeman was sent for to remove the more obstinate E. Ra. from the door and they stepped aside. The door was then opened cautiously and the substantial forms of School Trustee McSpådden and Ald. Graham, followed by two reporters, squeezed through. One by one the straight Conservatives were picked out and admitted through the door. A second obstruction was then met with in another door and by the time this was passed the goats had been separated from the sheep. A good showing of the latter found their way to the inner sanctum.

An Alliance Manifesto.

Seventy-five delegates to the Reform convention were appointed. Mr. E. T. Malone was the chairman.

They Were Also Enthusiastic.

An en husiastic and largely attended meeting of St. Alban's Ward Equal Rights Association was held last night in the Masonic Hall. Rev. Charles Duff presided. Addresses were delivered by the chairman, William Johnston, G. H. Lockie and A. Fraser and delegates to the district council were appointed.

Inwa be adopted.

Ex-Mayor Boswell was called to the chair amid great applause. He proceeded to deal with the Bell faction by saying that he regretted the disturbance which had taken place outside. He regretted that the Equal Rights man had tried to force his way into the meeting of a party with which he is not apparently in accord at all. He had survivounded himself with a number of men who were determined to break up the meeting. He was glad they had been able to come to the room without the unruly element outside.

Robert Dunlop, Secretary St. Stephen's Ward

LC.A:

Dear Sir.,—I regret very much that I will be out of town on Tuesday night and therefore will not be able to accept your invitation to be present at the meeting of the Liberal-Conservatives of St. Stephen's Ward that night. You will see by to-day's papers that the elections are upon us and that thorough organisation must be the order of the day. I have no fear of the result either in Toronto or in the province.

The information I have from all quarters is eminently satisfactory, and I never knew a campaign open more auspiciously. The only possible danger is when Conservatives are so strong that their strength becomes a source of weakness in encouraging a multiplication of candidates and thus dividing their forces. Let the aim of every Conservative be to discourage this. We have a grand leader in W. R. Meredith and a platform that ought to commend itself to every loyal and patriotic man in the province. Stand by your leader and his platform and victory is assured.

Let your policy be to heal any divisions that may have arisen in your ward, close your raiks and give the Conservative party its old-time majority from St. Stephen's Ward. H. E. CLARKE.

Out in the Cold.

Out in the Cold. eches were made during the evening by the newly-elected president, Dr. Orr, President White of the West York L.C.A. and that W. R. Meredith, under the auspices of the Young Men's Liberal Conservative Association, would open the campaign at the Pavilion a week hence. Outside in the adjoining room Ald William Bell, Ald. Bailie and others were preaching Equal Rights doctrines to the other party and ever and anon their applause and sincing and ever and anon their applause and singing could be heard in the Conservatives' room. They closed by singing the "Maple Leaf" and the National Authem.

SOLID IN THE WEST.

for the Reform Nomination.

The fight in Reform circles is beginning to thicken. Public School Trustee George Mc-Murrich has signified his willingness to carry the banner of the Liberal party to defeat or victory. Mr. McMurrich is the recently elected president of the St. George's Ward Reform Association, and carries with him to the city convention the suffrages of 25 out of the 42 delegates from the ward.

It is claimed by his friends that 80 per cent. of the delegates from St. Andrew's Ward are solid for him as first where and Arthur Mowat as second.

of the delegates from St. Andrew's Ward are solid for him as first thoice and Arthur Mowat as second, and in fact that this ticket will eceive the almost undivided support of the West End Reformers. The two other vonlinent names mentioned are Preston and fair. Preston expects a general support, but against this it is argued that he is practically an interloper, having been in Toronto as a resident scarcely a year. As for Tait is spring a state of the North End will press his claims, but against him is arraigned, it is vaid, the entire ilgonor vote of the city. This is doubly emp, asised by the fact that there is a brother of one of the candidates a license commissioner and it would be contrary to human nature if the hotel-keeper would separate is a brother of one of the candidates a license commissioner and it would be contrary to human nature if the hotel-keeper would separate is a brother of one of the candidates a license commissioner and it would be contrary to human mature if the hotel-keeper would separate is a brother of one of the candidates a license commissioner and it would be contrary to human mature if the hotel-keeper would separate is a brother of one of the candidates a license commissioner and it would be contrary to human mature if the hotel-keeper would separate is a brother of one of the candidates a license for the Local House will be brought on the ground that he is a native-hour Canadian, a staunch Liberal from way occk, and one whose services deserve some recognition.

Martha McLean and Nathaniel Hutchinson by the Young Man's Friends.

At the Police Court yesterday Mr. St. John appeared on behalf of Martha McLean, the girl who shot Nathaniel Hutchinson and then attempted suicide. Dr. Powell sent a certificate to the court that the wounded man would not be able to attend court for a couple of weeks. The case was adjourned or a week, also the charge against the girl of attempting to commit suicide.

The girl is in no further danger and yesterday was removed from the hospital to the jail.

Hutchinson's condition was somewhat improved last night.

Last night a couple of friends of the injured man called at The World office and made a lengthy statement on his behalf. They gave their names but would not consent to their being used. They allege! that Hutchinson instead of being the seducer was the scuced; that he had never promised to mairry the girl; that she did not bear a good reputation; that she was 25 and he but 21, and lastly, they desired the public to suspend judgment as fo Hutchinson's guilt until the case was fully investigated.

It is wonderful how the trade in this great maker's hats is growing in this city. A few censes, as many have testified who have tried it.

At the Opera. It is wonderful how the trade in this great maker's hats is growing in this city. A few years ago the name of Dunlap was only known to the trade in American cities, but after the appointment of the Messrs. Dineen as their agents, with their large connections and distributing power, their hats now find their way to all parts of the Dominion. They only make in high standard qualities. They recommend themselves. When you wear one you become satisfied of its quality, and it is very difficult to get the wearer to change off to any other maker. That is why the trade increases. The shapes this season are very neat and whoever buys a silk or felt hat of the Dunlap make gets the correct style. For sale in Canada only at Dineen's, corner King and Yonge-streets.

THEY WERE ALL OF ONE MIND MR. BLAKE'S MOTION ADOPTED Hereafter Questions that Puzzle the Exe-

OTTAWA, April 29.—On motion that the House go into Committee of Supply Mr Blake in amendment moved this resolution of which he had given notice:

"That it is expedient to provide means whereby, on solemn occasions touching the exercise of the power of disallowance or of The "conditionals" are: H. B. Clarke, Elizabeth Davis, M. P. Doberty, James Lennox, Dissette & Nic'olas, Emaney & Mallett, Rodney Vernon, Joun Kelz, James Mannell, Frank McGarry, Michael J. O'Comor.

whereby, on solemn occasions touching the exercise of the power of disallowance or of the appelate power as to educational legislation, important questions of law or fact, may be referred by the executive to a high judicial tribuna for hearing and consideration in such mode that the authorities and parties interested may be represented and that a reasoned opinion may be obtained for the information of the executive."

In support and explanation Mr. Blake said recent events had shown the necessity for such a reference as he here provided for. The administration were now forced to come to judicial determinations on such subjects, but it could not be prevented that in times of race and religious strife whatever decision they came to should be suspected to have been arrived at to allay popular feeling rather chan be accepted as an impartial decision. He did not bring this forward in any spirit of hostility to the Government, for it would be in the interest of the Government that such a course as he outlined should be adopted.

Sir John Macdonald complimented Mr. Blake upon the careful consideration of the matter manifested in the motion and in his speech in support, and announced that the resolution met with his entire approval. The decisions called for would not necessarily be binding, but rather for the information of the Government, and thus there was implied no interference with the principle of responsible government.

The amendment was then adopted unani-
