Any are arranging to take two or three horse through. effort to rid the town of these unclean open drains will be commended by the ratepayers. -This is anniversary week at Acadia University, and Wolfville is thronged with visitors including many from Bridgetown and vicinity. Our Idle Lands. (North Sydney Herald.) A person cannot travel through any of the -Mr. Robt. Mills, Jr., of Granville Ferry, purchased a splendid Wilkes road mare from Mr. James McIntosh, of the American House, four counties of this island without coming to the conclusion that the farming industry Kentville, last week. is declining. Why is this? The answer -Messrs. Horace Bishop, Frank Bath and John Bath spent most of last week on an en-joyable and successful fishing trip at the headwaters of the Liverpool river. the fact that the average farmer's son will not stay on the farm. He prefers taking himself to the towns and clties rather than working the farm his parents have cleared -Mr. J. G. H. Parker will lecture before the Y. M. C. A. to-morrow evening on the "Foundation of our Civil Liberty." The lecture will no doubt attract a large audience. and raised enough on to keep a large family. Some claim that the education furnished farmers' sons in the schools is of a character that has a tendency to alienate the boys from farm life, and as a result a number of our young men seek other vocations than that-form on the farm. As we look over that found on the farm. As we look over the learned professions we find them quite overcrowded, but the boys who remain on the farm always belong to the class of which can be said "more wanted." The inclina-

-Horses, cows, farming implements, etc., are offered for sale at auction by H. S. ones. See adv. -Six large salmon, weighing nearly thirty pounds each, were placed on sale in Piggott's market yesterday. They were taken in the Margeson wier at Port George. -The Y. M. C. A. Intend having out-door sports in the Driving Park this summer, to consist of lawn tennis, cricket and base ball, jumping, valiting, pointing shot, etc. There will also be races for the Y. M. C. A. bicyo-lists. The band will be in attendance one night each week. Promenade and Band Concerts are also on the programme for the summer. summer. —The policemen who were injured on the S. S. Prince Edward at Digby on May 24th have retained Recorder Skinner, of St. John, to bring suite for damages against the Domin-ion Atlantic Railway Co. Thos. Ogler, the St. John fireman, who was more seriously injured than any of the policemen, having the knee cap fractured, will also bring a suit against the company.—Spectator. The Term Convolid here not never and mmer. -The Town Council has not yet arrange with the D. A. R. for the extension of th with the D. A. K. for the extension of the Bluenose express privileges to Bridgetown. The railway company is not satisfied with the town's offer and has made a second pro-position, which is even harder for the Council to meet than the first one. As matters stand at present, it looks as if the Bluenose would pass us by this summer as heretofore.

tion of a vast majority of men lead them to seek positions where the least amount of toil is exacted, or where tinseled toggery have full sway. Our young men seem to think the the drudgery connected with the think that the drudgery connected with the

think that the drudgery connected with the farm, as it existed half a century ago, is still in existence, forgetting that labor-saving machinery has been applied most extensive-ly, by which the farmer of the present day can carry on the work on the farm with as

can carry on the work on the farm with as little or less toil than that of the blacksmith or carpenter. It is a fact which cannot be auccessfully contradicted that the boy or boys of the farm who give promise of the brightest parts, is or are selected for some profession, while the less beiligant one is of

brightest parts, is or are selected for some profession, while the less brilliant one is of-ten kept from school and assigned a place on the farm, thus degrading that occupation. We want the fact set forth in the curriculum of our schools, and taught in them, that the benest farmer computer a leave that the

honest farmer occupies no second place when standing beside his fellows who may occupy some official position in the affairs of state. In looking over existing conditions we find colleges in every province where special pro-relations of the standing of the transition of the standing o

vision is made for the teaching of law, med-icine, etc., but seldom do we find equal pro-vision made for the teaching of the various branches of husbandry. This is not right. While not objecting to ample provision being made for the teaching required for the differmade for the teaching required for the differ

made for the teaching required for the differ-ent professions, which are nearly all over-crowded, still we do find fault with the want of an energetic policy regarding the correct training along agricultural lines of those who are to till the soil. Much has already who are to till the soil. Much has already

who are to till the soil. Much has already been accompliabed throughout Canada by the timely aid of the Dominion and local governments; still more should be done to encourage the cultivation of the soil and for the encouragement of our people to follow farming as a calling. There are hundreds of thousands of acres of good farm land in Cape

thousands of acres of good farm land in Cape Breton lying idle to-day. Indeed, our very best lands are uncultivated. Our govern-ments should devise some policy, or grant some concessions to our people, to bring about the cultivation of good farm lands now lying practically idle. Let our government give more attention and encouragement to the farming industry

and encouragement to the farming industry

and encouragement to the farming industry of our country. Concessions in the way of bonuses and bountics have been given to manufacturing, shipping and other indus-tries, and why should not farming be assist-
