

so there is no fire of human passion that cannot be put out by those healing streams that issue from the fountain of life. But let it be remembered that the glorious manifestations of saving power are wrought through human agencies. Although you have been fulfilling a great and glorious mission, I am not satisfied that you should confine yourselves to this continent. Most of the Missionary enterprises have been directed to the islands of the sea, but the grand work of the Church remains to be done. All the great continents, where are the strongholds of Satan, are yet to be possessed. You are doing a great work in removing the reproach resting on the Church, in laboring on this continent. While doing this I would like you to have one or two *bona fide* foreign Missions. Would it not be a nice thing to have a Mission, say in the south of Italy? I trust that this hint will leaven in some of your hearts. It is said that it takes ten years for an idea to germinate. At first people will "pooh, pooh" it; then they will put on their spectacles to see if there is anything in it; and finally they take hold of it. I think it would help you in your domestic Missions, and in your

whole work, to have some foreign missions. Until you do that, do your best for the Missions you now have. Make this the best meeting you have ever had. Go up to the mount—not of Ebal, the mount of cursing and bitterness, but to mount Tabor, where the face of the Saviour shines forth with glorious radiance on the disciples; and though you may fear as you enter into the cloud, you will see all the kingdoms of the world through it, with the magnitude of the destiny of the soul and the divine human Master straitened because he was not put to death for the salvation of our race. In imitation of His example give your life and your substance for Him. Then let this be your motto: "For Zion's sake will I not hold my peace, and for Jerusalem's sake will I not rest until the righteousness thereof go forth as brightness, and the salvation thereof as a lamp that burneth."

The resolution was unanimously carried; after which the collection was taken up.

A vote of thanks was then given to the Chairman; after which the benediction was pronounced by the Rev. Samuel Rose, of Toronto.

Collections at these Services, \$126 10.

INDIAN MISSIONS.

LAKE OF THE TWO MOUNTAINS—MONTREAL DISTRICT.

SOME uneasiness has been felt by this band of Iroquois, from a proposition being made to them to remove to some other locality, and give up the Reserve which they have occupied for so long a period of time. Upon making enquiries into this subject we are much gratified to learn that unless they are willing and desirous of removing there is sufficient sympathy with them to protect them from any oppression resulting from an attempt to dislodge them from their homes, and send them into an uncultivated wilderness. Any one who is acquainted with the Indians of Canada knows very well, notwithstanding their roving tendencies to hunt and fish for their subsistence, no race of people are more ardently attached to the places where are congregated the living and the dead. Even in some instances where the philanthropist and the politician have both agreed that to remove from a certain locality would be unquestionably beneficial to their
