MR. CHARLES RAHN, SURGEON DENTIST,

BEGS to acquaint his numerous friends, and the public generally, that he has just returned from New York, where he has been spending some time with Professor John Allen, of the College of Dental Surgeons, Cincinnati, from whom he has been acquiring a knowledge of the late great improvement in Dentistry, viz: that of uniting single teeth to each other and to the plate upon which they are set, by means of a fusible silicious cement, which is flowed in and around the base of the teeth upon the plate in such a manner, as to form a continuous artificial gum. By this method the cavities between the teeth, which are unavoidable in the old style, are completely filled up leaving no chance for secretions of any kind, and giving a perfectly natural and life-like appearance to the gum and teeth. Specimens may be seen at his Office, on the corner of Bay and Melinda Streets. Office Hours from 9 a. m. to 6 p. m.

Terms—Cash—without exception. This important improvement has been patented by Dr. Allen, in the United States, and steps have been taken to procure Patents in England and France. Dr. A. has authorized Mr. Rahn to give instructions in this beautiful art to educated gentlemen in the profession, on moderate terms. N.B.—Mr. R. offers a friendly challenge to all the Dentists of British North America to compete with him at the approaching Provincial Exhibition, for a Gold Medal, value £12 10s. to be left to the judgment of the Professors of Toronto University, and of Trinity College. Toronto, Sept. 17, 1852. 1-11

THE LARGE 103 YONGE ST.

The Winter has past, with its frost and its snow, And where is the man who won't say let him go; And Spring has arrived and dressed Nature anew, And Summer, sweet Summer, is nearly in view. The genial showers of the Spring have been shed, And fields live again that were withered and dead; And trees that were leafless are bursting their chain, And waving in loveliest verdure again. The birds of our forests that left us so long, Again fill the air with the power of their song, Rejoicing that hoary Giv'n Winter is past, And that Springtime and Summer have found us at last. Now away with the Cloaks and the Furs which you wore Through many a snow storm they mantled you o'er; To wear them just now, with the weather so warm, Would do you no good, but a great deal of harm.

Away with your Bonnets of Dark Velvet Pile, Let them rest on the shelf or the box for a while; Yet something in Straw, if you take my advice, In Devon, or Luton, or Tuscan, or Rice. McDONALD has Bonnets, remarkably low, At sevenpence-halfpenny, or eightpence or so; And Ribbons to trim them at sixpence a yard,— The terms are certainly not very hard.

A large stock of Muslins, selected with taste.— The colours are fast, and the patterns are chaste; And Dress Goods in "Fancies," both figured and plain; With the fine French Baroque, and the printed DeLaine. While he seeks to secure the most recent styles In the fabrics produced in the famed British Isles, Yet a judge may perceive at the very first glance That his Goods have the finish of Grenoble in France.

There are many things more, which one might suppose, They are mentioned below in straightforward prose; The Stock, he may add, is extensive and nice, While the whole has been marked at a moderate price. His direction will still be the same as the former, On Yonge-street, one door from Richmond-street corner While the front of his house, hereafter, shall be Better seen by the signs One Hundred and Three!

THANKFUL FOR PAST FAVOURS, JOHN McDONALD

WOULD invite attention to a very large Stock of SEASONABLE GOODS. Already Received, upwards of

The attention of the Trade is called to the large Stock of Buttons, Points, and Suffs; DeLaines, Muslins, &c. which, with sundry other goods, he will be ready to offer as cheap, and in terms as usual, as any house in the Trade.
