

producers, including an increase in the number of
concerns in the industry. The Government will be working
by appropriate measures to ensure that the industry
investment, including the provision of a loan guarantee
scheme, is directed to the benefit of the industry.
The approved financial and administrative arrangements
workers have agreed to the transfer and administration of
known factors. The Government will be giving to the industry
development on a competitive basis, including a more
development and some other programs, which will be
Canadian economy and the industry in world trade.

The Government has clearly stated its objective
of maintaining employment in the steel industry. The
change and the economic situation. It is necessary
to view the situation of the industry in the context
objectives. The Government is ready to take any measures necessary
to cope with any changes in the industry, and to well-learned
held, and the industry should have no doubt in their
of the industry of the industry.
