

SUPPLEMENT TO "GRANGE BULLETIN."

TORONTO, APRIL, 1884.

NOTE.
Owing to a surplus of matter, we this month issue a Supplement, which increases the regular size of our paper by one quarter.

VEGETABLE SEED LIST FOR 1884.

The seeds we offer are all fresh, are put up by the producers, and will be shipped, freight paid, at prices quoted, when going with other goods amounting to \$10.

As the seed business is confined to a very short time, the pressure of work just at the sowing season is very great; and as each will have to wait their turn we would ask you to send in your orders as early as possible, and so give us a chance to get them filled before the rush. You will find this a convenience to yourselves as well as to us.

You will note that we have given no quotations for Field Seeds, as the market for these is continually changing, and any prices only hold good from one day to another.

When an order is sent in for Timothy, Clover, Seed Grain and such like, with the money accompanying, we will purchase at the best advantage possible; otherwise, all orders of that nature will be handed over to some reliable seedsmen to fill on his own account.
