BUYING IS LIMITED

At such times as the present, when the buying is limited the cautious investor sees his opportunity to pick up mining issues. Just as soon as the demand increases prices will rise, and shares bought now will be available for sale at a profit. Except to hold the price down for the purpose of accumulation, it is very doubtful whether PETERSON LAKE would be offered at 23½. These shares should be bought and held. Consult or write us for information on mining stocks.
