WARSAW'S FATE YET UNCERTAIN ENEMY SILENT

Many Rumors Float About in London in Absence of News.
FIGHT ON BIG SALIENT
Critics Discuss Problem of Whether Russians Will Have to Withdraw.

LONDON, July 19, 11.25 p.m.—Can Warsaw be held? With the German Field Marshals, Von Hindenburg on the north and Von Mackensen on the south, whipping forward the two bands of a great arc around the city, it is realized in England that Grand Duke Nicholas, commander-in-chief of the Russian armies, has the most severe task imposed on him since the outbreak of the European war, and the military writers of some of the London papers seem to think that the task is well-nigh impossible.

Colossal Movement.
There was sustained confidence that Germany's previous attacks along the Eura-Rawka front would never pierce the Russian line, but the present colossal co-ordinate movement was developed with such suddenness and carried so far without meeting serious Russian resistance that more and more the British press is discounting the fall of the Polish capital, and while not giving up all hope of its retention, is pointing out the enormous difficulty the Russian armies have now under from the start by the existence of such a salient.

As was the case on Saturday, when the Austro-Germans recorded the success of their offensive in the east, no official communication from either Berlin or Vienna reached the London newspapers today. Saturday's communication was released Sunday for publication, and up to nearly midnight tonight no new communication has come to hand. In the absence of additional official information from Petrograd, there is nothing to throw fresh light on the eastern front, but the Austro-German advance could hardly so soon have lost its momentum.

GERMANS CHECKED SOUTH OF SONVAUX
Two Heavy Attacks of Enemy Fail on Heights of Meuse.
BIG BOMBARDMENT
Attacks on French Trenches Near Souchez Also Repulsed.

Special Cable to The Toronto World.
LONDON, July 19.—The only important feature of today's operations in France was the repulse of two German attacks which were launched in considerable force against the positions held by the French on the heights of the Meuse this afternoon. The offensive being in the main directed against the ridge held by the French south of Sonvaux. These advances were speedily checked. The enemy then bombarded the French positions and made a series of minor attacks which were repelled without difficulty by the defenders.

Another attack was a violent artillery bombardment took place. Sixty shells were thrown into Arras. The French trenches at St. Georges and the Village and Church of Boesinghe, in Belgium, were also bombarded with considerable violence by the enemy.

By a Staff Reporter.
NIAGARA FALLS, Ont., July 19.—A greasy rail was blamed by Sidney Boyt of Niagara Falls, Ont., motorman of the International Railway car that jumped the track and cost 15 lives at Queenston on the evening of July 7, when he testified at an inquest into the death of Harold J. Brief Note Drafted by President Wilson as Rejoinder to Piracy.

Secretary Lansing Will Not Let Latest Sea Outrage Drop.

WASHINGTON, July 19.—President Wilson and Secretary Lansing prepared today the draft of a note on submarine warfare to be submitted to the cabinet tomorrow and to be sent to Germany probably before the end of the present week.
Beyond the fact that the position already taken by the U. S. in its previous notes will be reiterated, no information was forthcoming at either the White House or state department concerning the probable contents of the new note.

Note Comparatively Brief.
The note, it is understood, will be comparatively brief, expressing the conclusions of this government as a result of Germany's failure to give the assurances asked for in previous notes, namely that the lives of Americans traveling on the high seas, bound on lawful errands abroad unresisting and unarmed merchantmen, be not endangered.

During the course of the operations the Italian commander discovered that a number of Austrian battleships had taken refuge in the harbor.
These, altho not of modern type, would have been able effectively to face the somewhat slow Italian squadron. Hence, the Italian cruisers retired.
