

I Have mentioned in the preceding sheets, (*) that I expected some additional Instances of Dutch ships, which had been in high Northern latitudes ; and which, though I delayed the publication for some weeks, did not arrive time enough to appear with the others. I have however since received them from Professor ALLAMAND of Leyden, F. R. S. by means of Mr. VALLTRAVERS, F. R. S. &c. &c. and take the earliest opportunity to lay them before the public as a valuable addition to the former papers.

DAINES BARRINGTON.
