MCCOWAN—HERON—On Thursday, Sept. 14, at the residence of the bride's parents, King's Road, Scarborough, Bula Evelyn, daughter of Mr. and Mrs. Robert McCowan, to John Barton Heron.

DEATHS

CURRIE—On Thursday, Sept. 14, 1911, at St. Paul's, Ontario, J. (Jim) Currie, aged 24 years, son of James Currie and Mary Currie, of London, Ontario.

GRAND WOODS LOSE S. S. BRANCH FACTORIES

A. E. Kemp Points Out How Canadian Workman and Farmer Would Suffer Equally.

If crowded and enthusiastic meetings are indications of the feeling in a riding, and there is no more certain index, the outlook for A. E. Kemp in East Toronto is one to inspire absolute confidence.

Mr. Kemp's meeting in Prospect Hall on Saturday night brought forth a veritable flood of enthusiasm inasmuch as when every seat was filled, crowds had to be turned away.

Open Sore Baffles Doctors

Morrissy's No. 4 Esomax Ointment Healed Like Magic

Navvignaw, N.M., Oct. 2, 1910. "I can gladly recommend dear Dr. Morrissy's Esomax Ointment because it cured me of a sore which I had on my ear for over eight years. I did everything to have it cured, and had the most skillful doctors treating it, but it would not heal up. I went under treatment with Father Morrissy's Ointment and in a short while it was cured. That was three years ago, and I am sure the cure is permanent. When I think how quickly No. 4 Esomax Ointment cured me it seems wonderful indeed, because you know I doctored with several skilled physicians who could not help me. You surely must have a big demand for this wonderful salve. My only regret is that I did not use it at first, as it would have saved me over eight years of pain, and perhaps of an amputated ear and an expensive doctor bill." John Ryan.

The above prescription is not a "cure-all" or so-called patent medicine. Dr. Morrissy prescribed it for 44 years, and it cured thousands after the same manner. Price, 50c per box at your dealer's, or Father Morrissy Medicine Co., Limited, Montreal.

one asking if there were any more lists to come, McComber said the proclamations and lists could not possibly be got out in time. Good-humored Carrick supporters shouted "Horriam must be afraid of getting his feet frozen" a sly dig at reference to the charge of "cold feet" laid against Comtee. Another suggested Horriam trying to reach outlying polls by airship. In answer to a question, "Who fixed the Dexter list?" Carrick said "I don't know." McComber said, "I don't know; I was not consulted."

Other speakers included the veteran politician, Dr. T. S. Smellie, M.L.A., who said he had had work to restrain himself when thinking of the new deal himself in 1873 was accountable for their rise. "Then the Liberal government took fifteen years to get the Conservatives in the still unconvinced voter. The arguments advanced both in favor of and against reciprocity do not seem to be convincing to the Conservatives. I haven't language to express my contempt for the sort of argument that is carried on in this question," he declared.

Being called back to the question Mr. Waldron declared: "The interests have grown up under protection. The national policy of the Conservatives in 1873 was accountable for their rise. Then the Liberal government took fifteen years to get the Conservatives in the still unconvinced voter. The arguments advanced both in favor of and against reciprocity do not seem to be convincing to the Conservatives. I haven't language to express my contempt for the sort of argument that is carried on in this question," he declared.

WALDRON'S RADICALISM MUCH BEYOND HIS PARTY

He Objects to Protection Being Given Canadian Industries—Knighthoods Also Worry Him.

Geordie Waldron, in an address to the electors of West Toronto, Saturday evening, in Browne's Hall, Bloomingdale street, was subjected to several interruptions, but he defined his position on the platform as being that of a radical, and to explain, and any questions were welcome.

Waldron spoke in a deprecatory tone of Sir Edmund Walker's knighthood, and immediately from the body of the hall came the question: "What is your objection to his knighthood?" "Firstly," responded Mr. Waldron, "I do not believe he deserved it. Secondly, I believe he won it by unfair means, and thirdly, I do not believe that there should be any knighthoods in Canada whatever."

"I am a Liberal of the school of Bright, Rogers, Gladstone, Lloyd-George and Asquith. I am a member of the Liberal party, although I must say that I have not favored all of the daily actions of the Liberals."

"Interests" in Canada formed an important part of Mr. Waldron's address. They were clearly aims to the American trusts, he declared. He had been studying them for some time, and now he was standing on the platform working against them.

"What government is responsible for these interests?" demanded a voice from the audience. "I should think that these interests grew up without any government," declared the candidate.

Says Protectionist Greeds Trusts. "You never know anything about the interests in Canada until I spoke about them. You may save your food prices, but you may lose your jobs, if you are man enough to have one, maybe told you that it was caused by the interests."

Being called back to the question Mr. Waldron declared: "The interests have grown up under protection. The national policy of the Conservatives in 1873 was accountable for their rise.
