HAMILTON HAPPENINGS

CHILMAN IS SENTENCED TO ONE YEAR IN JAIL

Justice Teetzel Showed Clemency Because of Petitions in Young Man's Behalf.

HAMILTON, Jan. 26.—(Special.)—One year in Central Prison was the sentence meted out by Justice Teetzel this morning to J. D. Chilman, who was found guilty on January 13, of having received the sum of \$587.24, knowing it to have been stolen from the Canadian Express Company here on Sept. 23, 1911. Chilman's sentence dates from today.

When Justice Teetzel mounted the bench this morning, the courtroom was packed with Hamilton citizens, anxious to learn Chilman's fate. Chilman was placed in the prisoner's dock shortly before court opened, and appeared in a cheerful mood. Immediately after taking his seat, his lordship commenced to deliver his decision on the application made by Geo. Lynch-Staunton, K.C., a week ago for Chilman's discharge, on the ground that the prisoner was not properly convicted and for reserved cases on this and other points.

Mr. Staunton's motions were categorically denied by his lordship before passing sentence. Prisoner Didn't Flinch. Justice Teetzel asked Chilman if he had anything to say to which the prisoner quietly replied: "No, my lord." Mr. Staunton asked that sentence be deferred until an appeal could be taken, but his lordship thought it best to dispose of the case at once and imposed sentence. Chilman received the court's judgment with the same grim countenance he has shown through the proceedings against him, and was not visibly affected by the sentence.

Her Daughter Saved

Stricken With Acute Rheumatism—Recovery Scarcely Expected

Mrs. Dolina J. Lawlor, writing from Oxiow, Sask., says: "I would be lacking in gratitude if I did not write you and let you know of the wonderful good your Dr. Williams' Pink Pills have done for my daughter, Belle Lawlor. Indeed I think I may safely say that they have been the means of saving her life. For many years my home has been in Bruce Mines, Ont. Something about a year ago my son and daughter, then in their sixteenth year, left for the west. When leaving here my daughter was in the best of health, but in the following spring she was stricken with what the doctor said was inflammatory rheumatism in its worst form. After a few weeks she was able to get up, but her limbs were so swollen that she could not dress herself. She continued in this way for some time, and then second attack worse than the first, set in, and my son telegraphed me, as she was very low. While I was getting ready to make the trip of eight hundred miles, I got a second message to come at once, as they feared she could not live. When I reached her I found her even worse than I had expected. She was so weak and emaciated that I would not have known her, and she could only speak in a whisper. Her hands and fingers were all twisted and her limbs swollen to twice their natural size. The doctor had then been attending her for two months, and she seemed steadily growing worse. We did not dare to move her in bed for fear of her heart giving out. She was as pale as a corpse, and her lips and face always cold. We had to fan her continually, and it was ceased even for a little while she would gasp for breath, and no one who saw her thought it possible she could get better. She suffered such pain that I used to go out of the room and put my fingers in my ears to shut out her gasping and moaning. I had known before of Dr. Williams' Pink Pills, and as we could gradually see her sinking I told my son I was going to give her the Pills. He was opposed to my idea for he thought a change in the medicine might prove fatal. However, it was finally decided to give her the Pills. In a week's time she showed some improvement and felt like eating. From that time on she began to gain steadily. Gradually her hands and fingers became straight, the swelling in the limbs went down, and her heart-beats became regular, and the color returned to her face, and soon the cure was complete. She is now as strong and healthy as any girl of her age, and to see her you would never think she had passed through an illness from which none of her friends thought she could recover. You have my sincerest thanks for what Dr. Williams' Pink Pills have done for my daughter, and you may be sure I shall always warmly recommend them."

HAMILTON PICTURES

Sunday World readers in Hamilton will be interested in a series of views taken by a staff photographer in that city.

We begin this week with a number of pictures of the Hamilton Fire Department, including the chief and assistant chief. One fine picture of Chief TenEyck going to a fire was taken at a camera speed of one 1300th part of a second. There is another of the high auto truck which was taken while it was going at full speed. Other pictures quite as interesting will be shown in future issues of The Sunday World.

for a while so that his counsel may readily confer with him.

Railway Board Sitting. The Dominion Railway Commission will hold a session in the city hall here beginning to-morrow morning. Among the matters of interest to Hamilton people to be dealt with by the commission is the shunting of cars by the Grand Trunk Railway on Ferguson-Grand Avenue. At a former session of the commission here the railway company was ordered to abate the nuisance caused by shunting on the thoroughfare, and conditions have, as a result, been to a large extent remedied. Citizens living near the railway yards are still dissatisfied with the shunting arrangements, and to add to the company's difficulties shippers are now complaining about delays to which their goods are subjected by the railway. The company contends that the delays are caused by their shunting operations having been interfered with.

WE TEMERE WITHDRAWN? VOLLEY OF DENIALS

Roman Catholic Prelates With One Accord Brand Story as Mere Canard.

OTTAWA, Jan. 26.—(Can. Press).—"Such a thing has never been heard of here," was the official statement made to the Canadian Press at the papal legate's palace here to-day in regard to the rumored withdrawal of the ne temere decree as applying to Canada. The brief announcement was made by the legate's secretary, Mgr. Stoeni, who himself declined to be interviewed as he is resolutely taking as little part as possible in the discussion over the decree. His secretary, however, gave the assurance that if there was anything in the rumor, it was quite unknown to what is the highest Roman Catholic ecclesiastical authority in Canada.

MONTREAL, Jan. 26.—Speaking thru his secretary, Canon Ray, Archbishop Bruchet this morning issued a very positive denial of the story that was wired out of Montreal last night to the Toronto Mail and Empire to the effect that prominent Roman Catholic clergy and laity in Montreal were starting a movement with a view to persuading the Pope to abolish the ne temere decree in Canada. "It is absolutely and entirely false," was the message which the canon brought to the newspapermen from the head of the Catholic Church in Quebec. "There is not a word of truth in the story. It is a fabrication from beginning to end."

Chorus of Ridicule. Father Donnelly, pastor of St. Anthony's parish, and one of the most prominent Catholic priests in Montreal, also denied the story. "I have heard nothing of any such movement, and were any such move in progress, I would be sure to hear of it," he said. "You can say there is not a word of truth in the story."

In addition to the positive denial made to the story this morning on behalf of Archbishop Bruchet, other Catholic church heads were unanimous in declaring the story to be a fabrication from beginning to end. Rev. Father McShane, St. Patrick's, said it was absurd and foolish. Neither had Father Donnelly of St. Anthony's any faith in the story. In fact, he expressed himself as certain that it was untrue.

UNUSUAL PIANO VALUES.

It is only under special conditions that one can buy a good upright piano at the prices that are being quoted just now by the old firm of Heintzman & Co., Ltd., 193-195-197 Yonge-street. Following the stock-taking they have brought into the ware-rooms a number of upright pianos of well-known makers that have been out on rental, and others, including two or three Grand pianos, that have been out for concert use. These pianos are but slightly used—none the worse for use—and, besides, have been put in first-class condition by Heintzman Company's own workpeople. They are being offered at a large reduction from regular prices and can be bought on easy terms of payment—a small amount down and small amount weekly, monthly or quarterly.

Change in Toronto-Montreal-Ottawa Service.

The Canadian Pacific Railway desires to notify the traveling public that train No. 24, which at present is leaving North Parkdale at 8:15 p. m., West Toronto at 8:30 p. m., will on and after Sunday, January 28, leave Parkdale at 8 p. m. and West Toronto at 8:20 p. m. There will be no change in time of leaving North Toronto.

To Encourage Teachers.

OTTAWA, Jan. 26.—(Can. Press).—Owing to the scarcity of teachers for the rural schools, the county council will present a memorial to the lieutenant-governor in council asking for changes in the educational regulations, which will enable students passing from unapproved schools to take the normal school course without passing the examinations, which are now required of them.

The Extraordinary Buying Power of a \$10 BILL

The a'mighty dollar was never so powerful in the realm of merchandize as it is to-day. The man or firm with the ready cash can buy at stupendous savings if he but awaits the opportunity. That's why we bought an immense quantity of beautiful fabrics from British mills at less than half their regular price, and it's also why you can secure an Overcoat or Suit now at a price that is positively startling.

Overcoat or Suit Made to Measure

\$10

Regularly worth from \$20 to \$30

This offer is so amazing we know that many people will at once exclaim: "It can't be done!" We now want to prove that "It can be done!"

We believe in big sales, we prepare for them, and we make them an unqualified success. It is, therefore, up to you, Mr. Man, to put us to the test. Here is your protection:

We positively guarantee that every garment we make will be made to fit perfectly and be of newest style, and satisfactory in every way.

Our 25 years of business experience in Toronto, with its reputation for honesty and straightforward dealing, stands behind every statement we make. It will pay you over and over again to buy one or two of these suits and overcoats for business purposes. It's the biggest \$10.00 worth you ever heard of. We have a few uncalled-for overcoats and suits which we will clear out at \$9.00, each worth up to \$30.00.

Do You Want a Dress Suit ?

To make this sale even more attractive, we offer to make you a dress suit to your measure for only \$18 (with tuxedo coat for \$15). We will line it throughout with fine quality of silk for \$2 extra. You never heard of such a bargain before, and it will be a long time before you hear of it again.

HOLLINGER HAS TEN MILLIONS

Continued From Page 1.

lowing values at the points out: \$7.20 over width of 13 ft.; \$18.00 over width of 8 ft.; drift upon 100 ft. level averages approximately \$20.00 over width of drift for the distance of 55 ft. driven. No. 3 vein—Exposed 250 ft. upon surface shows average gold value of \$8.50 per ton over average width of 11-1/2 feet. 35 ft. of drifting upon 100 ft. level shows \$4.60 per ton over an average width of 5.2 feet. Valuable increase at Depth. No. 4 vein—Exposed 375 feet upon surface showing average gold contents of \$11.80 per ton, over an average width of 5 feet. Cross-cut at 100 ft. level shows width of 22 feet and average gold value of \$16.00 per ton over full width. 30 feet of drifting at 100 ft. level shows \$22.40 per ton across width of drift. No. 5 vein—Shows an average width of 7 ft., carrying \$12.00 over an exposed length of 85 feet upon surface. Cross-cut upon 100 foot level shows width of 25 feet and gold value of \$7.00 per ton. Besides the above mentioned veins there are 31 veins upon which no development work has been done. These have been exposed at intervals upon the surface and thoroughly sampled.

New Shaft Equipment. Permanent head gear, crusher station, hoisting plant and development plant are being erected at mouth of main shaft. Electrically driven compressor is ready to run the great shaft; machine work to be pushed faster than has been possible up to the present. Total underground work to date, amounting to 200,000 feet. The cost of the mill when completed will be about \$275,000, and it is expected that it will be in operation sometime in April. The crushing capacity of the mill will be about 300 tons per day, with provision in its construction for such increase as may become necessary with the cyanide plant is being constructed for a capacity of 500 tons per day. Financially, the company is in a sound condition. There are 50,000 shares of stock in the treasury, which have an intrinsic value far exceeding all requirements in Strong Position.

By the time milling operations are commenced, the company will be in possession of plant and development work costing approximately \$700,000, and ore reserves amounting to approximately \$10,000,000 gross, both of which items will be clear assets over and above any indebtedness, the treasury reserves being more than ample to offset all losses or other liabilities contracted for the purpose of completing the plant and bringing the mine to a producing state. Mr. Robbins concludes report by stating that the future of the company is positively assured. It is further officially announced that Hollinger directors are providing for the amalgamation of the Hollinger, the Miller-Middleton and the Dixon-Gilles claims, fifteen in all. Details are being worked out. Hollinger shareholders will participate in the new share issue.

MAY EXTEND TERAVALY THRU TO DAVENPORT-ROD.

Eighteen Foot Roadway For St. Clair—New Sidewalk on King, Bay to Yonge.

The Teravaly-street extension was approved of by the board of works yesterday afternoon, but it was recommended that the job at College-street be moved up to Grenville-street, or one block further north. Ald. May made a motion that the city engineer and assessment commissioner be asked to report upon the advisability of further extending this road through to Davenport-road. The motion carried.

W. S. Johnston appeared before the board to protest on behalf of the I. O. O. F. against the proposed extension of Tyrrell-avenue. He claimed it would cut off about one and a half acres of the land belonging to the lodge, and thus interfere with their plans to provide additional buildings in connection with their home. It was decided to refer the matter to the city engineer to make a further report upon the matter.

A delegation from the east end protested against the C.N.O. creating a level crossing at Winchester-street in the Don Valley. The matter will be taken up before the Dominion Railway Commission. A delegation of residents of St. Clair-avenue protested against the plans to create a 24 foot roadway on each side of the car tracks on that street. The board decided that an 15 foot roadway would be adequate, and this recommendation goes on to the council. The city engineer and assessment commissioner will be asked to provide for a sidewalk on the north side of King-street from Bay to Yonge-streets was passed.

TEAM MAKES BREAK FOR BAY, FATALITY RESULTING

Breaking away from the man who was leading them to the railway yards for shipment from Burns & Sheppard's repository, in Simcoe-st., at 8:30 last night, a team of heavy draught horses owned by John McDonald, 708 Davenport-road, bolted and ran for the bay. They made their way from John St. along Adelaide to Simcoe, south to Front, across the York-st. bridge. A number of men gave chase and succeeded in catching one of the horses at the foot of York-st., while the other was found standing between Yonge and Scott-st. on the ice, with one of its hind legs broken. Policemen Daniels (16) was summoned and shot the animal. It is thought that the horse must have slipped on one of the spaces of the ice, as it was unshod, and broken its leg.

HON. DR. REAUME SILENT. Mr. Dr. Reaume would say nothing yesterday regarding the proposed change in his election in North Essex. When asked if he was extended to him, he said: "Oh, I suppose we've got to put up with that sort of thing."

Manned Pumps With Specialists But Then The Beer Did Not Arrive

The average man who can make a beer tap flow for a nickel stood aghast as he heard the troubles of Mine Hotel, John Newton of the Humber Hotel, who appeared before Judge Morson in division court yesterday morning to contest to the last ditch the claim of Mashinter & Co., plumbers, who were taxing him \$72.80 for making one of his beer pumps to flow in June last. Newton's chief kick was coming on the ground that even when much labor had been expended by the tinkers, no beer had flowed, but that he had been compelled to set up a keg on the saw-horse so as not to keep his guests waiting for their flagon of ale. He protested against the time charged on the bill, and said that for all he knew the tinkers had been pounding
