

## Take Care of the Pennies So That the Dollars Can Take Care of You

You lose money because your store system does not show you where every penny comes from and where it goes.

It does not tell you how much money you should have.

It does not protect your money and accounts against mistakes and losses due to thoughtlessness, carelessness or indifference.

A National Cash Register will keep track of every penny you take in or pay out.

You get a correct record of every transaction occurring between your clerks and customers.

All your money and accounts are protected against mistakes and losses.

A National will increase your profits.

Investigation will cost you nothing.
