C. W. Gillett to Melady & Co.:
Corn—The government report acted as a restraint during the morning and when it was issued caused some scattered selling, althout 50m and a neverage condition of 89.2 per cent. differed so little from the report of last month as to furnish very little influence in itself. Figured on a basis of 29 bush, per acre as a par yield, with a condition of 89.2 and 4n acreage of 94,000,000, would suggest a total crop of last year amounted to 2467 million bushels, while the total crop of last year amounted to 2467 million bushels, while the total crop of last year amounted to 2467 million bushels, while the total crop of last year amounted to 2467 million bushels, while the crop of last year from an acreage of 92 million could be larger than this year's yield. I do not be lieve the report will have any appreciable or lasting effect on prices and would buy Dec. and May corn on this or a furtner set back, Oats—The market sold off in sympathy with the easier feeling in corn and the specific for \$60c.

look to see oats recover in the near future.

Wheat—Liverpool cables closed a shade lower, but small receipts in Northwest, where snow and unsettled weather prevailed, helped to make early strength. The government report was regarded by the traders as mildly bearish and a few commission houses sell when it was published. On the break which resulted the principal bull house supported the market and finally took a lot of Dec, wheat. Cash markets were stronger, and from the action of the market today I believe we are going to see higher prices. I think wheat should be bought on every moderate decline.

The attendance during the month was: Registered. Average. Annette 574

Totals 1596 1341 Charles J. Boon complained of his daughter having a severe cold from getting wet in Annette-street School from a leak in the roof. Trustee Wright's query if any provision had been made for the teachers in the event of annexation to the city, was responded to by the chairman in the negative. A committee was appointed to deal with the matter. Trustee Mc-Kim said too much jealousy and bickering had been caused by the field day sports and Trustee Wadsworth thought the field day should be cutout in future, and the \$75 devoted to some other purpose. A discussion over an account of \$57.29 for bunting and ribbon brought out the fat that the sports cost more than \$150. On motion by Trustees Kipping and McKim, it was decided to hoist the flags on all the schools on Trafalgar Day, and that on the afternoon of Friday, Oct 20, one hour be set apart for patriotic exercises. A suggestion by Trustee Fullerton that a telephone be put in Annette-street School for the superintendent, created a warm discussion, and Wright's query if any provision had ent, created a warm discussion, and Trustee McKim gave notice of inten-
