INTERCONTINENTAL MAKES MONEY EARNINGS ARE INCREASING

Surplus for Two Months is \$160,000—C.N.R. Toronto-Ottawa Route.

Ottawa, Oct. 26.—A statement was issued today by the Canadian government in relation to Canadian government railways. It shows that the surplus on the government lines for the past fiscal year, ending June 30 last, was \$56,890; for the two months ending August 31 for the present fiscal year the surplus was \$160,000. The increase of earnings for three and a half months of the present fiscal year over the same time last year was \$53,000.

The eastern section of the National Transcontinental Railway has made its first application to cross another line, and the railway commission has consented, provided certain changes in the grade are made. The line sought to be crossed is the Great Northern of Quebec, otherwise the Canadian Northern, and the point of intersection is at Tawachiche, about 73 miles from the Quebec bridge. Above the crossing it has been agreed to reduce the grade of the Transcontinental from 1.41 to .75; below the crossing the grade will be brought from 1.78 to 1.25.

The route map of the Canadian Northern Railway from Toronto to Ottawa has undergone some modifications since it was first submitted to the Hon. Mr. Dummer. The line is finally surveyed is much nearer the Grand Trunk between Toronto and the Trent River. It then begins to move farther away and at Port Huron runs in a northerly direction, passing south of Rideau Lake to Smith's Falls and Ottawa. The route map will come up for approval on November 1.

DENATURED ALCOHOL.

A. G. Peuchen's Summary of Conditions in U. S. and Canada.

At the meeting of the Society of Chemical Industry on Thursday evening, A. G. Peuchen, president of the Standard Chemical Company, contributed to the discussion on denatured alcohol. A successful campaign, which has been accomplished in the United States, by which they have obtained denatured alcohol, was effected largely by the funds of the United States government, having several distilleries idle, and being in a position to produce large quantities of ethyl alcohol. Now that the measure is passed the house of representatives, the Whiskey Trust has purchased the controlling interest of the Wood Products Company, which is the largest wood alcohol producer in the United States. In this way they have control of the price of denatured alcohol, and thereby reap a profit on their expenditure.

It is pointed out that the price of denatured alcohol in the States will be 35 cents. This is equivalent to about 45 cents for industrial alcohol, which is 10 per cent. of wood alcohol and one-half of 1 per cent. of benzene. It is expected that the ex-ports of denatured alcohol to Canada will be 10 per cent. of the country for every gallon sold in Canada. In England the cost is 8 1/2 cents.

The question arises, Mr. Peuchen said, whether we should have denatured alcohol here, and who would bear the costs, the consumer the producer, or the government. On the small amount of business now being done, a large area as Canada does, it would be very expensive. It would, therefore, be thought, he believed, that the government should have a monopoly of the alcohol, and that it should be sold at a price which would cover the cost of production, and the cost of the government.

TO INSPECT STANDS.

An Exhibition Committee to Join the City Council Delegation.

At a meeting of the exhibition board yesterday plans submitted by Architect Gouinlock for a new grand stand were provisionally adopted, and the architect, Manager Orr and Ald. Sheppard or Ald. Oliver were appointed a committee to join the council delegation to inspect the following grand stands in the United States:

1. The stadium, Harvard University, Cambridge, seating capacity of 47,000.

2. Yale stadium, New Haven, Conn., seating capacity of 40,000.

3. Princeton football stand, New Jersey, seating capacity 22,000.

4. Football stand, Philadelphia, seating capacity 20,000.

5. Baseball stand, Polo grounds, New York, N.Y.

Mr. Gouinlock's plans provide for a semi-circular stand with a seating capacity of 20,000.

These resolutions were adopted: "That in view of the amount of capital invested in the exhibition grounds, the board of directors of the exhibition recommend that the park be closed at sunset between the exhibition grounds and the remaining months of the year at dark."

"That this board desire to ask the city council to have a line run to the eastern entrance of the exhibition grounds. This line was asked for some two years ago by the board, and the receipt of the exhibition are materially decreased and the exhibition greatly impeded for want of the same."

The manager was instructed to report on arrangements for night watchmen, and the parks and exhibition committee were requested to have plans prepared of the grounds when the intended annexes have been made. A letter from Chief Constable Grant asking for better accommodation for the police was referred to the parks and exhibition committee.

George H. Goodenham, W. K. McNaught and W. K. George were appointed to act with Controller J. J. Ward's sea-wall committee.

PROF. MANN IS FREE.

Discharge of Mann in the case of Radiopathy were dropped yesterday, and it is understood that the charges in the police court will not be pressed, and that the Institute quitting business in Toronto.

Estate of the Dead.

The estate of late P. C. Frank Blackwell, who was killed in the Azilda wreck, totals \$54,275, which is left to his widow and daughters.

Charles W. Gregory, commercial traveler, receives his late wife's property under her will, and an equity of \$475 in No. 143 Major-street and had \$254.95 cash.

FORTUNE IN COAL

Call or write Owen J. B. Yearsley, 61-62 Confederation Life Building, Toronto, and he will tell you of a coal proposition in British Columbia which is now being floated with success.

Put your savings in British Columbia Amalgamated Coal. The investment will give a return of a hundred fold in a short time, and provide for you a source of income that will last as long as you live, and increase in value from year to year.

I have only 100,000 shares to sell at the introductory price of 25 cents per share. This is the first allotment offered to the public, and it will soon be gone.

British Columbia Amalgamated Coal

is the best and safest investment on the market to-day, and recommended by bankers and merchants.

A Second Crow's Nest

The Crow's Nest Pass Coal Company was organized in British Columbia in the year 1898, ten years ago. It was the only coal stock that had ever been offered to the public at large in the Dominion of Canada up to that time. The stock was put on the market in the spring of 1898 and offered to the people at ten cents a share. The first allotment was sold to school teachers, clerks, merchants, doctors, servant girls, carpenters, and men and women in all walks of life. This brought about the most cheering and gratifying results, and poor men awoke to find themselves independently rich from a small investment. For \$100 one thousand shares were secured, and to-day this amount of stock has a cash valuation of \$285,000, and last year 1000 shares brought a dividend of \$10,000 (\$10.00 per share). Coal experts and engineers who have seen our properties and those of the Crow's Nest are fully agreed that ours are as good, if not better, for the reason that we are 500 miles nearer tidewater (Pacific coast), and our coal is superior for steam, domestic and smithing purposes, and fully equal for foundry and smelters' coke. Our Company controls 17,500 acres of coal land, estimated by coal experts to contain one billion four hundred million tons of coal, such a vast quantity that the supply would last 400 years at an output of 10,000 tons a day. One engineer has estimated that our land on Coldwater River has a net valuation of one billion five hundred million dollars, with the coal in the ground as a basis of calculation. Our shares will be increasing in value from year to year, the same as has been the case with the Crow's Nest Pass Coal Company's stock. In the year of 1900 those shares were worth \$36 from the dividend it then paid. In 1905 it had reached the \$100 mark, and in the fall of the same year it sold for \$125, and to-day its market price is \$285.

For \$250 you can now buy 1000 shares of British Columbia Amalgamated Coal, which in a few years will pay you yearly in revenue more than you can earn in any capacity as a salaried man. For \$100 you can secure 400 shares, and so on.

Please call at my office or write for prospectus and reports, etc. If you want to secure a block of stock of the first allotment at 25 cents per share I advise you to act quickly, as I have already disposed of more than one-half of the first 100,000 shares.

THIS STOCK WILL BE ADVANCED NOVEMBER 15th TO 50 CENTS.

OWEN J. B. YEARSLEY, BANKER AND BROKER

Rooms 61-62 Confederation Life Building, Toronto, Ont.

TELEPHONE MAIN 3290.

THE CROWN BANK OF CANADA

Ten dollars a month is less than \$2.50 a week, yet that amount put into the Savings Department of this Bank every month will be \$1399.88 in ten years.

Ten years is a short period to look back upon! One thousand dollars is never unwelcome!

PARTRIDGES HAD A JAG.

Berries on Camp-Meeting Grounds Made Birds Drunk.

Waterbury, Conn., Oct. 26.—Partridges so helplessly drunk that they are easily captured alive are the prey of hunters near Plainville. The last batch was found on the very reservation of the Methodist State Camp-Meeting Association, which is every summer the theatre for a thunderous demonstration of intoxication.

Hunters yesterday captured five of the birds flopping about in an intoxicated condition. Investigation showed that the fowls had been feeding on copberries, which grew in abundance near by. The result of a dinner composed of these partridges has yet to be determined.

Medical President Barred.

Hospital Board Refuses to Put Him on Trust.

Gait, Oct. 26.—(Special.)—The Gait Hospital Board annual meeting negotiated a resolution to amend the by-laws so as to constitute the president of the Medical Association a member of the hospital trust ex-officio, the same as the mayor of the town. Chairman Spiers strongly opposed the resolution and declared the doctors should not seek such office in view of their relations to the hospital. The doctors will renew the proposal at the next meeting.
