leville, Woodstock, Wiarton, Guelph, Orillia, Windsor, Campbeliford, Tor-onto, The Toronto Hotelkeepers' As-sociation Branch, Sturgeon Point and

Wm. Hendrie of Hamilton in the course of an address to the premier, referred to the intention of the govern-

ment to reserve the large country to the north, mostly government lands, for the

use of the people and not for any par-ticular class. This was supported by the Ontario Fish and Game Protective Association. But there would fall upon

the government a large responsibility in placing themselves practically in the same position as the landlord of a

grouse moor in the old country, or a deer forest in Scotland, inasmuch as it

be copied from the old country, for instance in the care and money expend-

ed there for the proper preservation of grouse moors. The same conditions ap-

plied to this country, where there was so large an acreage in the northern part, unsuitable and unfit for agricul-

tural and domestic purposes, yet which could be made valuable and return a

Prices of Many Cobalt Issues Are A deputation consisting of Harry Sinclair, Alex. Hardy and Wm. Wool-lings will walt on the minister of mines to-day to request that a recording office be opened at Englehart.

World Office,
Tuesday Evending, March 5.
The mining markets to-day were again stampeded to a small extent by the revolutionary character of the markets for other securities. The tenacity with which the state of the ways a tribute to the Toronto Curb Market. stampeded to a small extent by the recording the markets for other securities. 	the Spot.)—The camp extensions are reaching out in all directions. One of the most valuable of the new finds is reported from the Township of Hudson, where the Brooks-Hudson people have made a find of silver. The vein is reported to be five inches in width, and cannot be very far from the surface, as development work has only recently been started. Superintendent Brooks has 14 men at work on this property, and Murdoch McLeod has only to-day received a brief intimation of the find. This is the first important discovery in Hudson Township, and corners it. It might be said that the veins in Casey Township are almost in a line with and about 10 miles directly south of the new discovery. Find on the Nancy Helen. A Kelly Evans, secretary of the Tor-

onto branch, hoped that the government would send the bill, many features of which were on the lines of suggestions approved by the association, to a special committee to give those luterested an opportunity of discussing it.

He dwelt specially upon the necessity of preserving the feed-fisheries of the great lakes from destruction. Phone Main 4418.

A petition signed by the members of the Toronto Hotelkeepers' Association was presented, drawing attention to the fact that the tourist traffic from the United States attracted by the fishing in this province was of financial im-portance to them and could be largely portance to them and could be largely increased.

That old customers, who had been passing thru the town for years were saying that the fishing was rapidly becoming very poor where originally it was superb, and they speak of seeking other places; that in the online of the

other places; that in the opinion of the association there was not a practical and efficient system for the enforcement of the present laws as they apply to the fish and game and that as an association, they had become a branch of The Ontario Fish and Game Protective Association, and the objecting to the recommendation as to placing any additional varieties of fish and game upon the list already prohibited for sale in this province, it was fully right that they should, at any time, be able to provide guests with at least two kinds of game; namely: venison and wild duck, purchased during the open season. DAY, FERGUSON & DAY Barristers, Solicitors and Notaries Public Toronto Cobalt and Haileybury

Offer EVIDENCE

One day last week the superintendent of one of the best known mines at Cobalt, the shares of which are traded in largely every day on the New York and Toronto Exchanges, came into our office and purchased a large block of Silver Bird at 15c. per share. He said he believed it the best investment offered in Cobalt shares. He backed his opinion with his money. A Mining Engineer and Mineralogist came to our office some days ago and purchased a large block of

visit to and examined Silver Bird Mine, and had made his own assays. He said the property was even better than we represented, and that in his opinion Silver Bird would be one of the greatest and most profitable mines in the Camp. He having backed his opinion with his money needs no argument and

The miners employed upon the near-by mines surrounding. Silver Bird are placing their faith and their money in these shares. These men are miners and are on the ground where they can see Silver Bird every day. They know a good thing when they see it, and are backing it up with what money Bankers, brokers and conservative business men throughout the whole country are now buying Sil

We strongly advise the investing public to place their money in Silver Bird at the prevailing

15 CENTS PER SHARE.

We say to you that Silver Bird will make you money. We say to you with every degree of confidence that the dividends alone on each share of Silver Bird within this year will equal the amount which you can now purchase it at. We advise that you buy Silver Bird, and that you hold it tight, and do not be induced to part with it at less than par. Within the year 1907 everybody will be trying to buy Silver-Bird at from \$1.00 to \$1.50 per share. Silver Bird will make a jump one of these days, and then it will be too late to buy it at its first
