Vote. Miss McGregor was found at 236 St. Clarens-avenue, in the old homestea where she was born, and where, with her family, she still resides. She is of Scotch descent, and takes a practical, business-like view of things, aiming to make even her pleasures yield something to utility. There was no stoi-cism, however, in her reception of the news of her success. She was honestly delighted, and said so. Her mother alse was well pleased, tho the idea of the ocean voyage seemed somewhat dis-turbing to the quiet home-maker. "I shouldn't say it before her, but she is the best girl we ever raised," was

her mother's tribute to her happy daughter. Miss McGregor is one of family of seven and comes of good old stock. Her uncle and father did business as ropemakers with kice Lewis & Co. away back in 1852, when they traded as A. & D. McGregor. To allow this poisonous matter to remain means that it will settle in the muscular tissues or innts, and cause the untold misery known as rheumatism. The mixture is composed of
