THE TORONTO WORLD
ONE CENT MORNING PAPER.
No. 83 YONGE-STREET, Toronto.

UNCLE SAM'S ARMY.

Replying to an editorial in The World of June 6, entitled "Canadian Military Promptness," The Buffalo Evening News disputes the truth of the statement that six weeks after the war began the United States Government had been unable to enlist and equip a volunteer force of 120,000 men or recruit their regular standing army up to its authorized standing, and that New York State had not nearly made up its quota of 12,500 men. As regards the New York State volunteers, The Buffalo News thinks there was no excuse for such a statement as it announced in its editorial columns on June 2, that "New York has 12,000 troops fully equipped in the field to-day." The World must apologize to the Buffalo paper for having overlooked its statement and accepted the statement of another American paper made not long before, which may not have been strictly accurate when The World used it, but it is very certain that it took the great State of New York a long time to raise those 12,000 men.

The Buffalo News admits that four weeks after the President's first call for 125,000 volunteers, the Adjutant-General was only able to report the mustering in of 110,000 men. It publishes the following figures to show the present standing of the United States military force:

Regular army	62,000
Volunteers from State militia (first call)	125,000
Three cavalry regiments at large.	3,000
Ten infantry regiments, volunteers (immunes)	10,000
Engineers at large	3,500
Volunteers (second call)	75,000
Grand total	278,000

But this is only a paper army. It does not represent the real army of the United States. The leading newspapers of New York city state that many of the men who responded to the second call for volunteers, made after the first call proved a failure, are being used to fill up the regiments that should have been completed from the first call. As regards the regular army it is said to be still very far from its authorized standing of 62,000 men. Indeed, according to a statement made recently in a New York paper, the military authorities had given up hope of recruiting the regular army up to more than 40,000 at any near date. The World cannot vouch for the truth of this, but it is certain that the statement made on the 6th of June, that the Americans had been unable to recruit their regular army up to its authorized standing, was strictly accurate. But even if the paper army of 278,000 men were a real army it would be nothing to brag about. The population of the United States is supposed to be over 70,000,000. If Canada were called upon to mobilize as large an army in proportion to population we would only have to muster a little over 20,000 men.

As regards equipment, newspaper correspondents in Florida state that some of the troops have no uniforms, and that very few have uniforms suitable for a hot climate. Letters from New York volunteers in Florida, published by The New York Journal, show that many of the soldiers are shoeless or almost so. One soldier writes that he could not drill because he did not want to present himself in bare feet. Another says: "I have the sole tied on one of my shoes with a hank of string." An officer writes that the food of the officers is all right, but that of the men is awful. According to one letter the "grub is so rotten that the bread is blue moulded," but most of the soldiers do not get any bread at all. Many of them complain that they get nothing to eat but vilely cooked pork and beans. A soldier writes from Tampa: "We traveled for two and a half days from Chickamauga to Tampa without anything to eat. We did get some plain coffee, without sugar or milk to drink, but nothing to eat with it."

These poor, shoeless, half-starved American soldiers may be able to fight Spaniards, but what would happen to them if they ran up against well-fed, properly-clothed Canadian volunteers!

THE WAY TO GET GOOD SIDEWALKS.

Many of the sidewalks of Toronto are in a disgraceful condition, and the City Council, it appears, is powerless to improve them. A few selfish and unprogressive property owners can prevent the construction of a sidewalk under the local improvement system although all the other proprietors on the street are in favor of the improvement. If a sidewalk were simply for the personal use of a proprietor or his tenants he might be allowed to have his own way about it, but sidewalks are used in common by many different proprietors. The man who objects to paying for a new sidewalk in front of his own property wears out the sidewalks built at the expense of other proprietors. This is not right, and Ald. McMurrich wants to remedy the wrong. He has given notice of motion that the Council shall ask for legislation enacting that when any of the proprietors on a street prevent the construction of a necessary sidewalk petitioned for by others they shall be made jointly responsible with the city for any accidents that may occur in consequence, and be obliged to pay a share of any damages that may be awarded by the courts.

Ald. McMurrich's object is a good one, but the remedy he proposes would be a clumsy contrivance to accomplish what might be secured in a much simpler way. Let the legislature enact that when the city authorities decide that a new sidewalk is required they shall have authority to construct one and tax the proprietors for it in the usual way, whether they want it or not, but a majority of proprietors should be allowed to choose what kind of sidewalk they will have.

LORD WOLSLEY AS GOVERNOR-GENERAL.

It is reported that the British Government has offered Lord Wolseley, Commander-in-Chief of the British army, the post of Governor-General of Canada. It is to be hoped that Lord Wolseley will accept the offer, for his appointment would be received with intense enthusiasm by the Canadian people. Canada knows Lord Wolseley and he knows Canada. He was once Commander-in-Chief of the Canadian military forces and he was the most popular commander we ever had. It might almost be said that he was the only popular commander, for nearly all his successors have had some misunderstandings with the Canadian volunteers. He led a Canadian regiment to the Northwest during the Red River rebellion, and the volunteers used to say that they would go through fire and water for him. He liked our volunteers as well as they liked him, and after leaving Canada, he was reported to have said that he would rather have one regiment of Canadian volunteers than two of any other nationality.

Lord Wolseley will notice some great changes if he comes to Canada as our next Governor-General. Perhaps what will seem most strange to him will be to find the bustling, modern city of Winnipeg where Fort Garry stood when he was there, but Toronto, Montreal, Ottawa and many other Canadian cities of the east have grown greatly, and the wonderful new city of Vancouver has risen out of nothing on the Pacific coast.

The regiment he led to Fort Garry had to march all the way by the Dawson route, for there was no railway then. He will no doubt be greatly interested in the mining developments of that rough country north of Lake Superior through which he led his troops.

Almost everywhere in Canada Lord Wolseley will find something new. He will be able to tell the people what has been accomplished since Confederation, and his presence may inspire Canadians to fresh efforts for the development of the Dominion and the Empire.

HAIL TO THE AUTO-CAR!

Successfully Tried on Yonge-Street —Will Be Utilized By the Postmaster-General.

Mr. A. H. St. Germain has made another step forward in his auto-car project. At first he intended importing the cars from England, but latterly he decided to have them built in Toronto. Before giving orders for the construction of a large car suitable for public traffic, Mr. St. Germain ordered a Gladstone to be built by the Canadian Motor Syndicate. This machine was completed some ten days ago and Mr. St. Germain sends The World a photograph to show that it is no myth, but a working reality. The photograph was taken at Mr. St. Germain's park, Yonge-street, North Toronto. In the car are Mr. St. Germain, his wife and a young lady. Mr. St. Germain appears as if it was the proudest moment of his life. A pleased and satisfied smile pervades his genial countenance. He looks like a man who has at last solved a great problem. One hand leisurely reposes on his knee, while the other quietly grasps the circular lever by which the auto-car is controlled and directed. One has to look at the picture but for an instant to discern that a sense of victory has taken possession of the energetic Yonge-street pioneer. The auto-car is a compact, small and not uncomely vehicle. That it will go is evident from the fact that it had climbed the Yonge-street hills, some four or five miles, to Mr. St. Germain's house. Mr. St. Germain states in the letter that he has placed orders with the Canadian Motor Syndicate to have several auto-cars built and completed before the Industrial Exhibition is held next September. He gives the public to understand that the St. Germain auto-car line will soon be an accomplished fact. In a postscript to the letter, Mr. St. Germain states that a letter has been received from Ottawa from the Postmaster-General, informing the Canadian Motor Syndicate that their tender has been accepted for carrying mail from the Don postoffice to the Toronto postoffice, a distance of eight miles, by motor carriage. Long live Mr. St. Germain and his auto-car!

York County News.

The Oddfellows of Markham will celebrate Dominion Day by holding a grand demonstration at that place, July 1.

The Methodists at Victoria Square will hold their annual festival on Saturday, June 18.

Charles Wilkinson of Markham, at the risk of losing his own life, bravely rescued his companion, Robert Purvis, a lad of 15 years, from drowning in Milne's pond.

The evangelistic services which have been so successfully conducted for the past two or three weeks at Markham by Messrs. Crossley and Hunter will close on Sunday evening next.

The three industries at Markham, viz., Speight's wagon factory, the Maple Leaf woolen mills and Underhill & Sisman's shoe factory, are enjoying a busy season, all having large orders to fill.

Railway Notes.

The Grand Trunk have started schools of instruction, so that the trainmen may learn the new rules. The book of instructions has been distributed among the men.

About 40 miles of new track has been laid on the Grand Trunk Railway between Niagara Falls and Hamilton.

The Cheltenham (Eng.) Looker-On, for the past week chronicles the arrival in that city of Mr. and Mrs. James Stephenson of Montreal. The esteemed ex-General Superintendent of the Grand Trunk has taken up his residence in a pleasant villa named Pittsville, in the fashionable town of Cheltenham, Gloucestershire, England.

All Saints' Garden Party.

The beautiful grounds surrounding the residence ("Mayfield") of Mr. Samuel Trees on Sherbourne-street presented a very pretty scene Thursday, with colored electric lights and Chinese lanterns, and tables, with delicious eatables. The occasion was the garden party given to members of the choir and teachers of All Saints' Church. Over 200 were present, and heartily enjoyed the evening, promenading the walks, lounging in the parlors and listening to the strains of an orchestra. Several selections were rendered by the choir.

The record of events in society circles during the week will be found in to-night's Sunday World. It is admitted everywhere that The Sunday World's society columns are the most readable printed in Toronto.

ALREADY AT WORK.

The Toronto Poultry Association Has Begun to Plan for January's Success.

Although it is the show of the Ontario Poultry Association, in conjunction with the American Poultry Association, which will be held in Toronto next January, the Toronto Poultry Association has already begun to work to make the practically triple poultry gathering a success. A special meeting was held last night in the Temperance Hall for this purpose, and much business was done. It was unanimously decided that the Executive Committee, with members added from the general association, should make the effective arrangements for the show, that a prize list with a guaranteed circulation of not less than 2000 copies be issued, and that, if the Ontario Poultry Association concedes the point, cats and cage birds be included in the prize lists. A brilliant success for Canada upon this occasion, the first in which the United States participates, will be the result if the work done by the Toronto Poultry Association wins its due reward. Already prominent breders in the United States have signified their intention to be present with their birds, and the specialty cubs of the United States are being requested to hold their annual meetings in Toronto, Canada, during the progress of the show next January.

HOOLEY SAYS HE'LL PAY.

Also That He'll Make it Interesting for Some Newspaper Men and Others.

London, June 10.—Mr. Ernest Terah Hooley, the English company promoter, who applied for and obtained an arresting order in bankruptcy, in an interview published yesterday, promises to make startling revelations regarding the extent to which blackmailing is prevalent in the city portion of London, and adds that his estate will probably show a surplus of £500,000. Continuing, Mr. Hooley remarked: "Everybody will be paid in full. I have not worked alone; I have always been in a syndicate and have had all sorts of people with me, from the highest in the land to the lowest. I have been making the business and they the profit.

"I intend to show up the methods of some of the financial journals so that they will never dare to hold up their heads again.

"It is not gambling or drinking which has bankrupted me, but attacks without rhyme or reason by financial papers, which brought my creditors on me in a bunch. They ridiculed my companies and discredited everything I was concerned in. Yet I have promoted companies which I did not make a penny from, because the newspapers took all the profit. I paid one £40,000, while a single article in another paper cost me £10,000."

ALLIANCERS REFUSED A FIAT.

Cannot Take Proceedings Against the Kingston Car Company.

Kingston, June 10.—The Street Railway Company ran their cars on the Sunday of May 22, and the local branch of the Lord's Day Alliance have applied to the Attorney-General for a fiat to take proceedings against the company. The application was made through Mr. A. E. O'Meara of Toronto, secretary of the Provincial Lord's Day Alliance. The Attorney-General has replied refusing to grant the fiat, and pointing out that the Kingston company do not intend supplying a regular Sunday service, and ran their cars on May 22 only for the accommodation of those who were desirous of seeing the camp of volunteers that were located near the city to take part in the Queen's Birthday celebration.

Mrs. Sternaman Lost the Case.

Buffalo, N.Y., June 10.—Owing to a mistake having been made in the complaint entered by Mrs. Olivie Sternaman in her suit for the recovery of $1000 life insurance on her late husband, her suit against the Metropolitan Insurance Company was yesterday decided against her at the lawyer's request. Mr. Thayer, Mrs. Sternaman's counsel, states that he will at once enter an appeal.

Looking Towards Deer Hunting.

Chief Game Warden Tinsley is preparing deer hunters' licenses for the season of 1898. These consist of detachable coupons, one of which must be attached to each deer shipped. This of course acts as a means of enabling the authorities to keep down the number of illegally slaughtered deer. It is estimated 1500 deer were saved this way last season.

How Chicago Took It's Beating.

In connection with the Toronto meeting the following editorial in the June American Poultry Journal, published in Chicago, is timely: "The next annual meeting of the American Poultry Association will be held in Toronto, Canada. Chicago was a candidate for the honors of this meeting, but the majority of the committee voted in favor of Toronto. We heartily urge upon every member of the association and upon the fanciers of this country to help make the Toronto meeting a memorable one in attendance and interest."

Smallpox in Rochester.

Albany, N.Y., June 10.—Three cases of smallpox broke out in Rochester yesterday afternoon, the State Board of Health being notified to that effect to-day. The afflicted are three boys who avoided quarantine at Dansville 10 days ago and went to Rochester.

Love is crowned triumphant only in the home where a baby completes the tie of matrimony. A childless marriage cannot be a happy one. It takes the final tie of a baby to bind two souls together in marriage for better or for worse. Without this final tie a wedded couple lack the indissoluble interest that makes daily self-sacrifice not only a possibility, but a pleasure.

There are to-day thousands of homes all over the country that were once childless and unhappy, but that to-day echo with the laughter of happy babyhood, as a result of a marvelous medicine, known as Dr. Pierce's Favorite Prescription. This is the greatest of all medicines for women who sufferer from weakness and disease of the delicate and important organs that bear the burdens of maternity. It makes them healthy, strong, vigorous and elastic. It makes them pure and virile. It allays inflammation, heals ulceration, soothes pain and tones and builds up the shattered nerves. It banishes the discomforts of the expectant period, and makes baby's coming easy and almost painless. It insures the little new-comer's health, and a bountiful supply of nourishment. It transforms weak, sickly, nervous invalids into happy, healthy mothers. An honest dealer will not urge an inferior substitute upon you.

"I am now a happy mother of a fine healthy baby girl," writes Mrs. F. B. Cannings, of No. 4320 Humphrey Street, St. Louis, Mo. "Feel that your 'Favorite Prescription' has done me more good than anything I have ever taken. Three months previous to my confinement I began using it. I was only in labor forty-five minutes. With my first baby I suffered 18 hours then had to lose him. He was very delicate and only lived 12 hours. For two years I suffered untold agony and had two miscarriages. The 'Favorite Prescription' saved both my child and myself."

Write to Dr. R. V. Pierce, Buffalo, N. Y., for a free letter of advice, and enclose 31 one-cent stamps, to cover customs and mailing *only*, for a paper-covered copy of the "People's Common Sense Medical Adviser;" or 50 stamps for a cloth-bound copy. A medical library in one volume.

The Two Documents

Two Legal Papers met on their way to the funeral of a smart business man. By way of introduction, one said: "I am a Mortgage Deed, and I shall have most of his property." "By no means," said the other, "I am an Insurance Policy, and was born to outwit just such fellows as you are. I am for the family every time."

Moral:—Protect the estate by placing sufficient insurance on your life, so that your family will not suffer through neglect on your part when you have been taken away from them by the hand of death.

Make a wise choice by insuring in a good sound Company, such as the **North American Life**, under its Compound Investment Plan, and thus secure a contract combining the maximum of legitimate advantages obtainable under an Insurance Policy.

Pamphlets explanatory of the Company's attractive Investment Plans and copies of its last Annual Report, illustrated, furnished on application to the Head Office, Toronto, or any of the Company's Agents.

L. GOLDMAN, Secretary. WM. McCABE, Managing Director.

CANADIAN ENTERPRISE.

The Cataract Power Company's Plant Near St. Catharines.

About four miles from St. Catharines there is in course of construction the finest plant for the generation of electrical energy, through the medium of water power that has yet been attempted in Canada. The Cataract Power Company, which has undertaken the project, is composed chiefly of prominent Hamiltonians, and the spirit of enterprise which led them into such an extensive scheme is to be commended.

The power house of the company is a substantial brick structure, situate at the foot of the mountain, and about a quarter of a mile from the picturesque DeCew Falls.

In the power house within the next few weeks will be installed two turbines, each of 1500 horse power, and directly connected to these two large generators. When the demand increases two more units of the same horse power each can be installed.

From the waste-weir on the Welland Canal at Allanburg the water will be conducted for several miles across the country and try to the brow of the mountain, and thence to the turbines at the foot through a heavy eight-foot steel conduit. Thus there will be a head of about 270 feet on the wheels.

Electrical power will be transmitted to Hamilton at a potential of 22,000 volts. Such a pressure has never been used before in Canada, and in only a few places in the United States.

(From Toronto Globe.) June 9, 1898.

THIS CERTIFICATE Brings Forth a Story.

BOWMANVILLE, ONT.

We the undersigned certify that the health of the Rev. R. A. Bilkey has for months been deteriorating, and that he is now suffering from severe nervous prostration, and urgently requires immediate and prolonged rest.

J. W. McLAUGHLIN, M.D.
A. BEITH, M.D.
L. HOLLAND REID, M.R.C.S., etc.

This Interview Tells It.

A reporter called on the Rev. R. A. Bilkey, rector of St. John's (Episcopal) Church, Bowmanville, Ont., during the progress of a church function recently and was compelled to comment on the great change for the better in the rector's physical appearance since he had met him before. It is due entirely to Dr. Ward's Blood and Nerve Pills, said the reverend gentleman.

"I suffered for over three years from extreme nervousness, weakness and prostration, and until recently could not obtain relief. A few months ago it became only too apparent that extreme nervous prostration had set in, as I lost flesh and appetite rapidly. A tonic which I had been using seemed to do me little good, and three of our medical men pronounced me in urgent need of immediate and prolonged rest in order to build up my nervous system to its former healthy condition, giving me a certificate to that effect. About this time by pure accident Dr. Ward's Blood and Nerve Pills were brought to my notice, and suggested as the remedy I needed. I decided to try them, and on doing so a decided change for the better took place at once. I have since continued taking the pills, with continued and marked benefit and improvement. My appetite has returned, I am gaining in flesh steadily, and my general health is now so good that I do not hesitate to recommend these pills, and, in fact, have done so in many instances. Further, I am sure that these results are due to the action of Dr. Ward's Blood and Nerve Pills, and I have every confidence that they will do for others all that they have done for me."

This is a straightforward testimony to the worth of a medicine. It is not a vain boast. It is a proven fact that appeals with irresistible force to all the brain-worried, nerve-tried and weak-debilitated men and women of the land.

If you need health, strength and energy the pathway is pointed out.

Dr. Ward's Blood and Nerve Pills are sold at 50c per box, 5 boxes for $2, at druggists, or mailed on receipt of price by the Dr. Ward Co., 71 Victoria street, Toronto. Book of information free.

MUST BE DECENTLY HANGED.

Ontario Government Instructs the Sheriffs How to Conduct Executions.

The Ontario Government has decided, through the Attorney-General, that murderers must be decently hanged, and in an orthodox manner. Therefore, realizing that these little functions should be uniform, and recognizing that system is a desirable thing, the sheriffs of the province, who are the middlemen between the judge and the undertaker, have received the following rules:

1. For the sake of uniformity, it is recommended that the executions should take place at the hour of 8 a.m.

2. The mode of execution and the ceremonial atttending it to be the same as heretofore in use.

3. A black flag to be hoisted at the moment of execution upon a staff placed on an elevated and conspicuous part of the prison, and to remain displayed for one hour.

4. The bell of the prison, or, if arrangements can be made for that purpose, the bell of the parish or other neighboring church, to be tolled for 15 minutes before and 15 minutes after the execution.

They Are Carefully Prepared.—Pills which dissipate themselves in the stomach cannot be expected to have much effect upon the intestines, and to overcome costiveness the medicine administered must influence the action of these canals. Parmelee's Vegetable Pills are so made, under the supervision of experts, that the substances in them intended to operate on the intestines are retarded in action until they pass through the stomach to the bowels.
