YOU DON'T JELLICOE EXPLAINS

if you will only use Zam-Buk-the great herbal skin cure. This balm, owing to its unique composition, is the very thing for sores and skin troubles that have resisted ordinary treatments.

Mrs. Herbert Cox, of Port McNicoll, Ontario, writes: "For nine years I suffered with an abscess on my face, which was both painful and disfiguring. I had the abscess lanced repeatedly, but it still remained. I also tried ordinary ointments, but without any permanent benefit. Finally the doctor told me I had a tumor on the bone, and would have to undergo an operation, which I did; but instead of improving, the wound only became worse. I was in despair when a friend got me to iry Zam-Buk. I soon noticed a marked improvement. Zam-Buk seemed to get to the very root of the trouble, and in the end the abscess was entirely cured-not even leaving a scar. This was a year ago, and there has been no return of the trouble."

Zam-Buk is not a mere ointment, but a rich herbal balm. Unequalled for eczema, scalp sores, ringworm, boils, bad legs, blood-poisoning, piles, cuts, burns, sprains, scalds and all skin injuries. 50c. box, 3 for \$1.25, all druggists or Zam-Buk Co., Toronto. Send 1c. stamp for postage on free trial box.

WHERE STATES CAN BEST HELP ALLIES

"Other Side."

RESULTS ARE ASTOUNDING

Has Informed the U.S. Naval Department of Subs Sunk and Mines Destroyed.

LONDON, April 16.—Admiral Sir John Jellicoe, former commander of the British grand fleet, and now first sea lord, informed the Associated Press during the course of an interview today that anything and everything in the way of small craft, from destroyers togolius make to the war against German submarines. In this connection which the United States now the first sea lord asserted that the best hunting ground for raiders is on this side of the water, as the possibility of German submarines operating on the American coast is almost negligible unless they have a base on that side. "I have no desire to minimize to the American people," said the admiral, the serious situation prevailing as a feasult of the illegal use of submarines by the Germans. Neither is it easy to take them into our confidence and tell them what we are doing to cope with the evil, without providing the Germans with useful information. No methods existed in the past for righting the submerged submarines; the new inventions and processes for that purpose take time to develop. We are giving your navy all the information in our possession, and, knowing its record, we have great confidence what purpose take time to develop. We are giving your navy all the information in our possession, and, knowing its record, we have great confidence what american inventive genius will supplement it with valuable contributions.

America the Larder.

"As far as the feeding of the allied populations is concerned, our efforts must, be concentrated on saving tonage, while bringing in the necessary, in order to minimize the effect of the committee that the meeting shall the past for signing the submerged submarines; the new inventions and processes for that purpose take time to develop. "Use In In from the United States and Canada.

"Our food situation is by no means as desperate as the Germans want to believe it is, but, on the other hand, it is more serious than many of our own people realize. Our shipping suffered very little more in March than during the first month of unrestricted submarine warfare, and other tonnage sunk during that period was in much the same position, and there is no very marked method of combatting the evils.

U. S. Navy Knows All,

U. S. Navy Knows All. "What has been accomplished is the sult of inventions and processes result of inventions and processes which take time to develop, and the Government is well aware that immediate results could not be expected. The increasing of the armament of our merchant marine has made submarines far more cautious, and more submerged attacks are taking place. Of course this has on advantage, inasmuch as the raiders must depend upon their torpedoes for such attacks, and, being able to carry only a limited number.

This Side Fairly Safe.

"To guard against a submerged attack a host of small craft forms the best protection. The danger of showing a periscope when the submarine may have a bomb dropped on it or be rammed is one which the enemy does not like to face. But these craft must be used in the zone where submarines be used in the zone where submarines here tonight. The tabulated statement follows:

This Side Fairly Safe.

LONDON, April 16.—German casualty prisoners. The captured material includes 194 guns."

Their efforts to dig in everywhere and seek the shelter of strongly-forting in the lines do not tend to corroborate the oft-stated German hopes that the oft-stated German hopes that the warfare might become open again. In fighting these retarding actions the lames of war raging along the entire western troops, as they did during the rear it.

and in the morning your head is clear, tongue is clean, stomach sweet, heath right and cold gone. Get a box from your druggist and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Cascarcts stop sick headache, billousness, indigestion, bad breath and constipation.

Mothers should give a whole Cascaret to cross, billous, sick, feverish children.

Also undeniable that their use legitimate legitimate changed aval warfare. But the legitimate change is not great nor so difficult to cope with as the illegal use of submarines. Their advent as a fighting weapon has made a coast blockade of an enemy's coast impossible and has added to the difficulties we face on account of the natural features of the German coastline for either attack or defence.

FREE WHEAT HAS AS MEASURE OF "RECIPROCITY"

Tariff Barrier Removed at Ottawa—Automatically in Washington.

FOR BENEFIT OF FARMERS

Canada Now Has 67,000,000 Bushels Available for Export.

COMMENT IN WASHINGTON

U. S. Officials Think Canada Should Have Adopted Policy Long Ago.

[Special to The Advertiser.]
OTTAWA, April 16.—The Canadian Government has put wheat and flour on the free list for the purpose of obtaining the free admission of Canadian wheat to the United States through the mission to the United States a duty of ten cents a bushel on wheat, forty-five cents a barrel on flour and ten per cent ad valorem on other wheat products coming from countries imposing a duty against American wheat and ducts coming from countries imposing a duty against American wheat and our.
This departure was decided on at this

This departure was decided on at this afternoon's cabinet council. Ordinarily such tariff changes are made only by act of Parliament usually at the time of the budget. In this case the war measures act is invoked and without going to Parliament, any order promulgated under its authority acquires the force of a parliamentary enactment, Canada has heretofore imposed 12 cents a bushel on wheat and 60 cents a barrel on flour with an addition of cents a bushel on wheat and 60 cents a barrel on flour with an addition of 7½ per cent ad valorem war tax. By the order made today all of these charges against the admission of wheat and flour to Canada are removed and on and after April 17 wheat and flour enter Canada without custom charges.

To Benefit Farmer.

In its statement of reason the Government declares that while formerly there was a good export demand for all grades of wheat, now, owing to tonnage.

there was a good export demand for all grades of wheat, now, owing to tonnage being shortened by war, only grain of the higher grades is exported; that owing to these conditions the prices of lower grades of wheat is now lower in Canada than in the United States; that advantage is being taken of the situation to keep down in Canada the price of lower grades; that as a special appeal is being made for increased agricultural production, the Canadian farmer should feel he can obtain the best prices for his products.

67,000,000 Sushels for Export.

Most recent returns show that there-

Most recent returns show that there to 102,000,000 bushels of wheat in storge in Canada. Of this 35,000,000 ushels will be required for seed, feed and Canadian milling, leaving 67,000,000 ushels for export.

Free wheat has long been a policy of ir Wilfrid Laurier. Even after the deat of the reciprocity policy has trovery advocated free wheat as mea he general interest of Canada.

ADVANTAGE WITH CANADA. the Ones Sacrificed.

Their efforts to dig in everywhere and seek the shelter of strongly-fortified lines do not tend to corroborate the oft-stated German hopes that the warfare might become open again. In

the Cerna

"A surprise attack attempted by the

come in canada The World Facing

A cable from Britain announcing the new FOOD RE-STRICTIONS, including specified scale of allowances for each meal and meatless days, dated London, April 15, says:

"Britain issued today a call to all the Allied nations, not only her own, to help obviate a food shortage. The call solemnly warns them that famine conditions may exist throughout the world, before the next harvest is reaped."

In a letter addressed "to all workers on the land," Lloyd George appealed to them to do their utmost to raise all food supplies. "The line which the British Empire holds against the Germans," his letter continues, "is held at home as well as abroad. If it breaks at any point it breaks everywhere. In the face of the enemy the seamen and soldiers gathered from every part of our Empire hold our line firstly. You workers on land must hold your part of the line as strongly.

. . . Every full day's labor you do helps to shorten the struggle and bring us nearer victory. Every idle day, all loitering, lengthens the struggle and makes defeat more possible. Therefore in the nation's honor, heed! Acquit yourselves like men, and as workers on land do your duty with all your strength."

J. Ogden Armour, head of the great packing house in Chicago, says that "the people of the United States are not awake to the seriousness of the situation they are facing. According to Mr. Armour, who is undoubtedly a high authority, "the food shortage is universal." European production," he says, "has been cut in half. Argentina has suffered loss. The question of the food supply is the most pressing and important one before us. We have entered the war. Our first duty is to see that both our own people and our Allies have food."

Mr. Armour proposes Government control of the food supply. Federal guarantee to the farmers of a fixed price for wheat, increased crops, meatless days, strict economy in all households and the cultivation of every available acre.

THE PROVINCIAL GOVERNMENT EMPLOYMENT BUREAU, 15 Dominion Savings Building, Richmond Street, is daily receiving applications for help from the farmers of this district, and all experienced farm help that can be secured is urgently needed NOW if even normal crops are to
