TORY LEADER TO

G. Howard Ferguson Ready for Attack.

Toronto, Jan. 7.—Hon. G. Howard Ferguson, leader of the Conservative party, in an interview today, stated that now the U. F. O. Government had had an opportunity to get settled in office, his followers would no longer feel any qualms about attacking Premier Drury's administration in the most ruthless is oner. "There will be exposures," he this morning, "which will both intermediate the public."

present administration has in-in a perfect orgy of expendi-he added, "more especially with regard to roads."
"When the U. F. O. Government came into power they announced that the people were going to rule, and that there would be a real democracy, with no patronage, no caucus domination, and no extravagance. Yet patronage is rampant in its most vicious form all over the province."

VINCENT STRONG IS NOW IN KINGSTON PENITENTIARY

Not As Bad As He Is Reputed To Be Thinks Deputy Sheriff.

Vincent Strong, youthful burglad and esperado, is now safely lodged behind the walls of Portsmouth penitentiary at Kingston. Deputy Sheriff Ben Watterworth, accompanied by Constable J. EE. Gobel, escorted Strong and two other prisoners to Kingston yesterday. Strong made no trouble at all on the way, but did not talk much, except to the other two prisoners, Armstrong and Smith, who previously convicted, had been brought back from Kingston to

to pick out houses unlighted early in above normal.

the evening, indicating absence of the owners from home. One need not be been light for many weeks. Train crews a very desperate character to rob a on both roads have been laid off.

WESTERN U. EXAMS.

Engaging Much of the Students' Time -Preparation of Papers on 15th.

The forthcoming examinations at the The forthcoming examinations at the Western University are engaging much attention among students and professors alike. A conference of the representatives of the affiliated educational institutions will be held at the university on the 15th of this month to complete the preparation of the question papers. As the matter of dealing with the extension of the collegiate course prior to matriculation is still subjudice, and will remain so for some time to come, it is premature to offer any o come, it is premeture to offer any definite comment on the matter. "It is largely a question of simplification and reduction in the curriculum," says Dean Sherwood Fox, "too much being crowded into the term now provided."

FIRST HUSSARS

Good Turnout at First Drill of Season Friday Night.

MRS. ELIZABETH BAKER.

Mrs. Elizabeth Baker, 80 Byron avenue, died at her home on Thursday after a brief illness, in her 70th year. Mrs. Baker was born in England, and had been in the city for the past 15 years.

Mrs. Baker is survived by her husband, one son, Roy, and three daughters. Mrs. William Jones of Delaware, Mrs. G. Sonley and Mrs. Edgar Cook of this city. The fuheral will be held on Monday afternoom from her residence to Woodland Cemetery. Rev. J. T. C. Mor. ris will conduct the services.

ACCIDENTS COME TO THE DESERVING

The science of electromagnetism, which now plays such an important part in medicine, is just 100 years old, as it dates from what is called "Oersted's Experiment." "It was during the winter of 1819-1820," says the Journal of the American Medical Association, "that Oersted observed that a wire uniting the ends of a voltaic battery affected a magnet placed in its vicinity, and after prosecuting his inquiries some months later, in July, 1920, he published his Latin quiries some months later, in July, 1920, he published his Latin tract, 'Experimenta circa effectum Conflictus Electrici in Acum Magneticum.' It is interesting to know that this distinguished Danish physicity where know that this distinguished Danish physicist, who was a professor at the University of Copenhagen, where the centenary of his great discovery has just been fittingly celebrated, was the son of a country apothecary and originally studied medicine. Thus, like many others who have achieved distinction in science, Oersted began his career with ambitions for a knewledge of medical disciplines. His observations, connecting electricity with magnatism in ways retains with magnetism in ways not anticipated before the 'Oersted experiment,' are a lasting monument.
"It has been said that Oersted stumbled upon his discovery by sheer accident. The answer, given to a similar remark about Newton, is illuminating: 'Such accident's only meet persons who deserve them.'"

OPPOSES PLAN

Representative Britten Would Have U. S. Proceed With Big Program.

Washington, Jan. 7 .- Opposing all plans for cutting down the naval strength of the United States through disarmament agreements with other countries, Representative Britten of Illinois, Republican member of the House naval affairs committee, yesterdirect the navy department to proceed at once with its big building program.

Tri-Weekly Service on L., H. and B. in Effect Next

strong made no trouble at all on the way, but did not talk much, except to the other two prisoners, Armstrong and Smith, who, previously convicted, had been brought back from Kingston to testify in the charge of receiving stolen goods against Jacob and Harry Wilner, now on bail to appear for trial again next June. Petitions have ben circulated for the parolling of both Armstrong and Smith, but the petitions have not yet been officially considered.

Strong intimated that in his own opinion the term in Kingston might do him some good. He looked forward rather pleased, to the prospect of learning a trade during his imprisonment. In the opinion of Mr. Watterworth, Strong is not as dangerous as he is reputed to be. Mr. Watterworth points out that Strong's system was to pick out houses unlighted early in the evening, indicating absence of the looked forward trade of the year, the daily way-treight traffic on the G. T. Because freight traffic on the C. T. Because freight traffic on the G. T. Because freight traffic on the C. P. R. freight traffic on the centure freight traffic on th

MANY APPLICANTS FOR ALLOW-ANCE.—The Middlesex Mothers' Al-lowance Plard is meeting this after-noon at the county building. County Clerk John Stuart is chairman. A number of new applicants for mothers' allowances under provincial mothers' act will be considered. NO TRACE OF BANDITS .-- No

NO TRACE OF BANDITS.—No trace of the bandits who committed robberies in this city on Monday and Wednesday nights, had been found up to late today. The police have heard nothing concerning suspected men alleged to be held at Windsor. No further robberies have been reported since Wednesday night.

MILK WAGON DEMOLISHED.—The milk wagon of Leonard Player, Brick street, was almost totally demolished in a collision with a Normal street car at the corner of Central avanue and Wellington streets, this morning. Both front and rear wheels of the milk wagon were broken, the milk was scattered. The 1st Hussars, who were recently reorganized, held their first drill in the armories last night. There was a good turnout of the members of both A and S Squadrons, and excellent progress was made with the training. Several recruits were taken on the strength, and all express records of the canadian Club at the club's annual luncheon at the Tecurseh wagon were broken, the milk was scat-tered about, and the bottles broken.

recruits were taken on the strength, and all appearances pointed to a successful year for the unit. Drills will be held regularly hereafter in the armorles truesday and Thursday nights, for which the men will draw pay.

It was announced that C Squadron Leamington has also commenced its training and is making good progress.

The Hussars are also beginning their activities along other lines. Their basketball team will play its first league match next week.

Solutions to attend.

WILL FINISH WELL THIS WEEK.

Work on the 12-inch well, which is being sunk at the corner of Wellington and Nelson streets by the waterworks department of the public utilities commission, will, it is expected, be finished the 80 feet level, at which a fair supply of good water has been found. The 4-inch test pipe which was sunk to over 200 feet, and which tapped a flow of sulphur water, has been cut off. METHODIST WOMEN MEET.-Last

WILLIAM HEATHFIELD.

The funeral of William Heathfield, who died on Wednesday at his home, 1069 Pine street, as a result of a stroke will be held on Saturday afternoon from his residence at 2 o'clock to Woodland Cemetery. Rev. H. B. Ashby will conduct the services.

Mr. Heathfield is survived by one son, Thomas and two daughters, Mrs. H. Storey and Mrs. H. Burgess, all of this city.

MRS. ELIZABETH BAKER.

Mrs. Elizabeth Baker, 80 Byron avenue, died at her home on Thursday after a brief illness, in her 70th year. Mrs. Baker was born in England, and had been in the city for the past 15 years.

Mrs. Baker is survived by her huscasion. Mel Brock of the Western "U" will be present and strive to interest the girls in the Interscholastic Sports League, which will begin its league games in the spring, the contestants being the different collegiate teams of Ontario. Excellent music will be provided by the De Wolfe Orchestra, which is entirely made up of collegiate boys.

Mr. Hill—Marie simply worships her husband, doesn't she? Mrs. Hill—Well, she places burnt offerings before him three times a day. TO TEST HEADLIGHTS FOR LOCAL AUTOISTS

Anti-Glare Headlight Regulations Are Now in Effect.

A long, dark alley, a long garage without windows, or windows that can be tightly closed, or some other kind of be tignily closed, or some other kind of building which will serve for testing the various new anti-glare headlight fixtures, required under the anti-glare motor vehicle legislation, is being sought by C. EE. Bernard, secretary of the London Motor Club.
In Detroit the police commissioners In Detroit the police commissioners solved the problem by erecting on Malcolm street a long dark sheet-iron building through which motorists drive, and if their headlights are all right, stickers to this effect are pasted on the windshield as the cars emerge from the testing tunnel. In London the matter, is being left entirely to the Motor Club, and official certificate will be issued to motorists whose headlights are satisfactory.

isfactory.

The result of the test will only enable the motorist unofficially to feel satisfied that the anti-glare device which he has installed on his car is correct. Possibly, however, this might stand in his favor, should the police afterwards find fault with his headlight, and hale him into court under the act.

ourt under the act.

Secretary Bernard has written to
Toronto for government, reports on
the headlight testing experiments, but
has been informed that the edition has
been exhausted. Copies are promised
as soon as a new edition is off the

QUEBEC'S MOVE **FOR PROHIBITION** PLEASES SPENCE

Toronto, Jan. 7.—The intention of the Quebec Government to bring down a bill at the next session to absolutely prohibit the exportation of liquor for any purpose and to bring vendors under Government control will meet with the decided approval and sympathy of the Dominion Alliance, according to the Rev. Ben Spence today.

"I knew it was coming." he "I knew it was coming," he said when the dispatch from Ottawa was read to him, "and I must say that the fact that the Quebec Government has come to a realization that that province is the but for the North American

KIWANIAN SPEAKER

the bar for the North American continent, and the stamping ground for the hoodlum element is exceedingly encouraging."

Kingship of Service Is Keynote of Kiwanis Club, He Declares.

"Kingship of service is the keynote and initial letter of the Kiwanis Club." This was the thought which today's speaker, Rev. (Capt.) Jeakins, Brantford, put before the members of the club at their first weekly luncheon in the Tecumseh House today. There was a splendid attendance, and Alf. Mitchell, president, occupied the chair.

Capt. Jeakins was a chaplain in France during the great war, and his frousing address was interspersed with apt illustrations and racy stories drawn from his experiences of soldiering. After congratulating the members of the club on making such a magnificent start, Capt. Jeakins proceeded to elucidate the significance of each letter of the word "K-i-w-a-n-i-s." The fdeal of service, he said, had been superbly consecrated by our fighting men in France, and this kingship of service was the master key to all our living and thinking.

There was no danger of crumbling thrones so far as the British Empire was concerned, so long as it possessed men of the type of King George and the Prince of Wales.

"The speaker then dealt with each letter in turn. "I" stands for the word "international," and in this connection he deplored the dangerous propaganda which was going on in the United States and overseas for the disruption of the Empire. "W" stands for the poison of Bolshevism, unrest and chaos. "A" for "aim"—some definite purpose in life, an aimless man being of no use to any community. "N" represents "nonsense"—in the spirit of "a little nonsense now and then is relished by the best of men," and it also stands for "neighborliness." "I" signifies "independence," and embraces the spirit of unity for one great purpose, and, finally, said Capt. Jeakins, "S" stands for the gospel of "smiles," optimism being a great asset to the businessmen of London.

The speaker was warmly cheered for his stirring address, and the "lions" Toared their loydes."

London.

The speaker was warmly cheered for his stirring address, and the "lions" roared their loudest.

Gerald Pearson of the Bank of Montreal was the winner of the prize draw, the souvenir being gold cuff links.

It was resolved to submit the names of the president, Alf Mitchell, and the first vice president.

Daily Paper

yard customs will be shattered, following the funeral of Sam Radges, a directory publisher, tomorrow afternoon. A daily newspaper will be delivered to his grave every morning and an electric light will be kept burning in his tomb day and night, was learned today.

Before his death, Radges paid a 20-year subscription to a newspaper, directing delivery of the paper to his grave every morning. He also installed electric lights and made provisions so they would be kept burning day and night for the same period.

Radges, said to be the son of the jeweler to King George V. of England, left \$30,000 to charity, according to his will probated today.

SPLITTING ATOMS IS A WEARYING TASK

How delicate and difficult is the task of breaking up the atom of nitrogen is indicated by some remarks of Er. E. Regner in an article translated from Die Umschau (Frankfortam-Main) for the Scientific American monthly. The method was devised by Sir Ernest Rutherford, the distinguished English scientist, and consists of bombarding nitrogen atoms with helium atoms and observing on a scintillation screen the flashes caused by the collisions. When an alpha particle (helium) directly strikes the nucleus of a nitrogen atom, this is decomposed and the portion liberated is apparently the nucleus of a hydrogen atom.

Dr. Ragner says "the method of observation of the scintillations (at present the only one) is so wearisome, in the exact sense of the word, that the development of further investigation must necessarily be very sloy. Rutherford himself declares that no one can perform this task of counting for more than one minute at a time and then giving the eye one minute of rest."

The details of this epoch-making experiment are too complex to be entered into here, but its The details of this epoch-making experiment are too complex to be entered into here, but its far-reaching significance may be stated. It seems to prove that nitrogen is not a simple element, as has been supposed, for it contains hydrogen. This revives the old hypothesis of Prout that all elements are composed of contains hydrogen. This revives the old hypothesis of Prout that all elements are composed of hydrogen. We know that the atoms of the radio-active elements—radium, uranium, etc., contain helium, and it is probable that other elements also contain it—carbon and iron, for example, which do not seem to contain hydrogen.

Thus we have learned how to decompose the atoms of certain elements, even to decompose the nucleus of the atom. This is the nucleus of the atom. This seem it must not be supposed that we are yet ready to go on to decompose these atoms and thus make gold out of lead or platinum out of carbon. This seems still far away in the future, but who knows what the creat scientists who are working on the problem of the atom may yet discover?

VICTORY BONDS LAST ISSUE EDWARD CRONYN & CO.

Keen Demand for Light Supply on Friday's Market-Poultry Firm.

Buyers were keen after hay on the London market today, and prices advanced \$1 per ton over the top price paid on Thursday. For timothy \$30 per ton was reached. There was, however, a light supply.

Oats were in good demand at \$1.50 to \$1.55 per cwt, but the supply was not very large. By the bushel this price fingres out at from 51 to 52 7-10 cents. Wheat was quoted at \$1.60 to \$1.55 per bushel. \$1.65 per bushel.

Live hoss had still a downward ten-

Live hoss had still a downward tendency at prees ranging from \$14 to \$14.50 per cwt., while the dressed product brought \$21 to \$22. The supply of the latter was limited.

Potatoes sold at from \$1.50 to \$1.65 per bag wholesale, and \$1.75 retail. The supply is ample, and prices may yet go lower.

Poultry was firm and prices a little higher. Dressed chickens brought \$2 to \$5 cents wholesale, and 35 to 37 cents retail. There was nothing doing in turkeys or geese. eys or geese.

TORONTO STOCK EXCHANGE.

TORONTO STOCK EXCHANGE.

Toronto, Jan. 7.—Further recovery was made by Atlantic Sugar on the stock exchange this morning, following its sudden revival yesterday afternoon. Assuming the leadership of the market the sugar stock soon led the entire list to higher levels. Brazilian, which has been steadily climbing during the present week, was the only exception, belated profit-taking resulting in fractional depression.

Sugar soon ran up to 27½ on sales of 25-share lots, but eased off to 26% toward the end of the morning for a net gain of 1½. C. P. R. was stronger, closing for an advance of ½. Steamship issues held steady.

In the unlisted section Whalen Pump jumped 3% to 25c, and Brompton added a large fraction.

Victory bonds were strong.

ARE BEING RETIRED Athens, Jan. 7.—Eighteen generals and more than 200 colonels were appointed to the Greek army today to replace adherents of former Premier Ventzelos. In view of the movements in Thrace and Constantinople, doubts were entertained of the loyalty of the Ventzelist officers, and it was decided to retire them on pay, their places be-Bought -- Sold -- Quoted
