and must be most injurious to the men and to the company. "I would point out in regard to the suggestion that I follow the course adopted by President Roosevelt in the coal strike, that thru legislation enact-ed by parliament some eighteen months ago, this step has already been taken. President Roosevelt, by the consent of the parties, secured an investigation of the matters in dispute by a tribunal in which both sides and the public were represented. In the present dispute the parties, irrespective of their wishes, have been obliged to submit the dif-ferences between them to a board, which has made a full enquiry. "As to the suggestion that the par-ties be compelled to refer the dispute to a second board, the personnel of which has been named by the congress, and be asked to abide by the award, I would point out that there is no legis-lation which gives me power to compel such a reference.

Had it not been for this law, there would not have been any strike on the C.P.R. to-day, he declared. Robert E. Scott, Halifax, and A. J. Another official stated, however, that the C.P.R. began to stand pat weeks ago and they would not change their attitude even for so great a man as Sir Wilfrid Laurier. Carter of Michel, B.C., Miner's Union, were opposed to the Lemieux law. It had shown itself useless in the trou-ble experienced at Michel and Fernie. Mr. McKinnon, Winniez represent-ing the Brotherhood of Locomotive. Engineers, was opposed to the Lam-ieux law. The biggest strike in 20 years was now on, with C.P.R., and he blamed the law for the conditions that prevailed. R. P. Pettiniece, Van-ccuver, was absolutely opposed to the bill. Can't Be Enforced.
