TRAGEDY IN CUSHING MILL

Samuel Hutton Killed by Portion of Machinery Bursting.

A crash that was heard above the rattle of the mill, the whirling of shattered machinery, and Samuel Hutton, with crushed face and broken thigh fell through the wrecked floor and, when picked up, was gasping out his life. As he fell he was caught by the broken, whirling body of a 30-inch wheel and his bones fearfully broken.

The accident happened a few minutes before 5 o'clock yesterday afternoon in the building in the rear of the Cushing mill, Union Point. The victim, whose uncle of the same name, perished in the Primrose yachting disaster a few years ago, was about twenty-five years of age, the son of John Hutton, of Prospect street, Fairville, and was unmarried.

The accident occurred with such bewildering swiftness that few, if any, saw it. Directly beneath that part of the floor upon which Hutton was standing was situated a revolving device utilized to grind up the refuse wood for the furnace.

He was feeding the wood into the receptacle through which it passed on the way down into the teeth of the machinery, when without an instant's warning the flooring beneath him flew apart.

Splintered boards and jagged chunks of iron soared to the ceiling, and one whirling fragment of steel went through the roof, as if the thick timber had been but blotting paper.

The space torn in the floor was fully eight by four feet, and at the bottom, with his blood crimsoning the wreckage, was found Hutton. The "hog," which was described as a cast iron wheel thirty inches in diameter, and fitted with knives or teeth, and covered with a cast-iron drum, had burst.

In three pieces it was driven through the floor, with appalling velocity. The heavy boards were split and hurled aside, and it is probable that Hutton never knew just what happened.

His associates were all in or about the mill at the time, but he alone received injuries. The extreme suddenness of the accident was almost stupefying in its effect, for a few moments, but as soon as the men fully realized what had happened they rushed to the side of the rip in the floor, and a glance was sufficient to know that Hutton was mortally hurt. He was tenderly lifted out and borne to a hastily-made couch near the mill entrance, after which Dr. L. M. Curran was summoned.

He showed no sign of consciousness. His skull was fractured, and the bones of his face were broken and his neck probably broken.

The men were just on the point of knocking off for the day when the accident occurred, and among those in the building at the time were Joseph Dyer, the foreman, James Whalen, James and Wallace Brown, Charles Haggerty, Chas. Savage and James Dwyer.

Dr. M. L. Macfarland, as coroner, ordered that an inquest take place at 8 o'clock this evening in the Valley Court House. He empaneled the following jury: Robert Irvine (foreman), Jeremiah Stout, J. J. Hemmings, Charles and Macfarland, James Miller and James Long. The jury viewed the body, after which it was removed to the home of the deceased parents. Each of the pieces of iron would weigh from fifty to eighty pounds. That which lodged on the floor was removed by Charles Haggerty, and the other pieces were left as they had fallen on the mill floor.

George Cushing, of the company, said last evening that he was not in possession of enough facts to be able to attempt to explain the precise cause of the bursting of the hog.

"The machinery," he said, "was not defective, and I do not see how such an accident could have taken place unless a piece of iron, which must have been gathered up in the mill refuse, was passed into the hog."

"The machinery," he said, "was not defective, and I do not see how such an accident could have taken place unless a piece of iron, which must have been gathered up in the mill refuse, was passed into the hog."

SUCCESSFUL CANDIDATES

Names of Those Who Passed Law Exams. Given Out Last Night—Court Will Decide Miss French's Case.

The results of the law examinations recently held at Fredericton were given out at a meeting of the council of the Barristers' Society held at the capital last night.

Candidates for attorney who passed the examinations were: R. Trites, G. M. Mahoney, A. A. Allen, T. J. Allen, J. R. McLeod, A. T. LeBlanc. On examination M. L. Hayward, H. O. McInerney and Miss Mabel French, from the St. John Law School.

The examiners reported that Harold B. Robinson, J. Perley Lunney, G. Earle Logan, of St. John, and Charles Jones of Woodstock, had passed examinations as students of law and were admitted. Another applicant failed but the council will allow him to take a supplementary examination.

As regards Miss French the council will recommend that she has passed all the required examinations and that she is a proper and fit candidate for admission to the bar, so far as scholastic attainments are concerned, the only objection being her sex. The matter will be left with the bench to decide.

MISS MABEL FRENCH

The matter will be left with the bench to decide.

THEORIES ABOUT FOOD

Also a Few Facts on the Same Subject.

We hear much nowadays about health foods and hygienic living, about vegetarianism, and many other fads along the same line.

Restaurants may be found in the larger cities where no meat, pastry or coffee is served and the food cranks in his glory, and arguments and theories galore advanced to prove that meat was never intended for human stomachs, and almost none believe that our sturdy ancestors who lived four-score years in robust health on roast beef, pork and mutton have been grossly ignorant of the laws of health.

Our forefathers had other things to do than formulate theories about the food they ate. A warm welcome was extended to any kind, from bacon to acorns.

A healthy appetite and common sense are excellent guides to follow in matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best.

As compared with grains and vegetables meat furnishes the most nutriment in a highly concentrated form and is digested and assimilated more quickly than vegetables or grains.

Dr. Julius Thomson, on this subject, says: "Nervous persons, people run down in health and of low vitality should eat meat and plenty of it. If the digestion is too feeble at first it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three hours and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets, because they supply the pepsin, and diastase necessary to perfect digestion, and every form of indigestion will be overcome by their use."

That large class of people who come under the head of nervous dyspepsia should eat plenty of meat and insure its proper digestion by the daily use of a safe, harmless digestive medicine like Stuart's Dyspepsia Tablets, composed of the natural digestive principles, pepsin, diastase, fruit acids and salts, which actually perform the work of digestion. Cheap cathartic medicines, unsuited under the name of dyspepsia cures, are useless for indigestion, as they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its many forms is simply a failure of the stomach to digest food, and the sensible way to solve the riddle and cure the dyspepsia is to make daily use as a meal time of a preparation like Stuart's Dyspepsia Tablets, which is endorsed by the medical profession and known to contain active digestive principles.

CLAN MACKENZIE

The fourteenth anniversary of Clan Mackenzie was celebrated last night with a delightful entertainment in the Oddfellows' Hall. There was a large number present. Chief Andrew Malcolm in the chair. The programme was an interesting and varied one and comprised vocal and instrumental solos and duets as well as choruses. At the conclusion of the programme the floor was cleared and dancing was indulged in.

A pipe band of four pieces and a kettle drum furnished a number of selections during the evening as well as supplying music for the dancing. The pipers were Homer Oulshank, Alexander Cruikshank, W. H. Rose, and Roy Willet, while Edward Smith manipulated the drum sticks. Among those who contributed to the programme were Mrs. Rubens, M. Gledy, N. J. McDowen, Miss Marion Campbell, M. Smith Hoy, Harry A. Shaw, W. M. Holt, G. K. Cameron, and John T. Kelly.

During the evening the following telegram was received by Acting Chief Andrew Malcolm:

"Regina, Saskatchewan, Nov. 7, 1885. 'Acting Chief Clan Mackenzie, I. O. O. F. Hall, Union Street, St. John (N. B.): 'I'm with you all but flesh tonight.'"

"JOSEPH A. MURDOCK, 'Chief.'"

The following answer was sent to Mr. Murdoch:

"Joseph A. Murdoch, Regina, Saskatchewan: 'Message received. We thought of you as one of you; we missed you, sir, ANDREW MALCOLM, 'Acting Chief.'"

LACK OF EXPRESSION

in rendering an operetta is a reflection on the performer and always embarrassing. This is applicable to

Laundry Work Lacking Expression.

If we did it we would be humiliated. As it is, however, our Laundry Work is full of expression, and always satisfactory to the wearer. If we launder for you, you won't think about making a change—you'll be satisfied.

30 to 50 Pieces 75c.

UNGAR'S LAUNDRY, Dyeing and Carpet Cleaning Works Limited, Telephone 58.

Important Local Life Insurance Investigation.

The Sun Life Assurance Co. OF CANADA

Requests the Public to inspect its list of fifteen and twenty year dividend policies which have matured in the New Brunswick agency during 1905.

The profits paid on these policies exceeded promises made when policies were issued.

These results are splendid examples of what is being daily accomplished throughout Canada by this prudently managed and prosperous Company.

The Sun Life of Canada

commenced business in 1871, and its Reserve Fund is largely in excess of the amount required by Government standard.

The Company also issues Very Attractive Guaranteed Dividend and Annual Dividend Policies.

GILBERT C. JORDAN, Manager for New Brunswick.

6 to 8 Market Square.
