BOND ISSUE TO BE ADVERTISED ONLY LOCALLY

County Finance Committee Meets on Matter of \$248,500 Debentures

At a special meeting of the finance committee of the Saint John Municipal Council, held this morning at the Court House, it was decided that the advertisement for tenders for a bond issue authorized at the meeting of the council should be placed only in the local newspapers and a committee was appointed to consider and award the contract to the successful bidder.

Hon. R. W. Wigmore, warden, was in the chair and Mayor White, Commissioner Bullock and Councillors McCavour, Seely, Smith, Golding, O'Donnell and McLeod were present.

County Secretary J. K. Kelley, K.C., reported that, acting under authority granted at the last meeting of the Municipal Council, he had awarded the contract for printing the bonds to the Globe Publishing Co., they having submitted the lowest tender.

The bonds will be issued under date of July 1, 1926, and will bear interest at the rate of 5 per cent. The total issue is \$248,500, of which \$8,500 of sewerage bonds for Lancaster will run for 20 years.

ONLY LOCAL PAPERS The county secretary said that in view of the large amount of the issue he would like direction from the committee as to whether the advertisement for tenders should be placed only in the local press or whether the financial papers of upper Canada should be used as well.

Commissioner Bullock said he thought the local press should be used and expressed the opinion that the bond dealers in other parts of the country would know what was going on and put in a bid if they desired to do so.

WILLIAM LILLEY 340 YEARS OLD

William T. Lilley of the staff of Manchester Robertson Allison Ltd., is possessor of a book that left the hands of the printers away back in 1586, that is 340 years ago. It is a fine example of the printer's art and that of the binder and is in remarkable state of preservation. The title page bears out that it is "Designed to give 800 points of good husbandrie, as well as for the champion of open countie as also for the woodland of generall mixed in every month with housewife. Newly set forth by Thomas Tasser, gentleman."

Book on Farming Was Printed in London in 1586

Mr. Lilley, after some search in books of reference, found that Mr. Tasser was born about 1560 and died about the year his book was printed. He had been of humble birth and early engaged as a plowboy. He was taken in hand by Lord William Paget and by him was educated at Oxford. The book is dedicated by the author to the man of high estate who had provided him an education.

LAURENTIAN IS ON WAY TO SAINT JOHN

The C. G. S. Laurentian, which was beached near Little Wood Island, Grand Manan, after she struck a submerged rock near there on Monday morning, is on her way here and should arrive this afternoon, according to a message received by J. C. Chesley this morning from Captain McLean, in command of the damaged vessel.

Damaged Government Vessel to go on Marine Railway Here

The Laurentian was floated yesterday afternoon when the fog lifted and was taken to Seal Cove wharf where the temporary repairs made by the crew to her damaged bottom were tested for safety. They were found to be satisfactory. Mr. Chesley said that the Laurentian will be placed on the marine railway of the Saint John Dry Dock and Shipbuilding Co., where the ship will be examined and repaired.
